Voting Yea: Board Member Hardy, Board Member Johnston, Jr., Board Member Nash, Board Member Young, Board Member Boutwell

AN ORDINANCE TO AMEND

THE ZONING ORDINANCE OF THE CITY OF LAWRENCEVILLE

The City Council of the City of Lawrenceville, Georgia hereby ordains that The Zoning Ordinance of the City of Lawrenceville is amended as follows:

Section 1. **Delete Article 7, Signs, Section 702.1 Billboard in its entirety and replace it as follows:**

702.1 Billboard

A sign, larger than 200 square feet in area.

Permitted Sign Dimensions

Maximum Height (including structure)

45 feet

Minimum Setback from Right-of-Way

60 feet

Maximum Sign Display Size

672 square feet- 14 feet (H) x 48 feet (W)

Quantity Permitted

Special Use Permit required

The standards for billboards shall also apply to digital billboards, electronic message centers (EMCs) billboards and multiple-display area billboards, unless otherwise provided in this Section;

A. Special Use Permit Required

Permitted in an HSB, LM or HM zoning classification with the approval of a Special Use Permit;

B. Restrictions

1. Georgia Highway 316/University Parkway

- a.** Billboards shall be strictly limited to parcels of land adjacent to and located between the intersection of Georgia Highway 316/University Parkway and Georgia Highway 20/124 and the intersection of Georgia Highway 316/University Parkway and Hi Hope Road;
- b.** Billboards shall be strictly prohibited at any other location;

- a.** Billboards, including base and Sign Surface Display Area, shall not exceed an overall height of forty-five (45) feet, as measured from normal grade to the top of the highest attached component;
- b.** The bottom of a Billboard Sign Surface Display Area shall be thirty-one (31) feet above normal grade to the lowest attached component;
- c.** Billboards below grade and adjacent to an elevated segment of Georgia Highway 316/University Parkway may be granted permission to increase the overall height requirement to not more than forty-five (45) feet above the centerline elevation of Georgia Highway 316/University Parkway with the approval of a Variance by the Board of Appeals. Variance request shall be limited to a particular hardship upon the owner relating specifically to the physical surroundings, shape, or topographical condition of the property;

3. Maximum Sign Surface Display Area

The entire area within a continuous perimeter, enclosing the extreme limits of sign display, including any frame or border but excluding any supports. Curved, spherical, or any other shaped sign face shall be computed based on the actual Sign Surface Display Area. The copy of signs composed of individual letters, numerals, or other devices shall be the sum of the area of the smallest rectangle or other geometric figure encompassing each of said letters or devices as well as spaces between each letter, words, lines or device. The Sign Surface Display Area calculation for a double-faced sign shall be the area of one (1) only where the Sign Surface Display Areas are parallel or whether the interior angle formed by the Sign Surface Display Areas is sixty (60) degrees or less. The area of the larger Sign Surface Display Areas shall be computed in cases in which the two (2) sides do not coincide.

- a.** Billboards containing a double-faced Sign Surface Display Area shall be limited to a Maximum Display Area of 672 square feet or fourteen (14) feet in height and forty-eight (48) feet in width;
- b.** Billboard Sign Surface Display Area shall be limited to one (1) display area facing in any one direction. Each sign structure shall have no more than one (1) EMC Sign Surface Display Area per direction with a maximum of three (3) Sign Surface Display Areas per structure;
- c.** Billboards containing multiple display areas shall be limited to three panels totaling a Maximum Sign Surface Display Area of 672 square feet. The Maximum Sign Surface Display Area for each Sign Surface

Staff Recommendation Display Area shall not exceed 224 square feet or fourteen (14) feet in height and sixteen (16) feet in width;
Presented: April 4, 2022
Planning and Development Department

- d.** Any extension, structure or temporary cutout protruding beyond the Sign Surface Display Area of any billboard, excluding aprons, is specifically prohibited;

4. Separation

Sign separation standards are not subject to variation;

- a.** Billboards located along the same side of Georgia Highway 316/University Parkway between its intersection with Georgia Highway 20/124 and Hi Hope Road shall be separated a minimum distance of 1,000 feet;
- b.** Billboards located on opposite sides of Georgia Highway 316/University Parkway between its intersection with Georgia Highway 20/124 and Hi Hope Road shall be separated a minimum distance of 600 feet;
- c.** Billboards (base or sign) shall not be located within 1,500 feet of any property zoned RS-180, RS-150 or RS-60;

5. Setbacks

- a.** Billboard base shall be setback a minimum of sixty (60) feet, and no further than one-hundred (100) feet from the right-of-way of Georgia Highway 316/University Parkway, Georgia Highway 20/124 and Hi Hope Road (See Article 7 Signs, Section 702, Subsection H. Fall Zone);
- b.** Billboard Sign Surface Display Area shall be setback a minimum of twelve (12) feet from the right-way of Georgia Highway 316/University Parkway, Georgia Highway 20/124 and Hi Hope Road (See Article 7 Signs, Section 702, Subsection H. Fall Zone);

6. Design Standards

- a.** Billboards shall be designed and constructed to an engineering standard capable of withstanding one-hundred twenty-five (125) mile per hour (mph) wind velocity;
- b.** Billboards shall be freestanding and not supported by another structure (i.e. bridges, buildings, chimneys, dams, retaining walls, towers, etc.) or affixed, drawn or painted upon rocks, trees or other natural features;

- c. Billboard (base, display area, supports) shall be constructed from a metal material with no more than two (2) upright support poles. Wood materials shall be prohibited in the construction or design of a billboard;
- d. Billboard base and supports shall be uniformly painted or covered with other protected coatings. Color of base and supports shall be limited to black, dark brown or dark green;
- e. No portion of the supporting structure shall be visible above the top of the sign display area;
- f. A billboard may be constructed so as to provide back-to-back display areas facing opposite directions (See Article 7 Signs, Section 702, Subsection 3. Maximum Sign Surface Display Area);
- g. Billboards shall not rotate or have any moving parts;
- h. No auditory message or mechanical sounds may be emitted from the sign;
- i. All illuminated billboards other than EMCs must use base mounted LED, florescent or mercury vapor lights and shall be activated by photocells. Any additional lights, including but not limited to, neon, animation or running lights is specifically prohibited by this Ordinance;

C. EMC Design Standards and Restrictions

Billboard Sign Surface Display Areas may consist of an Electronic Message Center (EMC), which is a computer programmable sign capable of displaying multiple messages figures, images, pictures, symbols or words altered or rearranged on-site or remotely without altering the Sign Surface Display Area;

- 1. EMCs shall not interfere with any public safety vehicle or traffic control device;
- 2. EMCs shall have light sensors/monitors to control brightness as specified below for all times and all weather conditions; day, night, twilight, overcast skies and dark clouds. Excessive brightness is a distraction to vehicular traffic and as such is a hazard. Failure to control a sign's brightness will result in the sign being turned off until the brightness is within the standards;
- 3. Upon the request of the Director of Planning and Development, the agent/applicant/owner of a EMC located within the city limits shall

- Should a permit be revoked the sign must be turned off immediately and remain off unless and until the sign is re-permitted. Re-permitting requires the owner to reapply in accordance with the procedures in place at the time of the new permit application, including paying fees required for a new permit;
4. EMC light levels shall not increase lighting or brightness levels by more than 0.30 foot-candles above ambient levels as measured using a standard foot-candle meter. The Billboard owner and installer shall provide a letter to the Planning and Development Department certifying that the light sensors are operational and in conformance with this standard;
 5. Text messages shall not scroll or flash. All Text messages shall be static for a minimum of 10 seconds;
 6. The display of video from an EMC is strictly prohibited regardless of applicant. Failure to abide by this ordinance will result in the revocation of an EMC permit;
 7. Types of screens permitted include Color and Monochrome in Light Emitting Diode (LED);
 8. For LED sign display areas no screen may have a density of less than 16 mm (Bulb Cluster Spacing on center);
 9. All EMCs shall have a switch or circuit breaker located on the property that allows electrical power to be turned off. The Owner of each EMC shall provide to the Planning and Development Department contact information for a twenty-four (24) hour, seven (7) day/week contact person who has the authority and is able to turn off the sign promptly if a malfunction occurs. If at any time more than forty (40%) percent of the digital display lights malfunction or are no longer working properly, the owner of said EMC shall turn off the electronic display until repairs are made.
 10. No EMC shall utilize, house or contain any interactive features or components or in any way function as an interactive sign.
 11. In considering the Special Use Permit, the City Council shall consider whether the applicant has agreed to publish public service announcements for the benefit of the citizens of the City of Lawrenceville. Public service announcements shall include, but are not

Staff Recommendation limited to, dates and times of meetings of the Mayor and Council of the
Presented: April 4, 2022 City, and the date, time, and place of City elections. These
Planning and Development Department announcements would be published in accordance with an agreement
consented to by the applicant and made a part of the Special Use Permit.

12. All EMC Billboards shall meet all requirements of the Georgia Department of Transportation for construction, placement and operation of such billboards.

D. Fall Zone

In order to construct a billboard under the standards of this provision, the applicant is required to own a fee simple property interest in the site large enough for a Fall Zone. A Fall Zone shall be defined as an area large enough and set back far enough from any buildings, structures or property lines equal to 133% of the height of the entire structure in every direction. Within the Fall Zone, no buildings or other structures may be constructed;

E. Access

Each billboard site shall have a designated driveway access point which is shown on the site plan presented with the application. The applicant shall have a property interest specifically providing for ingress and egress to the site. The ingress and egress driveway shall be paved and two (2) additional paved parking spaces shall be provided for inspection, maintenance and supervision of the billboard;

F. Abandoned or Discontinued Sign

Any Billboard or Sign adjacent to a state, county or municipal controlled route that has not contained a message for six (6) consecutive months and which has not had a message displayed within thirty (30) days after receipt of notice by certified mail from the Planning and Development Department shall be considered as an Abandoned or Discontinued Sign;

The addition of a “for rent” panel or a phone number shall not qualify as a message for purposes of this subsection, but a self-promotional copy covering at least one entire sign face, advertising copy benefitting charitable, nonprofit, religious, or other noncommercial groups shall qualify as a message;

Billboards and relating base considered by the Planning and Development Department as Abandoned or Discontinued Sign shall be removed at the expense of the sign owner;

G. Maintenance

Staff Recommendation: Billboards, together with their supports, braces, guy-wires, and anchors shall be kept in good repair. All trash and unused materials shall be removed from the area by the sign owner;

Presented: April 4, 2021
Planning and Development Department

H. Issuance of the Special Use Permit

1. At the time of issuance of a special use permit for a billboard, the applicant shall complete a registration form that contains the name of the owner of the property, the tenants if the site is leased, the billboard company operating the billboard sign, addresses and telephone numbers of all interested parties, as well as, other contact information necessary to communicate with the billboard owners in the event of an emergency. The actual form of the registration shall be devised by the Director of the Planning and Development Department;
2. Should the City have a reasonable belief that the safety of a billboard may be in question, the Director of Planning and Development may request submission of an inspection report. The inspection report shall certify and guarantee that the billboard is being maintained in a sound and safe condition. It will certify that all the welds and structural components of the sign have been physically inspected within the last two (2) months by a Professional Engineer Registered in the State of Georgia. The certification shall guarantee and certify that there is no structural weakness in the sign and that it will withstand the wind conditions established for a new permit in the existing billboard sign Ordinance. This certification shall be in a form acceptable to the Director of Planning and Development. The form shall contain a provision for the current operator to certify that it will hold harmless the City from any structural defects not disclosed in the report and will indemnify the City, its agents, employees and related parties from any liability resulting from a failure that occurs after the inspection. The certification required by this provision shall be executed by a certified professional engineer;
3. When property is annexed into the City of Lawrenceville and the property to be annexed already has a billboard constructed on the property at the time the application is filed, the owner shall submit with the annexation petition a registration form pursuant to paragraph 702.1.H.2 above and an inspection report pursuant to paragraph 702.1.H.2 above before the annexation hearing. The Property shall not be annexed unless this inspection report shows the billboard meets all existing regulations and requirements of the City;

Staff Recommendation
Presented: April 4, 2022
Planning and Development Department

IT IS SO ORDAINED, this ____ day of _____, 2022.

Mayor David R. Still

Approval of a CMU (Community Mixed-Use District), subject to the following enumerated conditions:

1. To restrict the use of the property as follows:

- A. Multifamily residential dwellings and accessory uses at a maximum of 365 multifamily units.
- B. Retail, service-commercial, office and accessory uses. The following uses shall be prohibited:
 - Adult Bookstores or Entertainment
 - Automotive Uses such as:
 - i. Parts Stores
 - ii. Used Car Sales
 - iii. Tire Sales
 - iv. Auto Repair/Body Shop
 - v. Car/Truck Rental
 - Contractor's Offices
 - Emission Inspection Stations
 - Equipment Rental
 - Extended Stay Hotels or Motels
 - Recovered Materials Processing Facilities
 - Smoke Shops/Novelty Stores
 - Tattoo Parlors
 - Taxidermists
 - Yard Trimmings Composting Facilities

- C. The development shall be in general accordance with the submitted concept plans and architectural renderings (Design Intent) received by the Department of Planning and Development, dated February 28, 2022, with changes necessary to meet zoning and development regulations. Any changes shall be subject to review and approval by the Director of Planning and Development.
 - D. Final site plans, landscape plans and building elevations shall be subject to review and approval of the Director of Planning and Development prior to the issuance of development or building permits.
 - E. Garages shall be provided for a minimum of 20% of the units.
 - F. In the event of residential tenant eviction, any belongings of the tenant will be placed on a portion of the subject property that is not visible from a public right-of-way unless otherwise required by law.
2. To satisfy the following site development considerations:
- A. Provide a 25-foot wide building setback/landscape strip adjacent to all right-of-ways.
 - B. Provide a minimum 20-foot wide building setback/natural or enhanced buffer adjacent to the southernmost property line.
 - C. Provide a 6-foot concrete sidewalk along the road frontage of Buford Drive.
 - D. Natural vegetation shall remain on the property until the issuance of a development permit.
 - E. Ground signage shall be limited to one monument type sign serving the overall development, and shall be subject to review and approval by the Director of Planning & Development. The sign shall include a minimum two-foot high brick or stacked stone base, and the sign cabinet shall be fully surrounded by the same materials, matching the building's architectural treatments.
 - F. Billboards or oversized signs shall be prohibited.
 - G. Outdoor storage shall be prohibited.
 - H. Lighting shall be contained in cut-off type luminaries and shall be directed in toward the property so as not to shine directly into adjacent properties or rights-of-way.

- I. Dumpsters shall be screened by a 100% opaque brick or stacked stone wall with an opaque metal gate enclosure. Dumpster enclosure shall be a minimum of 10 feet in width and 30 feet in length. Hours of dumpster pick-up shall be limited to between 7:00 a.m. and 7:00 p.m.
 - J. No tents, canopies, temporary banners, streamers, or roping decorated with flags, tinsel, or other similar material shall be displayed, hung or strung on the site. Yard signs or bandit signs, sign-walkers or sign-twirlers shall be prohibited.
 - K. Peddlers and/or parking lot sales shall be prohibited.
 - L. Owner shall repaint or repair any graffiti or vandalism that occurs on the property within 72 hours.
3. To abide by the following requirements, dedications and improvements:
- A. Provide inter-parcel connectivity for future development.
 - B. Prior to the issuance of a Development Permit, the applicant shall provide a traffic impact study. Prior to the issuance of the first certificate of occupancy, the applicant shall make any improvements recommended by the traffic impact study, provided the improvements are approved by the D.O.T. and the City Engineer. All design and construction will be subject to D.O.T. review and approval as well as the City Engineer.

2040 Future Development Map

Character Area

COMMUNITY MIXED USE

Overview

The Community Mixed Use character area recognizes the large-scale redevelopment opportunities that are present in Lawrenceville. These are areas that could accommodate a diversity of development types and densities—including revitalized, mixed-use areas—that build on existing industrial or commercial character. Community Mixed Use areas are primarily located near Downtown, and could benefit from the “halo effect” of high-quality development already happening nearby. For this to happen, heavy industrial and noxious uses would need to relocate, and dumping and other poor environmental practices must be eliminated.

Design

The look and feel of Community Mixed Use areas will likely vary between neighborhoods depending on the types of uses that are developed, as well as the density. In general, strip centers with large surface parking lots will be discouraged. Instead, the emphasis will be on reduced curb cuts and connectivity between areas; access management for areas that do develop into shopping centers; beautiful landscaping; and the revitalization and re-use of older vacant structures and under-used lots.

Implementation

Key Policies

- LU1.1 – Encourage a mix and concentration of residential and retail uses at key locations;
- LU8.4 – promote new, compact development patterns;
- H2.2 – plan for a variety of housing types, particularly infill housing and housing in mixed-use contexts where none exists today.
- T1.2 – provide for interparcel connectivity first through the assemblage of separately-owned parcels and then through future points of connection; and

Development Summary

Retail	20,000 sf
Residential	363 units

Retail opening on to shared green space creating village atmosphere

Residential clubhouse anchoring green space

Create new street connecting to the east with on street parking and framed by the residential buildings

Retail out parcel

Garages for residential

Residential building framing street and wrapping green spaces

Parking kept in the core of the development and screened from streets by buildings

Future Connection

Provide the ability to connect street network to the south as future development blocks are created

Lawrenceville: Vision & Goals

. . . what kind of place do we want to be in 20 years?

LU1.2 – Provide for neighborhood-level services near residential areas;

LU1.3 – Minimize street frontages lined by parking lots, blank walls, or empty lots;

LU1.4 – Design with human scale architectural features, including abundant windows and engaged facades;

LU1.6 – Lead by example and set positive development patterns where none exist today;

LU4.5 – Improve the aesthetics of main corridors and gateways into the City;

LU5.3 – Address conditions that are conducive to concentration of blight;

LU6.1 and .2 – Promote proper planning and compatibility of infill development;

LU8.4 and .5 – Promote compact, sustainable development patterns;

T2.2 and .3 – Incorporate sidewalks, parallel parking, and street lights to enhance the pedestrian experience;

T2.11 – Minimize dead end streets and thoroughfares through interparcel connectivity (or provision therefore).

H1.1 – Maintain high standards for housing;

H2.1 – Encourage housing in mixed-used environments;

QL6.1 and .2 – create integrated, shared spaces in residential developments.

PLANNING COMMISSION RECOMMENDATION_04042022

RZM2022-00011

Approval of a RM-12 (Multifamily Residential District), subject to the following enumerated conditions:

1. To restrict the use of the property as follows:

- A. Multifamily residential dwellings and accessory uses at a maximum of 87 multifamily units at a density of 11.9 Units Per Acre.
- B. The development shall be in general accordance with the submitted site plans and architectural renderings received by the Department of Planning and Development, dated February 21, 2022, with changes necessary to meet zoning and development regulations. Any changes shall be subject to review and approval by the Director of Planning and Development.
- C. Final site plans, landscape plans and building elevations shall be subject to review and approval of the Director of Planning and Development prior to the issuance of development or building permits.
- D. In the event of residential tenant eviction, any belongings of the tenant will be placed on a portion of the subject property that is not visible from a public right-of-way unless otherwise required by law.
- E. Renovation plan for the interior of the existing fifty-two (52) multifamily residential units and improvements to the exterior of the existing units shall be submitted to the Planning and Development Department. ~~prior to the issuance of a Certificate of Occupancy for the proposed additional thirty-five (35) multifamily residential units.~~

2. To satisfy the following site development considerations:

- A. Provide a 10-foot wide landscape strip adjacent to all right-of-ways.
- B. Provide a minimum 10-foot wide natural or enhanced buffer along the western property line.
- C. Natural vegetation shall remain on the property until the issuance of a development permit.
- D. Fence along the proposed retaining wall shall be decorative, constructed of brick, stone, wrought iron, or split rail.

- E. Fence around the Stormwater facility shall be decorative, constructed of brick, stone, wrought iron, or split rail.
- F. Ground signage shall be limited to one monument type sign serving the overall development, and shall be subject to review and approval by the Director of Planning & Development. The sign shall include a minimum two-foot high brick or stacked stone base, and the sign cabinet shall be fully surrounded by the same materials, matching the building's architectural treatments.
- G. Outdoor storage shall be prohibited.
- H. Lighting shall be contained in cut-off type luminaries and shall be directed in toward the property so as not to shine directly into adjacent properties or rights-of-way.
- I. Dumpsters shall be screened by a 100% opaque brick or stacked stone wall with an opaque metal gate enclosure. Dumpster enclosure shall be a minimum of 10 feet in width and 30 feet in length Hours of dumpster pick-up shall be limited to between 7:00 a.m. and 7:00 p.m.
- J. Owner shall repaint or repair any graffiti or vandalism that occurs on the property within 72 hours.
- K. Allow encroachments of existing structures into the required twenty-five (25) foot Side Yard Setback as shown on an ALTA/NSPS Land Title Survey prepared for Balfour 419 LLC, a Georgia limited liability company, First American Title Insurance Company and Ameris Bank, a Georgia banking corporation and each of their respective successors and assigns, prepared by DuSouth Surveying & Engineering, Inc., dated May 26, 2021, last revised June 14, 2021.
