

**MOTION AUTHORIZING MAP, PLAN AND REPORT FOR GENERATOR AT
VILLAGE CIRCLE WATER TANK IN THE CONSOLIDATED WATER
DISTRICT (CWD)**

MOTION 25-

**MOTION AUTHORIZING MAP, PLAN AND REPORT FOR GENERATOR AT
VILLAGE CIRCLE WATER TANK IN THE CONSOLIDATED
WATER DISTRICT (CWD)**

The Director of Public Works/Highway Superintendent has stated the need for a stand-alone generator for the Village Circle water tank in the CWD to keep the water tank operational during power failures. The need and ability to pump water from the Village Circle water tank to Bone Plain water tank during a prolonged power outage is extremely important. The loss of water within the CWD tanks is a threat to life and property.

Motion authorizing Town Engineer prepare a Map, Plan and Report (MPR) for installation of a generator at the Village Circle water tank in the Consolidated Water District (CWD). The total cost of the MPR is not to exceed \$3,500.00.
