

Mendy Allen was born in Gainesville, Florida and lived there until seven years ago when she moved to Cedar Key, Florida. Mendy was a mortgage loan officer for 15 years, owned a residential appraisal company for 10 years and then worked at the University of Florida raising money for UF Foundation for UF/IFAS Nature Coast Biological Station and 4-H across the State of Florida.

She then began selling real estate two years ago in Levy County. She also currently co-operates a vacation rental business in Cedar Key, and is in the process of a downtown redevelopment project. Mendy, her husband and business partners own a retail business in a renovated building of downtown Cedar Key, and they recently opened a Seafood Market in the area. She is a very energetic and enthusiastic businesswoman and wants to see Levy County retain the small-town rural charm along with preserving the region's history while promoting tourism in the area.
