## Biography

I grew up in rural Polk County Oregon. My home was just inside the Dallas school district, but I had a Monmouth address. The summer before my Senior year of high school my family moved to Sheridan Oregon. Growing up my grandmother lived in Lebanon, and we visited her often. After I graduated High School, I lived with my grandmother while attending Linn-Benton Community College and afterwards when I worked as a welder in Albany.

In the fall of 2002, I went to Klamath Falls to study engineering at OIT and graduated with dual engineering degrees. After I graduated OIT I lived and worked in Portland where I met my future wife.

In the spring of 2009, the economy was in very bad shape, and I was laid off from my job three weeks after I proposed and was engaged. That summer I got a new job in Oklahoma and in November we were married. In Oklahoma we became a family welcoming a son and then a daughter. Also, while in Oklahoma my grandmother passed away, and we purchased her home from the estate with the dream of someday returning to Oregon.

In 2016 the time came and we moved back to Oregon and made Lebanon our home. Our family has been growing deep roots in the community through church, home-schooling, East Linn Christian School, scouting, and other things.

After we moved to Lebanon, I became the guardian for my father after he was diagnosed with dementia. My father was a veteran of Vietnam and Desert Storm, and I helped him move from Sheridan to the Lebanon Veteran's Home where he lived for three years before passing. I am very grateful to all the staff who took such excellent care of him, especially through COVID. (Thank you!)

I care very much about my community and my country. In 2022 I was prompted to get involved in the affairs in my own town and as a result I joined the city Planning Commission. Unfortunately, I had to give up my position on the Planning Commission March of 2025 due to a work schedule that was taking me out of state on a weekly basis. Fortunately, I have since changed jobs, and I now work for McCarl's Technical Services in Albany Oregon as a Quality Engineer.

## EDUCATION

<b>Date</b>	<b>Degree</b>	<b>Major</b>	<b>School - Location</b>
June 2006	B.S.	Mechanical Engineering Technology	OIT Klamath Falls, OR
June 2006	B.S.	Manufacturing Engineering Technology	OIT Klamath Falls, OR
June 2001	A.S.	Welding Technology	LBCC Albany, OR
Expected Dec 2026	MS	Engineering Management	OSU Corvallis, OR

## PROFESSIONAL LICENSES AND CERTIFICATIONS

Licensed Professional Mechanical Engineer – Oklahoma (PE28467) Expiration 31-July-2027  
AWS Certified Welding Engineer – Certificate No. 0712002G Expiration 01-Dec-2027  
AWS Certified Welding Inspector – Certificate No. 06120471 Expiration 01-Dec-2027
