

MAYOR AND COUNCIL COMMUNICATION

DATE: August 1, 2023

TO: Mayor and Council

FROM: David Dimaline, Assistant Public Works Director

THROUGH: Crystal Caldera, City Manager

SUBJECT: Presentation, Discussion, and Possible Action to Approve a Resolution Accepting a Bid and Authorizing the City Manager to Enter into a Contract with Cleanview Resources, in the Amount of \$1.48 per Linear Foot of Sewer Main, Not to Exceed \$250,000, for the 2023 Sewer Main CCTV and Cleaning Project.

SPONSOR(S): None

PURPOSE

The purpose of this item is to consider approval of a Resolution awarding a bid and authorizing the City Manager to enter into a contract with Cleanview Resources in the amount of \$1.48 per linear foot, not to exceed \$250,000, for the 2023 Sewer CCTV and Cleaning Project.

The project involves conducting a comprehensive closed-circuit television (CCTV) inspection of the City's sewer main network. The work also includes jetting and cleaning of the pipes to remove any blockages or debris prior to the CCTV. A detailed report and video will be provided with the location and conditions of the sewer mains. The City has a total of 237,282 linear feet (45 miles) of sanitary sewer mains within the system. The City budgeted \$250,000 to complete this work, and will determine the amount of CCTV of the sewer mains based on the price per linear foot. Based on the price per linear foot submitted by Cleanview Resources, approximately 168,919 linear feet (31 miles) of sewer mains can be included in the scope of work.

A total of five companies submitted bids for this project:

Name	Price Per LF
Cleanview Resources	\$ 1.48
National Works, Inc.	\$ 2.25
Pipe View America	\$ 2.63
T-Rex Services	\$ 3.25
Ace Pipe Cleaning	\$ 5.00

Fiscal Impact

Project Cost:	\$1.48 per linear foot
Sewer line item	\$250,000

S.E.E Statement

Social Equity – Adds to general quality of life for all citizens.

Economic Development – The preventative maintenance of our sewer mains assures sanitary conditions for businesses and their customers and reduces unplanned interruptions in service.

Environmental Stewardship – Assuring the sewer mains are in good repair reduces sanitary sewer overflows (SSOF's) and is considered a Best Management Practice for our TCEQ MS4 Permit.

Recommendation

Staff recommends approval.
