PROJECT UPDATE

MEETING: STORMWATER UTILITY BOARD

Item: MS4 Permit Update
Department: Engineering
Date of Meeting: Wednesday, February 18, 2026
Presented By: Stormwater Coordinator
Action Requested: None

Summary:

The City's Municipal Separate Storm Sewer System (MS4) Permit was approved and reissued. The permit term lasts from June 15, 2024 to June 14, 2029. With each permit renewal period, the City is able to update the Stormwater Management Program (SWMP) to reflect program updates, permit compliance changes, and other revisions as necessary. The SWMP is reviewed by EPD who provides comments back to the City.

EPD Comments:

- 3.3.1 Structural Source Control Measures – 3 comments provided by EPD
- 3.3.2 Illicit Discharge Detection and Elimination Program (IDDE) – 1 comment provided by EPD
- 3.3.3 Industrial Facility Stormwater Discharge Control – 1 comment provided by EPD
- 3.3.4 Construction Site Management – 2 comments provided by EPD
- 3.3.5 Highly Visible Pollutant Sources (HVPS) – 1 comment provided by EPD
- 3.3.7 Impaired Waters – modifications to the attached Plan
- 3.3.9 Public Education – 1 comment provided by EPD
- 3.3.10 Public Involvement – 1 comment provided by EPD

Progress:

All comments have been addressed and provided to the State for review.
