Re: P25 Simulcast Interlocal Agreement

Background Brief:

In 2023, Oakland County in conjunction with the State of Michigan entered into an agreement which brought all of Oakland County police and fire services onto the state-owned radio system. The state-wide system is known as the MPSCS, or Michigan Public Safety Communication System. The Oakland County portion of the radio system is known as The P25 System. Due to the entire county going to the new P25 system, there was a policy board created within the county to generate an interlocal agreement between user agencies and the county. This interlocal agreement delineates the relationship and responsibilities of the parties regarding the operation, management, maintenance and repair of the county-wide P25 system. The Lathrup Village Police Department purchases, maintains, services, and repairs radios at the local level, and the county is ultimately responsible for the infrastructure.

Economic Impact:

None
