Good morning,

VIN: 1GCUYAEF5MZ248209

The vehicle has been produced and is at the factory awaiting microprocessors to complete the vehicle. GM does not have an estimate on when the vehicle will be completed but we have seen vehicles sitting outside the plant waiting for these processors for as little as 30 and as much as 90+ days. This delay is caused by a Global Semi-Conductor shortage that is causing manufacturers to partially build vehicles and park them outside their factories while they wait for shipments of the needed microprocessors to complete their builds.

Link to article from Wall Street Journal:

<https://www.wsj.com/articles/global-chip-shortage-set-to-worsen-for-car-makers-11619708393>

Per our conversation I have marked this vehicle on hold for Levy County pending receipt of revised purchase order for \$30,797.

GM is scheduled to start accepting 2022 fleet orders in July for production sometime in the fall and delivery in winter.

Best Regards,

Chris Wilson
