

January 22, 2026  
Proposal No. 16316  
Revision B

Lincoln Cannon  
Levy County Road Department  
620 North Hathaway Avenue  
Bronson Florida 32626

Reference: Surface Depression, Existing Roadway, Highway 40 E, Inglis, Florida  
**Budget Proposal for Geotechnical Engineering Consultant Services**

Dear Mr. Cannon:

Per your request, Geo-Technologies, Inc. (Geo-Tech) is submitting this budget proposal to assist you on your project.

Based on our correspondence with you, Geo-Tech understands that a surface depression has been observed in the existing roadway which has caused concerns regarding the stability of surrounding areas. Therefore, standard penetration test (SPT) borings have been requested to characterize subsurface soil conditions adjacent to the observed surface depression and in subsurface anomalous areas detected in the Ground Penetrating Radar Survey. Boring locations are outlined in our Geo-Tech Report No. 25-4652.04.1 dated January 19, 2025.

Geo-Tech's scope of services for this project will consist of the following:

- Three (3) standard penetration test (SPT) borings to depths of fifty (50) feet below existing site grade or refusal conditions adjacent to the observed surface depression and/or in subsurface anomalous areas detected in the GPR survey data.

Geo-Tech typically utilizes track-mounted type drill rigs which allow access to areas typically inaccessible with conventional truck-mounted drill rigs. However, low hanging trees, dense undergrowth and narrow pathways can restrict accessibility to the proposed boring locations. If the abovementioned site conditions exist at the site, Geo-Tech can provide you with an additional quote if clearing services are needed at the site.

Geo-Tech will record our boring locations utilizing a Garmin GPSMap64s unit for traceability as the project develops. Samples will be recovered from the soil borings per ASTM standards and returned to our laboratory for visual classification per the Unified Soil Classification System (USCS).

Geo-Tech will issue a report presenting our findings, evaluations and remediation recommendations based on results of the SPT borings performed and our field observations. Our report will be available about five (5) business days after the completion of the SPT borings.

Geo-Tech estimates our fee to provide the abovementioned scope of services to be \$12,365.00. Our scope of services may change depending on the conditions found and you will only be invoiced for the actual work performed at the unit rates shown in Attachment A. However, Geo-Tech will not exceed our estimated total fee without authorization from you.

Please note, when making final payment utilizing a credit/debit card or Paypal/Venmo, there will be a 2.99% processing fee. When using an ACH bank transfer, there will be a 1% processing fee. Payment for services is required prior to delivery of the sealed report.

We sincerely appreciate the opportunity to submit this budget proposal to you and understand the importance of providing prompt professional service to keep your project on schedule. Should you have any questions concerning this budget proposal or if we may be of further assistance, please do not hesitate to contact the undersigned.

Sincerely,

Grady N. Polk  
Staff Engineer

GNP/CAH

Craig A. Hampy, P.E.  
Senior Project Engineer

Please complete the following authorization form and return via email to Grady N. Polk at [gpolk@geotechfl.com](mailto:gpolk@geotechfl.com) to schedule the proposed field work. Field services will not be initiated until signed authorization has been received.

Signed authorization below gives Geo-Tech, Inc. authorization to collect interest as allowed by the State of Florida on all accounts not paid in full within thirty (30) days. In addition, the signee will be responsible for all attorney fees charged for collection of this invoice.

Authorization Signature:  Date: 1/27/2026

Authorization Name (Please Print): Don Clifton (per County Managers Approval)

Representing (Company Name): Levy County Road Department

Billing/Mailing Address: 620 N. Hathaway Ave. Bronson, FL. 32621

Phone No.: 352.221.5182 Email: clifton-don@levycounty.org

Proposed Scope of Services and Estimated Prices

**Attachment A**  
Proposed Scope of Services and Estimated Prices

**Field Services:**

• Mobilization of Men and Equipment 1 mobilization @ 400.00/each	\$400.00
• Standard Penetration Test (SPT) Boring & Sampling 3 borings @ 50 L.F. @ 15.00/L.F.	\$2,250.00
• Bentonite Seal of Borehole 150 L.F. @ 5.00/L.F.	\$750.00
• Maintenance of Traffic (Day 1) 1 day @ 4,900.00/day	\$4,900.00
• Maintenance of Traffic (Day 2) 1 day @ 2,100.00/day	\$2,100.00

**Laboratory Services:**

• Soil Classification 3 hours @ 65.00/hour	\$130.00
• Laboratory Testing Allowance 1 allowance @ 200.00/each	\$200.00

**Professional and Technical Services:**

• Senior Project Engineer 4 hours @ 155.00/hour	\$620.00
• Soil Scientist 6 hours @ 110.00/hour	\$660.00
• CADD Draftsman 3 hours @ 75.00/hour	\$225.00
• Administration 2 hours @ 65.00/hour	\$130.00

Geo-Tech anticipates drilling operations to last one (1) day. However, if a second day is required an additional maintenance of traffic fee of \$2,100.00 will be charged.

**Total \$12,365.00**
