6. Justification of Request:

Each year the Florida Section AWWA Water Use Efficiency Division and Water Management Districts work together to request local government/water utilities adopt a resolution declaring April as Water Conservation Month. Adopting entities are asked to report their resolution adoption dates to the Districts or FSAWA so that a statewide list of participants can be compiled. This list of adopting entities is presented by FSAWA to the Governor in support of a state resolution declaring April as Water Conservation Month. A high level of participation in this campaign is extremely important as the campaign promotes water conservation at both the local and state level.
