

Sustainability in Action

October 1, 2024

Mayor Jackola
Lebanon City Council
City Staff

Dear Mayor Jackola, City Council and Staff,

Republic Services is proud to serve the City of Lebanon as your waste hauler. Along with our day-to-day work in Lebanon, we have been involved in some exciting things over the past year:

- As you may be aware, there has been a flurry of activity surrounding recycling in Oregon that will result in innovative changes in 2025. You have heard us talk about the Oregon Recycling Modernization Act for several years. It will come to fruition on July 1, 2025. Republic Services worked with the City of Lebanon, City of Corvallis, Benton County and many other communities in 2024 to assist in two surveys from DEQ and their Producer Responsibility contractor, Circular Action Alliance, who will operate the new program. Watch for more news about changes to recycling in 2025.
- We donated more than \$60,000 in cash and in-kind donations in Lebanon and Linn County in 2024, including the Lebanon Soup Kitchen and the Boys and Girls Club of the Greater Santiam.
- We continue to support fleet electrification as a method to reduce Green House Gases, with several trucks arriving in Salem, Bend and the Portland area soon.

In this packet you will find information about the Refuse Rate Index for 2025. The index of 3.2% for residential service is due to a combination of CPI and the increased cost of operations and disposal at Coffin Butte Landfill and Pacific Region Compost and equates to an average increase of \$.97 per customer.

We look forward to your comments,

Bret Davis
General Manager
Bret.davis@republicservices.com

Julie Jackson
Municipal Manager

Plastic Pollution and Recycling Modernization Act

The Plastic Pollution and Recycling Modernization Act updates Oregon’s recycling system by building on local community programs and leveraging the resources of producers to create an innovative system that works for everyone. The law requires packaging producers to share responsibility for effective management of their products after use. **The new law goes into effect January 1, 2022 and program changes will start in July 2025.**

KEY BENEFITS

Shares and scales responsibility across the recycling system. Producers will be brought into the recycling system to fund improvements and expand recycling services. Cost to producers will be based on what materials they use and how much they sell into Oregon.

Creates one statewide list of what can be recycled. The uniform collection list will provide clarity to households and businesses about what can be recycled, and create efficiencies in recycling operations across the state.

Increases access to recycling. The new law will provide recycling services to people who didn't previously have it, such as those who live in apartments and rural areas.

Incentivizes sustainable products. Producer fees will be higher for non-recyclable products and those creating more environmental pollution.

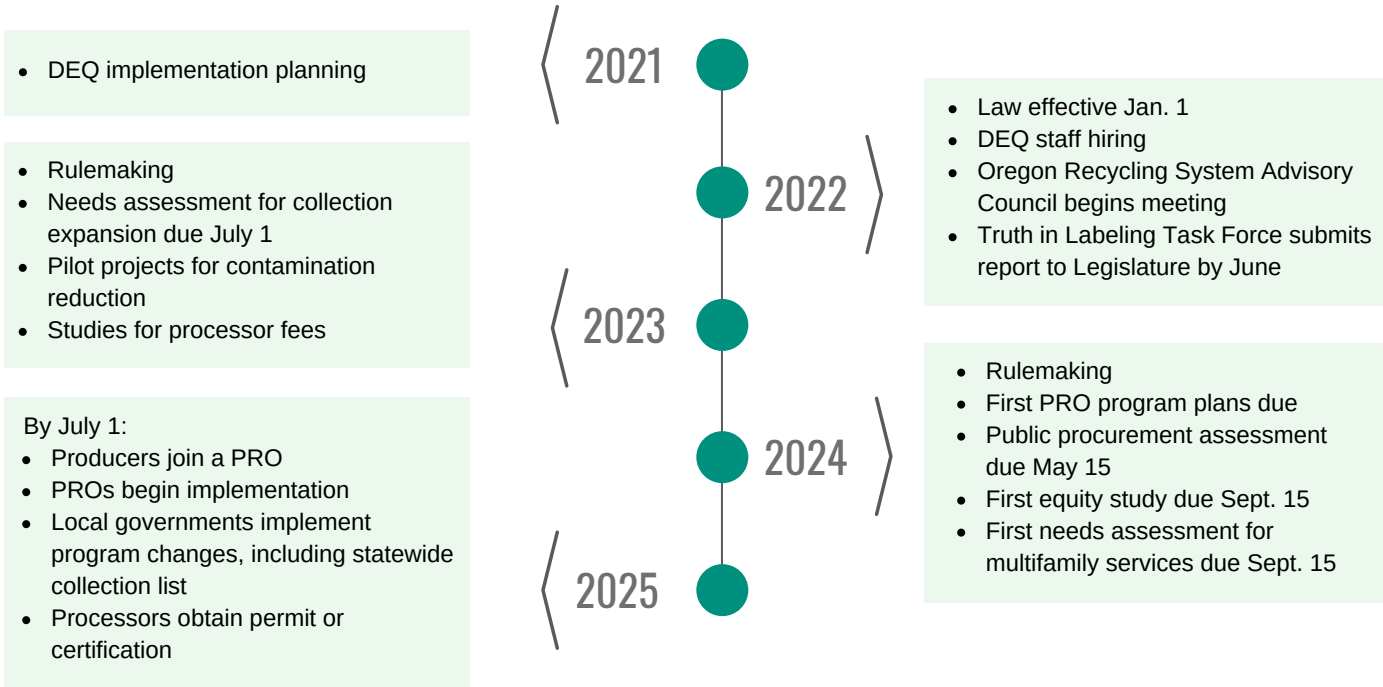

Prevents plastic pollution. Ensures collected materials are recycled responsibly and keeps plastic and other trash out of our waterways and communities — both domestically and overseas.

Creates accountability to outcomes. DEQ will permit and audit recycling processors, and a Governor-appointed advisory council will review producer program plans, the statewide collection list and educational resources.

WHAT'S NEXT?

Below are key dates through 2025. Stakeholder engagement, project planning and research extend throughout implementation.

How the Recycling Modernization Act Works

The Recycling Modernization Act requires producers of packaging, paper products and food serviceware to share responsibility for effective management of their products after use. These producers will finance improvements to the recycling system and perform specific functions to make Oregon's recycling programs convenient, accessible and responsible. Local governments will maintain their role overseeing collection and education in their communities.

PRODUCERS will join and pay a membership fee to a nonprofit Producer Responsibility Organization (PRO) that will fund improvements and ensure that collected recyclables go to responsible end markets. Producers will also be required to meet new recycling goals for plastic packaging and food serviceware.

PRODUCER RESPONSIBILITY ORGANIZATIONS will collect producer membership fees and use them to ensure improved and expanded recycling services. Most collection will continue to be overseen by local governments, but PROs will provide services for certain hard-to-recycle materials. PROs will also fund waste prevention grants, and several studies to assess challenges and recommend improvements to improve multifamily recycling conditions, equity in the recycling system, and litter and marine debris.

ONE COLLECTION LIST will allow individuals and businesses to recycle the same items across the state, at home and at work. PRO funding will enable collection of the same items regardless of location or distance from recycling markets.

RECYCLING SERVICES will be expanded under the direction of local governments, with support from the PROs, especially for rural communities and people living in apartments. The same private collection companies will continue to provide recycling services.

EDUCATION about how to recycle will continue to be offered by local governments, along with new programs to reduce contamination (trash) in our recyclables. PROs will create accessible educational resources that local governments can use and that meet the needs of diverse communities.

PROCESSING of recyclables will be done in facilities that meet new performance standards, including for material quality, reporting, and paying living wages to workers. These facilities will be required to obtain a permit from DEQ or meet similar standards to receive material from Oregon communities. Local governments will make sure material collected in their communities goes to approved facilities.

END MARKETS that can handle the material appropriately — without creating plastic pollution or other harms — can purchase it after sorting and recycle it into something new. Producers and processors will be obligated to make sure materials collected in Oregon reach responsible end markets.

OVERSIGHT AND INTEGRATION will be provided by DEQ, with accountability from all participants. DEQ will plan and implement changes required by the new law, and oversee the recycling system and provide enforcement where necessary. A new Governor-appointed advisory council will provide feedback to DEQ and PROs about important elements of the new system. PROs, recycling processors and local governments will track and report more information about where our recyclables go and ensure that they are managed responsibly and used to make new products.

**A RESOLUTION REPEALING RESOLUTION NO.)
2023-18 AND APPROVING REPUBLIC)
SERVICES RATE INCREASES)**

**RESOLUTION NO.
2024-29**

WHEREAS, on November 12, 2014, the City Council il approved the implementation of an annual CPI rate methodology beginning on January 1, 2015; and

WHEREAS, the franchisee has seen an increase in contamination of yard debris and recycling carts; and

WHEREAS, the franchisee has experienced an increase in the franchiser fee; and

WHEREAS, the franchisee has the necessity of a reasonable return on their investment; and

WHEREAS, the rates in Appendix "A" are comparable to other cities for similar services; and

WHEREAS, a rate increase and fee increase are in the public interest in order to meet basic service needs.

NOW, THEREFORE, BE IT RESOLVED that the Lebanon City Council approved the refuse collection rates as shown in Exhibit "A".

Section 1. The residential, commercial, and industrial rates listed in Exhibit "A" are effective as of January 1, 2025.

Passed by the Lebanon City Council and executed by the Mayor on this on this 11th day of December 2024 by a vote of ____yeas and ____nays.

CITY OF LEBANON, OREGON

Kenneth Jackola, Mayor
Michelle Steinhebel, Council President

ATTESTED BY:

Julie Fisher, CMC, City Recorder
