

The proposed new 2800SF building labeled 24, will be open to a tenant for a variety of uses that are permitted in the IR zoning district. Without having a tenant yet, it's hard to say what the exact use will be, but it will likely fall under one of these uses below.

Contractor's/ landscaping yard

Warehouse, storage or wholesaling of nonagricultural goods or materials

General processing, light manufacturing and assembly

Professional or business office (not in a home)

The final use will vary depending on the tenant.
