Department Highlights

- **GPS Deployment – Verizon Connect:** The County continues improving fleet accountability and operational efficiency through the implementation of GPS tracking technology. To date, 118 of 200 vehicle tracking units (59%) and 10 of 50 powered asset trackers (20%) have been installed. This technology will help the County monitor vehicle utilization, identify opportunities to reduce unnecessary fuel consumption, and make

informed decisions about fleet replacement and resource allocation, ultimately improving the use of taxpayer dollars.

- **Fleet Operations and Fuel Usage:** During the quarter, County vehicles and equipment traveled **580,321 miles** and consumed approximately **84,000 gallons of fuel** across 237 vehicles and pieces of equipment. Despite rising fuel prices, the County continues to monitor fuel consumption and operating costs to identify potential efficiencies while maintaining essential services, including emergency response, road maintenance, and public transportation. Gasoline prices increased 18%, while diesel prices increased 47% during the quarter.

- **Fleet Maintenance:** The Fleet Maintenance Division supported County operations through vehicle and equipment maintenance and repairs, with approximately **$181,038 in parts and labor costs** during the quarter. Maintaining a reliable County fleet helps minimize service interruptions, extend the useful life of vehicles and equipment, and ensure departments have the resources necessary to deliver essential services to Levy County residents.
