

MOTION AUTHORIZING MAP, PLAN AND REPORT FOR GENERATOR AT PUMP STATION IN WARREN ROAD SEWER DISTRICT

MOTION 24-

MOTION AUTHORIZING MAP, PLAN AND REPORT FOR GENERATOR AT PUMP STATION IN WARREN ROAD SEWER DISTRICT

Motion authorizing Town Engineer prepare a Map, Plan and Report (MPR) for installation of a generator at the Warren Road Pump Station. The total cost of the MPR is not to exceed \$2,000.00. The Highway Superintendent has stated the need for a stand-alone generator within the Warren Road Sewer District to keep the pump station operational during power failures. It was discussed at the February 28th, 2024 meeting that these pump stations not being operational during power failures could lead to a public health emergency.
