

May 15, 2026

To the Board of County Commissioners,
Levy County, Florida:

We have audited the financial statements of Levy County, Florida (the County) as of and for the year ended September 30, 2025, and have issued our report thereon dated May 15, 2026. Professional standards require that we advise you of the following matters relating to our audit.

Our Responsibility in Relation to the Financial Statement Audit

As communicated in our engagement letter dated May 19, 2025, our responsibility, as described by professional standards, is to form and express an opinion about whether the financial statements that have been prepared by management with your oversight are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America. Our audit of the financial statements does not relieve you or management of your respective responsibilities.

Our responsibility, as prescribed by professional standards, is to plan and perform our audit to obtain reasonable, rather than absolute, assurance about whether the financial statements are free of material misstatement. An audit of financial statements includes consideration of the system of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control over financial reporting. Accordingly, as part of our audit, we considered the system of internal control of the County solely for the purpose of determining our audit procedures and not to provide any assurance concerning such internal control.

We are also responsible for communicating significant matters related to the audit that are, in our professional judgment, relevant to your responsibilities in overseeing the financial reporting process. However, we are not required to design procedures for the purpose of identifying other matters to communicate to you.

We have provided our findings, if applicable, regarding significant control deficiencies over financial reporting and material noncompliance and other matters noted during our audit in a separate letter to you dated May 15, 2026.

Planned Scope and Timing of the Audit

We conducted our audit consistent with the planned scope and timing we previously communicated to you.

Compliance with All Ethics Requirements Regarding Independence

The engagement team, others in our firm, as appropriate, and our firm have complied with all relevant ethical requirements regarding independence.

Significant Risks Identified

Professional standards require that we, as auditors, identify significant risks that impact the audit based upon the nature of the organization and design our audit procedures to adequately address those risks. As part of the audit process, we have identified the following significant risks, which are being communicated solely to comply with auditing standards and do not represent any specific finding and/or concerns related to the audit:

- Improper revenue recognition is considered an inherent risk according to GAAS
- Management override of controls is considered an inherent risk according to GAAS
- Improper use of restricted resources

Our audit was designed to adequately address the above risks and no issues were noted that impacted our ability to render an opinion on the financial statements.

Qualitative Aspects of the Entity's Significant Accounting Practices

Significant Accounting Policies

Management has the responsibility to select and use appropriate accounting policies. A summary of the significant accounting policies adopted by the County is included in Note 1 to the financial statements. There have been no initial selection of accounting policies and no changes in significant accounting policies or their application during 2025, except for the adoption of GASB Statement No. 101, *Compensated Absences*. No matters have come to our attention that would require us, under professional standards, to inform you about (1) the methods used to account for significant unusual transactions and (2) the effect of significant accounting policies in controversial or emerging areas for which there is a lack of authoritative guidance or consensus.

Significant Accounting Estimates and Related Disclosures

Accounting estimates and related disclosures are an integral part of the financial statements prepared by management and are based on management's current judgments. Those judgments are normally based on knowledge and experience about past and current events and assumptions about future events. Certain accounting estimates are particularly sensitive because of their significance to the financial statements and because of the possibility that future events affecting them may differ markedly from management's current judgments.

The most sensitive accounting estimates affecting the County's financial statements are:

Management's estimate of the allowance for doubtful accounts is based on past collection history. We evaluated the key factors and assumptions used to develop the allowance for doubtful accounts and determined that it is reasonable in relation to the basic financial statements taken as a whole and in relation to the applicable opinion units.

Management's estimates of the net pension liability and total OPEB liability are based on actuarial factors and were calculated by actuaries independent of the County. We evaluated the key factors and assumptions used to develop the fair value estimate and determined that it is reasonable in relation to the basic financial statements taken as a whole and in relation to the applicable opinion units.

Management's estimate of the landfill liability is based on an external engineer's estimate. We evaluated the key factors and assumptions used to develop the landfill liability in determining that it is reasonable in relation to the financial statements taken as a whole.

Financial Statement Disclosures

Certain financial statement disclosures involve significant judgment and are particularly sensitive because of their significance to financial statement users. The most sensitive disclosures affecting the County's financial statements relate to:

The County's investments note to the financial statements describes the County's policies related to interest rate risk and concentration of credit risk.

The County's long-term liabilities note to the financial statements discloses the composition of the County's long-term liabilities, the interest rates associated with long-term debt, and the future maturities of long-term debt.

The County's OPEB and pension plan notes disclose the long-term liabilities recorded related to the County's participation in the Florida Retirement System (FRS) and the County's other post-employment benefits liability.

Significant Unusual Transactions

For purposes of this communication, professional standards require us to communicate to you significant unusual transactions identified during our audit. We identified no significant unusual transactions as a result of our audit procedures.

Significant Difficulties Encountered during the Audit

We encountered no significant difficulties in dealing with management relating to the performance of the audit.

Uncorrected and Corrected Misstatements

For purposes of this communication, professional standards also require us to accumulate all known and likely misstatements identified during the audit, other than those that we believe are trivial, and communicate them to the appropriate level of management. Further, professional standards require us to also communicate the effect of uncorrected misstatements related to prior periods on the relevant classes of transactions, account balances or disclosures, and the financial statements as a whole and each applicable opinion unit. A summary of the uncorrected misstatements of the financial statements follows:

- To record approximately \$978,000 adjustment to government-wide financial statements for right to use assets and lease payable for lessee accounting requirements (GASB 87), and approximately \$363,000 adjustment to fund financial statements to record lease receivable and deferred inflows related to lessor accounting requirements (GASB 87).
- An adjustment for approximately \$22,000 to adjust revenues received during fiscal year 2025 to the prior period due to amounts originally recorded in October, 2024, but related to September, 2024.
- An adjustment for approximately \$144,000 to adjust amounts due from the Sheriff due to miscellaneous revenues that should have been recorded in fiscal year 2024.

- An adjustment for approximately \$167,000 to adjust amounts due from other governments as well as deferred inflows of resources due to grant related expenditures recognized within fiscal year 2025, however grant related revenues received subsequent to September 30, 2025.

In addition, professional standards require us to communicate to you all material, corrected misstatements that were brought to the attention of management as a result of our audit procedures. The following material misstatements that we identified as a result of our audit procedures were brought to the attention of, and corrected by, management:

- An adjustment for approximately \$93,000 to adjust proprietary capital assets and vouchers payable due to capital asset purchase recognized within fiscal year 2025, however related asset received subsequent to September 30, 2025.
- An adjustment for approximately \$387,000 to correct grant expenditures recorded in the incorrect fund.

Disagreements with Management

For purposes of this letter, professional standards define a disagreement with management as a matter, whether or not resolved to our satisfaction, concerning a financial accounting, reporting, or auditing matter, which could be significant to the County's financial statements or the auditor's report. No such disagreements arose during the course of the audit.

Representations Requested from Management

We have requested certain written representations from management, which are included in the management representation letter dated May 15, 2026.

Management's Consultations with Other Accountants

In some cases, management may decide to consult with other accountants about auditing and accounting matters. Management informed us that, and to our knowledge, there were no consultations with other accountants regarding auditing and accounting matters.

Other Significant Matters, Findings, or Issues

In the normal course of our professional association with the County, we generally discuss a variety of matters, including the application of accounting principles and auditing standards, significant events or transactions that occurred during the year, operating and regulatory conditions affecting the entity, and operational plans and strategies that may affect the risks of material misstatement. None of the matters discussed resulted in a condition to our retention as the County's auditors.

Other Information in Documents Containing Audited Financial Statements

Pursuant to professional standards, our responsibility as auditors for other information, in documents containing the County's audited financial statements does not extend beyond the financial information identified in the audit report, and we are not required to perform any procedures to corroborate such other information. However, in accordance with such standards, we have read the management's discussion and analysis and required supplementary information, for material consistency with its presentation in the financial statements.

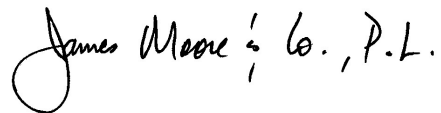

Our responsibility also includes communicating to you any information which we believe is a material misstatement of fact. Nothing came to our attention that caused us to believe that such information or its manner of presentation, is materially inconsistent with the information, or manner of its presentation, appearing in the financial statements.

Other Matters

With respect to the supplementary information accompanying the financial statements, we made certain inquiries of management and evaluated the form, content, and methods of preparing the information to determine that the information complies with accounting principles generally accepted in the United States of America, the method of preparing it has not changed, from the prior period, and the information is appropriate and complete in relation to our audit of the financial statements. We compared and reconciled the supplementary information to the underlying accounting records used to prepare the financial statements or to the financial statements themselves.

This report is intended solely for the information and use of the Board of County Commissioners and management of the County and is not intended to be and should not be used by anyone other than these specified parties.

Very truly yours,

A handwritten signature in black ink that reads "James Moore & Co., P.L.". The signature is written in a cursive style with a large initial "J" and a stylized "M".
