TO INTERESTED PARTIES:

Texas Local Government Code Chapter 395 necessitates the updating of the San Antonio Water System (SAWS) impact fees by June 2024. The Capital Improvements Advisory Committee (CIAC), SAWS staff, and consultant Carollo Engineers began the update process for all water and wastewater impact fees in July 2023, and the CIAC finalized its recommendations in a findings report on January 31, 2024. The findings report and all other CIAC meeting documents are available at: [www.saws.org/CIAC](http://www.saws.org/CIAC).

The update involves a projection of increased demand and resulting increased capacity in the water and wastewater systems for the next ten-year planning period. The costs associated with the capacity necessary to serve the projected growth determine the impact fee rate. The CIAC recommended impact fees are show below.

The 2024 recommended impact fees were approved by the SAWS Board of Trustees on March 5, 2024, and by the San Antonio City Council on May 16, 2024. The 2024 recommended impact fees will take effect **July 1<sup>st</sup>, 2024** which is one month later than previously noted.

The determination on whether current impact fees or the recommended impact fees will be charged for service to a particular property is based on the date of plat recordation. In accordance with current state law, the impact fees in effect at the time the plat is recorded are the fees that will be charged. An individual may pay current impact fees for a property prior to July 1<sup>st</sup>, 2024, without plat recordation under the following conditions:

- The plat has been approved by the Planning Commission,
- All impact fees are paid prior to the effective date of the new impact fees.
