

**PLACEMAKING AND PUBLIC SPACES PROGRAM AGREEMENT FOR LOCAL FISCAL
RECOVERY FUND DISTRIBUTION BETWEEN
OAKLAND COUNTY AND
CITY OF LATHRUP VILLAGE**

This Agreement (the "Agreement") is made between Oakland County, a Municipal and Constitutional Corporation, 1200 North Telegraph Road, Pontiac, Michigan 48341 ("County"), and the City of Lathrup Village ("Public Body") 27400 Southfield Road City Of Lathrup Village, MI 48076. County and Public Body may be referred to individually as a "Party" and jointly as "Parties". Notwithstanding any language to the contrary in the Agreement, Public Body is a grantee of the funds it received under the Agreement. Public Body shall comply with all requirements in the Agreement regardless of its classification as a grantee.

PURPOSE OF AGREEMENT. On March 11, 2021, the President of the United States signed the American Rescue Plan Act of 2021 ("ARPA") into law. Section 9901 of ARPA amended Title VI of the Social Security Act to add section 603, which establishes the Coronavirus Local Fiscal Recovery Fund. Oakland County has been allocated \$244,270,949 in Local Fiscal Recovery Fund ("LFRF") dollars under ARPA.

The United States Department of Treasury has issued an interim final rule, and other guidance for qualified uses of LFRF. Those qualified uses include supporting eligible investments in public health expenditures, addressing negative economic impacts caused by the public health emergency, replacing lost public sector revenue, providing premium pay for essential workers, and investing in water, sewer and broadband infrastructure. The County has determined that the distribution of funds in accordance with this Agreement is a qualified use of LFRF funds pursuant to the interim rule and other applicable Department of Treasury guidance.

Placemaking creates quality places essential to dynamic and vibrant communities. Assistance with Placemaking plans will provide economic benefits to the Public Body and the County.

On December 7, 2023, in Miscellaneous Resolution #2023-3615 _ 23-164, the Oakland County Board of Commissioners authorized an appropriation in the amount of Five Million \$5,000,000 dollars from the American Rescue Plan Act, Local Fiscal Recovery Funds, for the Main Street Oakland County Placemaking and Public Services Program to combat the negative economic impacts still lingering in our communities as a result of the COVID-19 pandemic. This Agreement is funded through that program.

County and Public Body enter into this Agreement pursuant to the Urban Cooperation Act of 1967, 1967 Public Act 7, MCL 124.501 *et seq.*, for the purpose of County distributing a portion of its LFRF funds to Public Body.

17. **NO IMPLIED WAIVER**. Absent a written waiver, no act, failure, or delay by a Party to pursue or enforce any rights or remedies under this Agreement shall constitute a waiver of those rights with regard to any existing or subsequent breach of this Agreement. No waiver of any term, condition, or provision of this Agreement, whether by conduct or otherwise, in one or more instances shall be deemed or construed as a continuing waiver of any term, condition, or provision of this Agreement. QB4. Project Description - Provide a brief overview of the public spaces project.
(250 words maximum)

Municipal Park is a highly utilized space in the city for community events, as well as private events and functions. Many infrastructure improvements have been made in recent years including the replacement of unsafe sidewalk segments through the park. The proposed parking lot reconstruction will greatly improve the safety and accessibility of all visitors to City Hall and Municipal Park. Furthermore, the new curbing, ADA ramps, and restriping of the parking lot will improve the overall physical maneuverability of the site. The fully renovated play structure represents a huge leap forward for Lathrup Village children, as well as those in nearby communities. Whereas the existing play structure has some accessible features, the new play structure is designed entirely with a universal design principle.

. To answer the next three questions:

Describe how the proposed public spaces project will address the adverse public health and economic impacts of the pandemic and support improved public health & welfare and overall economic recovery going forward. Frame your response in terms of the downtown district, small businesses, and public health & welfare.

QB5. **Downtown District** - How will this project positively impact the district?
(100 words maximum)

This project will serve many purposes, often at the same time. It will contribute to individuals' well-being, physically, emotionally, and mentally, and a sense of belonging, all while benefiting community health socially, economically, culturally, and environmentally. It should have a positive effect on nearby property values. As part of our town center, this public space not only creates a more desirable setting and atmosphere for the surrounding properties but also increases the economic benefits to surrounding property owners. Public spaces in town centers provide a setting for events and organized gatherings, increasing the number of visitors.

QB6. Small Businesses - How will the project positively impact small businesses in the district?
(100 words maximum)

This type of project has the opportunity to strengthen our local economy and create job opportunities. Community parks have the ability to attract residents and businesses, increase revenue for cities, spur private investment, and increase job opportunities. With the increased traffic at our town center, via the project, our small business will have increased visibility, allowing them to take advantage of a new market.

QB7. Public Health & Welfare - How will the project positively impact public health and welfare?
(100 words maximum)

People value the time they spend in city parks, whether walking a dog, or playing with their children, or having a picnic. Along with the expected leisure amenities, this type of project will provide, it can also provide measurable health benefits, from providing direct contact with nature and opportunities for physical activity and social interaction.

QB8. Describe how the proposed public space project will be primarily utilized (events, concerts, markets, open space, recreation space, etc.). Briefly describe each primary use.
(100 words maximum)

The proposed public space will primarily be utilized as an open space/ recreation space, specifically for the youngest members of our community. The new play structure and play area will greatly enhance the City's largest/most utilized park into an inclusive park that allows all members of our community to participate in outdoor activities.

QB9. Describe how the County ARPA funds be utilized within the scope of the proposed public space project.
(100 words maximum)

The County ARAPA funds would be utilized specifically for the purchase of the inclusive play structure. The remaining work (site work, parking lot, and landscaping) would be cost borne by other sources.

QB10. Outline the timetable for completion of the County funded elements of the proposed public spaces project by September 30, 2026.
(100 words maximum)

If awarded, the City would need to finalize additional funding sources during calendar year 2025. Once sources are secured, we should issue a request for a proposal for the installation of the playground equipment in Q1 of 2026. The intent would be to have the county-funded elements installed and useable by the end of Q2 2026.

QB11. Describe how the proposed public spaces project will be maintained and managed once completed. (100 words maximum)

The long-term maintenance of the Municipal Park Renovations will be incorporated into the regular maintenance activities of the city's Department of Public Services. Additionally, LVDDA and the City regularly host corridor and park clean-ups throughout the summer. A summer partnership is also in place with a local non-profit to assist in the maintenance of the City Hall grounds and DDA plantings.

. Measurable Outcomes

Tracking the measurable outcomes listed below will be required as part of the Interlocal Agreement:

- Number of visitors and residents who utilize the newly created public space on an annual basis during special events and functions in the district.
- Number of activities and functions that take place in the public space in the district to draw foot traffic, users and tourists to the district.
- Number of private partners, private contributions and in-kind contributions that supported the completion of the project and on-going programming and maintenance.
- Number of new businesses, business expansions, and/or public/private investment in the district following the completion of the public space project.

QB12. In addition to tracking those listed above, describe any measurable outcomes unique to the public space project that will be tracked. (100 words maximum):

Dollars of investment made by the DDA Board and City Council into other parks within their respective districts based on the measurable success of this project.

Volito Swing

Safety Standards & Guidelines - Reference Information

The Volito Swing was designed to allow multiple children to swing and engage together. For many years the only swings available for kids to use together were tire swings, which are fun and challenging but presented opportunities for improvement. Tire swings are able to rotate and pivot in all directions, often in an unpredictable manner and, because they aren't easy to propel while sitting on them, other children often have to push the swing to gain and maintain motion. The Volito Swing, along with many similar swings in this growing market trend, provides a multi-user swing that moves in a single axis to-and-fro motion.

The Volito Swing is IPEMA Certified and meets or exceeds the requirements of ASTM F1487-17, which is recognized as the standard of care in the playground industry. This ASTM public playground safety standard is revised every two to three years to remain current with innovation and market trends.

The CPSC Public Playground Safety Handbook hasn't been revised since 2008 and doesn't include new product categories that have been innovated in recent years. There are a couple of points to note when deciding to purchase a multi-user swing:

- Multi-user swings are innovative and CPSC Public Playground Safety Handbook doesn't have a standard that specifically covers them.
- CPSC 5.3.8.3.1 – CPSC recommends that belt swing seats should be designed to accommodate no more than one user at any time. While the Volito Swing is a single axis swing, it is clearly not a belt seat.
- CPSC 2.3.1 – CPSC says that swings intended for more than one user are not recommended because of their greater mass, as compared to single occupancy swings, presents a risk of impact injury.
- The ASTM safety standard, F1487, was revised in 2011 to add maximum impact requirements for swings and the Volito Swing has been tested and is compliant with ASTM impact requirements.
- CPSC has written a letter stating that “the swing impact test in F1487-11 is a reasonable approach to address the concerns posed by unoccupied, heavy, multiple occupancy swings.”
- CPSC has always included an exemption to both recommendations listed above for tire swings, which are multiple occupancy swings that are suspended from a single pivot and permit swinging in any direction.
- CPSC also emphasizes that their Handbook provides recommendations, not requirements. If a jurisdiction adopts the Handbook's recommendations as mandatory requirements, that jurisdiction would need to determine how the requirements should be applied in any particular instance.

I would like to offer my full support for our community's participation in Oakland County's RAP 2.0 Revitalization Placemaking Grant application.

The Lathrup Village downtown district is predominately along the Southfield Road corridor, which is a highly traveled thoroughfare with a wide variety of destinations including retail, salons, day spas, eateries, medical offices, and Lathrup Village City Hall and Municipal Park. As the largest and most visited park in the city, Municipal Park is the hub of community events including Concerts in the Park, Juneteenth Celebration, Fall Fest, as well as many private events and parties. Over the past several years, it is evident that the Lathrup Village Downtown Development Authority (LVDDA) is committed to revitalizing the Southfield Road commercial corridor and enhancing its vibrancy through physical investment and supporting new and existing businesses.

For example, the LVDDA has undertaken numerous physical improvements throughout the district by repaving several alleyways and approaches, implementing a sidewalk replacement program, and initiating several small-scale streetscaping projects including hanging flower baskets, entrance gardens, and banners. They have also successfully implemented a city-wide bike route wayfinding signage, and continue to advocate for enhanced pedestrian improvements and non-motorized transportation options throughout the district.

The proposed project entails the complete renovation the existing play structure at Municipal Park into a fully accessible play structure, reconstruction the adjacent parking lot surrounding City Hall, and relandscaping the extensive flower beds on the east side of City Hall. The estimated cost for this work is \$838,342.

The Justifications: As a Lathrup Village property owner for over 20-years, I am confident the proposed project will have an enduring impact on our downtown district by providing the quality of municipal facilities to our business and residential communities that will serve as critical factor for economic growth. Additionally, the project will not only enhance property values, but it will also give residents and visitors a gathering place that exemplifies Lathrup Village's values of family and unity.

Thank you for your consideration for the Lathrup Village Municipal Park Renovation project as part of the Oakland County Revitalization and Placemaking 2.0 grant application.

Sincerely,

As a property owner located immediately adjacent to the Municipal Park Renovation Project, I feel it will have a transformative impact on our downtown district by offering a safe place for families with children to come and enjoy the community. In addition to what is listed above there are a number of both community and private events that take place at Municipal Park. These events bring residents from several surrounding cities, which brings economic growth to the businesses at Lathrup Village. Families are more likely to attend these events when there are accessible accommodations for all. As a Pastor with two non-profit organizations within the city, it would greatly benefit those who frequent our organizations by offering a safe, clean, and accessible place for clients and their children. Municipal Park is the host site for an annual back to school rally. Hosted by our organization in partnership with both the City of Lathrup and the DDA and supported by several sponsors. This event is widely broadcasted and has brought attendees from as far south as Dearborn and as far north as Pontiac. People of all races, ethnic backgrounds, ages, genders, and social and economic statuses. It gives greater exposure to the city as a potential place of residency and a potential place to do business.

Thank you for your consideration for the Lathrup Village Municipal Park Renovation project as part of the Oakland County Revitalization and Placemaking 2.0 grant application.

Dear Ms. Wildman:

It is with great enthusiasm that I write in support of Lathrup Village's application for an Oakland County RAP 2.0 Revitalization Placemaking grant. Our family business has been the top commercial developer in Lathrup Village for decades, beginning with our first retail project in 1978. Since that time, we have brought dozens of local and national apparel, service, and food businesses to Lathrup Village. During this process, we have recognized the city professionals, contractors, and volunteers put in tremendous effort to ensure responsible management of resources and to meet the needs of residents, businesses, and visitors. Although this community is small in geography, its location makes it a gateway to many Oakland County communities. We hear from our retail and restaurant tenants that folks come from throughout the region to Lathrup Village. And when we volunteer at community events like the Corvette Show, we see guests from countless other communities. Lathrup Village is truly one of Oakland County's front doors.

Our property in Lathrup Village includes land immediately adjacent to the Municipal Park that forms the heart of Lathrup Village. We know that improvements and beautification to Municipal Park will have a positive economic impact because prospective and existing business owners tell us the quality of life and sense of place in Lathrup Village is a major factor for them to open and keep their business along the corridor. Perhaps the small-town feel of Lathrup Village makes this more true than in typical suburban neighborhoods in the region.

In the aftermath of the pandemic, we are reminded why downtowns matter. By drawing people back into the public square, beauty and amenities invite a return to neighborhood community. The pace of change in our society is only increasing, and such improvements at key Oakland County locations like Lathrup Village prepare us for future challenges by strengthening our bonds through shared high-quality space. Thank you for your consideration for the Lathrup Village Municipal Park Renovation project as part of the Oakland County Revitalization and Placemaking 2.0 grant application.

Our office is located on Southfield Road, not far from the Municipal Park Renovation Project. We feel it will have a transformative impact on our downtown district by creating a sense of vitality as it shapes our City Center. Economically, we would benefit from the increased commerce and activity generated from a vibrant, active, and walkable City Center. Current concepts in today's play and landscapes would freshen our district, greatly enhancing the attractiveness of the city and corridor. As a business, we would hold outdoor client meetings there in good weather months giving our business a contemporary and energetic vibe. I feel this project will also re-establish the footprint of community post-covid creating a sense of purpose and hope and beatification for the business and residents alike.

Thank you for your consideration for the Lathrup Village Municipal Park Renovation project as part of the Oakland County Revitalization and Placemaking 2.0 grant application.

Sincerely,

Ms. Wildman:

RE: Revitalization and Placemaking Program (RAP 2.0)

On behalf of SEMCOG, the Southeast Michigan Council of Governments, I would like to offer our full support for Oakland County’s RAP 2.0 Revitalization and Placemaking Grant application.

As the Regional Planning Agency for the seven county region, SEMCOG is a strong proponent of downtown revitalization and local business development. Oakland County’s proposal strongly aligns with the policies and recommendations identified in Southeast Michigan’s Comprehensive Economic Development Strategy CEDS – Increasing Shared Prosperity for a Resilient Economy. This regional strategy focuses on the three pillars for economic development - Place, Business and Talent. One of the main strategies Creating and Marketing Quality Places focuses on creating quality places where people go to celebrate, relax, and have social and economic exchanges. They include diverse neighborhoods, local business districts, and public outdoor spaces, intertwined with our broader systems of transportation, infrastructure, and natural resources. This is implemented by supporting efforts to develop local neighborhoods and business districts as dynamic and diverse places to live, work and visit.

Main Street Oakland County (MSOC) is an officially designated Coordinating Main Street Program, one of two in Michigan through Main Street America, and the only countywide Coordinating Main Street Program in the nation. It has a strong history of successfully revitalizing our downtowns. It will use the RAP funding to strengthen 13 of its downtown districts through placemaking projects such as new parks and social district improvements. The projects, identified by the individual districts will transform blighted or underutilized spaces. Oakland County is requesting \$7 million in RAP 2.0 funds with \$4 million matched by county ARPA Funds and \$3 million from participating community local match for a total of \$14 million.

As our region recovers from the pandemic, creating an environment to attract and retain talent, enable business creation and attraction, and enhance downtown vitality are key to increasing regional competitiveness and stability. As such, SEMCOG is in strong support of this application from Oakland County.
