

ORDINANCE NO. 2026-05

AN ORDINANCE OF THE BOARD OF COUNTY COMMISSIONERS OF LEVY COUNTY, FLORIDA MAKING CERTAIN FINDINGS; PROVIDING DEFINITIONS; DECLARING A TEMPORARY MORATORIUM ON THE ACCEPTANCE, REVIEW, PROCESSING, OR APPROVAL OF APPLICATIONS FOR DEVELOPMENT PERMITS AND DEVELOPMENT ORDERS FOR DATA CENTER FACILITIES; PROVIDING FOR NO EFFECT ON EXISTING DEVELOPMENT APPROVALS; PROVIDING FOR THE AREA OF APPLICABILITY; PROVIDING FOR SEVERABILITY; AND PROVIDING FOR AN EFFECTIVE DATE.

WHEREAS, pursuant to Article VIII, Section 1(f) of the Florida Constitution and section 125.66, Florida Statutes, Levy County (the “County”) possesses the authority to enact ordinances to protect the health, safety, and welfare of its citizens; and

WHEREAS, on June 30, 2026, the Board of County Commissioners (“Board”) directed the County Attorney to prepare an ordinance instituting a temporary moratorium on the acceptance, review, processing, or approval of applications for development permits and development orders for data center facilities; and

WHEREAS, pursuant to Chapter 2026-65, Laws of Florida, enacted by the Florida Legislature, effective on July 1, 2026, “[t]he Legislature finds that certain land uses, including facilities with substantial electric or other utility demands, such as data centers and other large load customers . . . may present unique planning, infrastructure, and compatibility considerations,” and “that such considerations shall be addressed through local comprehensive planning and land development regulations adopted pursuant to this chapter, including provisions related to infrastructure capacity, land use compatibility, environmental impacts, and the efficient provision of public facilities and services;” and

WHEREAS, pursuant to Chapter 2026-65, Laws of Florida, “[l]ocal governments shall maintain the authority to exercise the powers and responsibilities for comprehensive planning and land development regulation granted by law with respect to large load customers,” such as data centers; and

WHEREAS, local governments may enact moratoriums if the moratorium is intended to preserve the status quo and is rationally related to the government’s attempt to enact changes to development regulations. *WCI Communities Inc. v. City of Coral Springs*, 885 So. 2d 912 (Fla. 4th DCA 2004); and

WHEREAS, state and regional planning efforts emphasize the importance of careful

management of groundwater withdrawals and coastal water resources to ensure long-term environmental and economic stability for coastal communities; and

WHEREAS, data center facilities are known to require substantial water resources for cooling systems and substantial electrical power to support continuous computing operations, which in some cases require infrastructure demands comparable to small municipalities; and

WHEREAS, data center facilities have the potential to place significant demands on regional groundwater supplies, water treatment infrastructure, and electrical grid capacity; and

WHEREAS, the Board hereby finds that the County currently lacks specific land use provisions or development regulations addressing the unique operational characteristics, infrastructure requirements, and environmental considerations associated with data center facilities; and

WHEREAS, the Board further finds that allowing such data center facilities to proceed without appropriate regulatory standards could create risks to the County's water resources, electrical infrastructure capacity, land use planning objectives, and long-term community development strategy; and

WHEREAS, imposing a temporary moratorium on the County's acceptance of applications for, the processing and review of, and the issuance of development orders and development permits for data center facilities will allow time for the County to review, study, hold public hearings, prepare, and consider proposed revisions to the land development code and comprehensive plan in order to ensure that data centers are properly regulated within the County in a manner which furthers the compatibility of land uses, protection of the environment and natural resources of the County, and sound land use planning principles; and

WHEREAS, the adoption of this Ordinance is undertaken in good faith and is intended to further the goals of the Comprehensive Plan and the comprehensive planning process set forth in Chapter 163, Florida Statutes; and

WHEREAS, adoption of this Ordinance will further the health, safety, and welfare of the citizens of Levy County.

NOW THEREFORE, be it ordained by the Board of County Commissioners of Levy County, Florida, as follows:

The moratorium may be extended by subsequent ordinance adopted by the Board to the extent permitted by law.

C. During the moratorium period, Levy County staff shall conduct a comprehensive review of the potential impacts associated with Data Center Facilities. Following the completion of the review process, County staff shall present best practices and make final recommendations to the Board regarding the adoption of appropriate zoning regulations, permitting requirements, infrastructure standards, and environmental safeguards governing Data Center Facilities.
