Subject: Sand mine permit

[You don't often get email from [wscac@comcast.net](mailto:wscac@comcast.net). Learn why this is important at <https://aka.ms/LearnAboutSenderIdentification> ]

Hello.....this email is in reference to the proposed sand mine in Bronson. I own 66 lots(approximately 10 acres) that is next to the proposed sand mine. This will make my land worthless along with a lot of other land owners. This is not zoned for mining. And 99 acres is not a big piece of property for mining. The environmental impact, traffic, road damage, risk of underground water contamination, etc. etc. etc. And what value is the property when they walk away in 10 or 15 years. It will become a nuisance property for Bronson and Levy County. It's not right that this property owner be allowed to negatively impact so many all in the name of lining their pockets. Please, I ask that this be denied.

Thank you, William Crumb
