Bronson, FL 32621

Subject: Intergovernmental Agreement with the Town of Yankeetown for FEMA Public Assistance Support

I am pleased to present the attached Intergovernmental Agreement (IGA) between Levy County and the Town of Yankeetown concerning the Town's eligibility and reimbursement support with the FEMA Public Assistance (PA) program. This Agreement outlines the terms and conditions under which Levy County will assume the Town's eligibility to facilitate their recovery efforts related to Hurricane Debby.

Summary of the IGA:

1. **Purpose:** The IGA enables Levy County to act as the applicant for FEMA PA on behalf of the Town. This arrangement is intended to streamline the recovery process and ensure the Town can access necessary federal funding.
2. **County Responsibilities:** Under the Agreement, Levy County will manage the application process, oversee the use of FEMA PA reimbursable funds, and support compliance with all applicable regulations. The County will also provide regular updates to the Town on the status of the application and recovery efforts.
3. **Town Responsibilities:** The Town will collaborate with the County in preparing all relevant FEMA PA documentation, and work with the County to identify and manage eligible projects.
4. **Cost and Reimbursement:** The Agreement specifies that Levy County will not bear any costs not reimbursed by FEMA.
5. **Term and Termination:** The Agreement will remain in effect until all FEMA-funded projects are completed and reimbursed. Either party may terminate the Agreement with a mutually agreed upon days' written notice, ensuring an orderly transition of responsibilities.

We believe this Agreement will greatly benefit both parties by facilitating timely and efficient access to FEMA resources for the Town's recovery efforts.

Please feel free to contact me if you have any questions or require further information.

Thank you for your attention to this matter.

Sincerely,

John MacDonald
Director
Levy County Office of Emergency Management
