---

## Onboarding

### **Step 1 - Gather requirements**

VuSpex and Levy County will collaborate to identify the requirements for a successful deployment and go-live of virtual inspections.

### **Step 2 - Project Planning**

VuSpex and Levy County will develop the project timeline and milestones to meet the Go-live target date.

### **Step 3 - Partial roll out**

VuSpex is deployed in a test environment. VuSpex staff will work with designated Inspectors on a partial roll out. These Inspectors become familiar with VuSpex from both the Inspector and Contractor perspective while performing “shadow” inspections in a non-production environment. These Inspectors will also be designated as internal trainers.

### **Step 4 - Inspector and Staff training**

VuSpex staff performs joint training of designated Inspectors and other agency personnel on the use of VuSpex OG Inspector and Contractor applications. This step may be performed in either a test environment or production based on Agency preferences. Formal training presentations and User Guides are available and included.

### **Step 5 - Contractor Outreach and co-promotion**

VuSpex and Levy County web services staff will collaborate to develop a contractor outreach campaign and contractor training including Levy County website additions.

### **Step 6 - Go live with VuSpex**

VuSpex is moved from the test environment to production, if necessary.

### **Step 7 - Support**

Support is available from 8 AM - 5 PM (PT): Monday - Friday
