RE: Account WILT-018400-0000-02

Dear Mr. Greene,

Thank you for accepting and reviewing my correspondence regarding the water bill at 18400 Wiltshire Blvd. I recently receive a water bill (1-2-2025-2-3-2025) in the amount of \$567.54 which I have never received a bill of this high amount. Upon receiving notice, I immediately phoned the water department and spoke with Maggie. She in turn provided me with options to investigate this issue (please note we are senior citizens residents living in the home, my husband is a retired firefighter, and I am soon to be a retiree as well). One option provided, was to send a staff member out to investigate. That occurred, the staff member came out and went through the entire house and he could not pinpoint a leak. To date I have not received any additional information/conclusion based on his visit. I am asking you to please review this matter and adjust my bill. A review of my payment history will show that I am not a late payer, nor have I ever experienced a bill of the magnitude.

Please let me know if any additional information is needed. Thank you for your consideration in this matter, I look forward to hearing from you soon.

Sincerely,

  
Vickie B. Hall

 Follow up. Start by Friday, February 14, 2025. Due by Friday, February 14, 2025.  
You replied to this message on 2/14/2025 9:00 AM.

When I first arrived to the house, I went to look at the meter. I looked at the meter and noticed the flow indicator was spinning slowly which tells me they me that they had no water running currently so I went to check the toilets. We noticed the toilet on the main floor in the hallway was running and the o add up especially if the toilet leaks are constant.
