Summary: As part of the annual budget review, the Finance Department evaluates a long range outlook for City Finances. As part of the FY 2025 budget process, it was identified that the City's revenues were not going to be sufficient to support ongoing operations and capital investments of the Solid Waste Fund.

Finance and Sanitation Staff have worked to develop a cost model related to operating and capital expenses based on the various services provided by the Sanitation Department. With this approach, the solid waste rates were evaluated to provide sufficient funding for anticipated operating costs within the sanitation fund and the sanitation fund capital needs

Residential and commercial were evaluated for returns, comparisons to surrounding providers, and current best practices.

Fiscal Impact:

- Will reduce the projected shortfall in Solid Waste Fund
