TO: Mayor & City Council
FROM: Mike Greene – City Administrator
DATE: December 15, 2025
RE: 2026 Southfield Road Water Main

Background Brief: Please see the enclosed project memo from City Engineer – Giffels Webster.

As Council is aware, the City was awarded up to \$959,752 from Congresswoman Tlaib in 2024 via a Congressional Directed Spending grant for this project. Staff/City Engineers have worked our way through the required EPA application portion and are ready to proceed with construction.

The grant will cover 80% of the construction cost, with the City Water Fund covering the additional 20% + engineering. The grant is a reimbursement grant, so the City will front the funding to the recommended contractor and will be reimbursed.

Previous Action: 12-16-24 – Engineering Professional Services Agreement with Giffels Webster

Economic Impact:

Engineering:	\$176,615
City Construction Share (20%):	\$197,871.95
Federal Construction Share (80%):	\$791,487.82
 TOTAL Project Cost:	 \$1,165,974.77
TOTAL NET City Cost:	\$374,486.95

\$1,151,700 was budgeted in 592-536.000-974.000 in FY 25-26 for this project. Over \$70,000 of the engineering fees were paid in FY 24-25.

Recommendation: It is my recommendation that DiPonio Contracting, LLC be awarded this project.

Recommended Motion:

Moved by _____ seconded by _____ to award DiPonio Contracting, LLC the 2026 Southfield Road Water Main contract for an estimated construction cost of \$989,359.77 and authorize the City Administrator to execute all necessary documents.
