Variations – Streets

Permitted Modifications to 10.02.251 (Applicable standards and specifications)

Paragraph	Section 10.02.251 – Applicable Standards	Current Standard	Requested Modifications
L.iv	Minor or Private Street <i>Minimum Right Of Way</i>	50 ft	48 ft
L.iv	Minor or Private Street <i>Minimum Pavement Width</i>	30 ft	30 ft

Variations - Trees

- Lots will have the required percentage of overall landscaping
- Applicant intends to clear the properties and then mitigate by the planting of 2-1.5" diameter trees per lot (410 trees)
- Applicant will also be paying fees in lieu of planting trees, and constructing bike lanes, a hiking trail, and dedicating parkland

Variations - Trees

- Tree Inventory Summary

Size	# Healthy	# Exempt
Medium:	98	5
Large:	224	11
Heritage:	25	1
Total	347	17

- Total requiring mitigation: 330

Special Considerations

- Asking to be granted the right to modify the Master Site Plan to increase lot size, decrease density, add or modify bike trails, or add more green spaces
- Asking for internal approval for subsequent development applications/amendments if they do not exceed 10% of overall plan
- Requesting to relocate Samaritan Drive & utilities
 - Applicant will dedicate revised location of Samaritan Drive as a public street via the (re)plat

Traffic Impact Analysis

- With the development of the previously approved PDD for the 27 acres at 6518 Samaritan Drive, the total for both developments would be 371 new residential homes
- Numerous TIA's have been calculated for this area – all of which indicate that both Seneca and Grass Hill are more than capable of accommodating traffic from this area

Streets

- Access to & from proposed subdivision would be Samaritan, Seneca, & Grass Hill
- Portions of all three streets need reconstruction to current standards to carry the number of vehicles projected
- Estimated cost for reconstruction of these streets is \$3,913,400
- Applicant's share of the costs for reconstruction are estimated to be \$1,389,482
- This is in addition to the costs for developing streets inside the subdivision

Master Plan, Section 11N Seneca West

- The Seneca West area remains largely unplatted and undeveloped
- Some platting occurred in 1972, and the future land use for the area consists of Single-Family low-density housing and Garden House Uses
- Land use for Seneca Estates Units 3 and 3B are established neighborhoods & should be maintained as residential areas
- Undeveloped tracts should be zoned R-1 (Single Family)

Master Plan, Section 11N Seneca West

- Consolidation of properties west of Seneca East subdivision is recommended to coordinate the development of property and utilities
- Existing zoning south of Grass Hill Drive should remain R-6 (Garden House)

Notification

- Letter mailed 18
- Received in favor 0
- Received in opposition 0
- Received undeliverable 0

Fiscal Impact

- The owner has paid all fees associated with this application
- The development of this area will generate both ad valorem and sales tax revenues

Recommendation

- Staff recommends approval of the proposed PDD
- Residents and Planning and Zoning Commission may have concerns that should be addressed prior to any recommendation being forwarded to the City Council
