Department Highlights

The department had its part time inspector fully retire and we were able to fill that position with a full time inspector. We had some turn over with the staff at the front counter. We are down to two staff members at the front counter and the two that are there working have stepped up and have really went out of their way to keep the department running as smooth as possible. As you can see our intake numbers are up and staff is still processing and issuing permits usually within 2 to 2 ½ weeks. This is a huge since most of the staff at the front only started with us in this quarter. We are still making progress and getting close to relocating to the main complex, getting the entrance paved, and the roof completed on the entire building. We continue to track statues that will impact how the department functions and are making necessary changes to stay compliant and to help better serve the citizens of the County. We are hoping to have our new permitting system up and running by the end of the next quarter.
