

Please provide answers to the following questions:

*Can the benefit be achieved by other means feasible to the applicant? **No, We want our sign to be easily seen.**

*Will there be an undesirable change in the neighborhood character or nearby properties? **No, in fact we believe it will enhance the neighborhood character.**

*Is the request substantial? **We do not believe so. It seems to us most signs along the road are at the same distance that we are asking for.**

*Will this request have adverse physical or environmental effect? **No.**

*Is the difficulty self-created? **We do not believe so. We think there should be an amendment for “sign setbacks” added to the codes.**
