

OCTOBER 18, 2022 WORKSHOP - ZONING USES AND PROCESS

In follow up to the adoption of a County Zoning Map, this first workshop is for discussion of a draft framework for an ordinance that will amend the Zoning article within the Land Development Code (Chapter 50 of the Levy County Code of Ordinances) by:

- creating a development review process;
- creating a zoning district use table;
- categorizing and updating regulations for temporary, accessory, specially regulated and special exception uses;
- addressing issues that property owners have brought to the attention of staff; and
- deleting zoning provisions that are conflicting, obsolete, rarely used and/or preempted by State or Federal law.

The goal is to create a more user-friendly, intuitive and workable regulatory framework for zoning in Levy County.

At this first workshop, Staff is seeking Commission input at a high level. Next staff proposes to place an item on your November 15th or December 6th meeting, where we review and get input on specific regulations for a couple Specially Regulated Uses and Special Exceptions. Then a second workshop in January (and additional if desired by the Commission) to review the ordinance.

Subdivision 3. - Zoning District Use Table

Sec. 50-710. – Generally; Use Table.

This table establishes, for each zoning district, the permitted uses by right, specially regulated uses and uses that require a special exception. Each use must conform with all applicable requirements of this code. A use may be listed in this table as allowed in a zoning district, but if a particular lot or structure does not meet the minimum requirements of this code, the use will not be allowed on that lot or in that structure.

Any use that is not listed in the use table for a zoning district and is not a temporary use (refer to Subdivision 5) or accessory use (refer to Subdivision 4) is considered a prohibited use in that zoning district. When the zoning official interprets whether a particular proposed or existing use is permitted by right, a specially regulated use, a use by special exception, or a temporary or accessory use in a particular zoning district, the zoning official may consider factors including, but not limited to, the following:

- (1) Hours of operation (including hours for service and deliveries);
- (2) Building and site arrangement relative to the neighboring permitted uses;
- (3) Types of vehicles used and parking requirements;
- (4) The number of vehicle trips generated; and
- (5) Whether the activity is likely to be found independent of the other activities on the site.
