CUSTOMER INFORMATION

1. a. Awarded special item numbers:

SINs	SIN TITLE
511210	Software Licenses
334220	Surveillance Systems, Wearable Body Cameras, and Vehicular Video

b. Identification of the lowest price: See price list below

c. Job titles, experience, functional responsibility, and education: See price list below

2. Maximum order:

SINs	MAXIMUM ORDER
511210	\$500,000.00
334220	\$250,000.00

3. Minimum order: \$100

4. Geographic coverage (delivery area): Worldwide

5. Point(s) of production: Same as company address

6. Discount from list prices: Government Net Prices (discounts already deducted)

7. Quantity discounts: 3% discount for any single purchase order in excess of \$500,000

8. Prompt payment terms: Net 30 days

Information for Ordering Offices: Prompt payment terms cannot be negotiated out of the contractual agreement in exchange for other concessions.

9. Foreign items (list items by country of origin): None

10. a. Time of Delivery: 15 Days ARO

b. Expedited Delivery: Contact contractor

c. Overnight and 2-day delivery: Contact contractor

d. Urgent Requirements: Contact contractor

11. F.O.B. point(s): Origin

12. a. Ordering address(es): Same as company address

b. Ordering procedures: See Federal Acquisition Regulation (FAR) 8.405-3.

13. Payment address(es): Same as Company address

14. Warranty provision: Contractor's standard commercial warranty

[15-22b. Not Applicable]

23. Unique Entity Identifier (UEI) number: JMLELBFBZP9

24. Notification regarding registration in System for Award

Management (SAM) database: Contractor registered and active in SAM

COMPANY OVERVIEW

LIVEVIEW TECHNOLOGIES (LVT) is the premier provider of mobile surveillance technology. Headquartered in Utah since 2005, LVT has provided on demand, rapidly deployed surveillance to the largest companies in the world. What started as a bootstrapped company with a single unit in the CEO's garage, has now grown to more than 400 employees and thousands of units across the country. Today, LVT is used by security professionals in public services, retail, transportation, critical infrastructure, property management, and other industries.

LVT® Units are proven to increase safety on your property and use cloud-based software to show what is happening at any time, from any web-enabled device. LVT systems proactively protect infrastructure, assets, and personnel with automated deterrence methods.

LVT'S DIFFERENTIATORS ARE:

- » Rapidly deployable and relocatable
- » AI event-driven alerts
- » Platform-as-a-service (PaaS)
- » Low metered data consumptions
- » Low power consumption
- » Turnkey
- » IoT orchestration and edge computing
- » Automated behavior and data gathering
- » Cloud-based VMS
- » Proactive deterrence methods
- » Real-time system health monitoring

PRODUCT INFORMATION

LVT UNITS USE MULTIPLE NDAA COMPLIANT CAMERAS along with a loudspeaker, strobe lights, and flood lights to deter intruders. The proprietary software automatically connects with LVT Units and uses active, event driven alerts to control the unit's response—whether that is to turn on the lights, play an audible warning, or alert end users. Also, each LVT Unit is self contained, requiring no external power or communication hookups. Instead, they run on a combination of solar power, batteries, and fuel cell generators and communicate through cell signals. Each unit has the choice of Live Unit and mount, with the addition of a fuel cell generator when necessary. The two Live Units are the D3 and the Omni.

THE D3 LIVE UNIT is a cutting-edge, cloud-based security system. It provides a turnkey mobile solution for perimeter detection, deterrence, and alert-based monitoring.

KEY FEATURES

- Cloud-based automated alerts (email, SMS)
- Active deterrence (flood light, loudspeaker, strobe lights)
- Self-sufficient power management with tamper-resistant battery backup
- iOS and Android apps
- Optional live monitoring services
- Live streaming and 24/7 recording accessible through cellular connectivity
- 3 NDAA compliant cameras
- Toolless installation

1. LOUDSPEAKER
2. ANTENNA
3. STROBE LIGHT (L)
4. STROBE LIGHT CENTER
5. STROBE LIGHT (R)
6. FLOOD LIGHT
7. EDGE CONTROLLER 2TBSSD (INSIDE)
8. TOOLLESS INSTALLATION

THE OMNI LIVE UNIT is a video solution that provides advanced surveillance to any location. It integrates with our iOS and Android mobile apps so you can monitor your surveillance whenever and wherever you need.

KEY FEATURES

- 1 NDAA compliant camera
- Flashing strobe lights
- Live streaming and 24/7 recording accessible through cellular connectivity
- Self-sufficient power management with tamper-resistant battery backup
- iOS and Android apps

- ANTENNA
- STROBE LIGHTS (3)
- (INSIDE) EDGE CONTROLLER 500GB-1TB SSD
- TOOLLESS INSTALLATION
- 360° PTZ CAMERA, NDAA COMPLIANT

MOUNTS

LVT offers different mounting structures to satisfy the unique requirements of your site. The Live Unit can be mounted to an existing wall or pole with access to AC voltage, or if power is not available, the mobile, solar powered mount may be the best option.

Service Contract Labor Standards: The Service Contract Labor Standards (SCLS), formerly known as the Service Contract Act (SCA), is applicable to this contract as it applies to the entire Multiple Award Schedule (MAS) and all services provided. While no specific labor categories have been identified as being subject to SCLS/SCA due to exemptions for professional employees (FAR 22.1101, 22.1102 and 29 CFR 541.300), this contract still maintains the provisions and protections for SCLS/SCA eligible labor categories. If and / or when the contractor adds SCLS/SCA labor categories to the contract through the modification process, the contractor must inform the Contracting Officer and establish a SCLS/SCA matrix identifying the GSA labor category titles, the occupational code, SCLS/SCA labor category titles and the applicable WD number. Failure to do so may result in cancellation of the contract.
