Re: RFP_2021_006 Information Technology Services

Dear Mr. Dean:

Thank you for the opportunity to conduct business with Levy County Board of County Commissioners. I have reviewed the RFP and am pleased to submit my company's proposal. We hope to continue serving as the Information Service provider with the same high level of service we have for the last three years.

Attached are the following:

1. Project Understanding and Approach
2. Project Team and Past Experience
3. Location and Workload
4. Forms
5. Cost/Fee Proposal

Sincerely,

Brady Clark, Owner

SCOPE OF SERVICES

New River Technology LLC is very familiar and understands the scope of services requested, as we have been providing them for more than three years.

A. Desktop Support- We have been providing desktop support to Levy County (most departments) for more than three years. We are very familiar with all software and hardware. Over 85% of desktops have been replaced over the last two years. NRT built the desktops, transferred files, settings, and have maintained a high level of service and support throughout the contract period.

B. Department of Public Safety Support- We added support to the Department of Public Safety two years into the contract. Their department alone has as much equipment and complexity as the other County departments combined. Our initial involvement with DPS was to recover a complete disaster as the server was hit with ransomware. We were able to restore files and setup a new redundant and resilient server system.

C. Server Administration- We have supported all County servers with the exception of Emergency Management, Legal, Sheriff, and Supervisor of Elections for three years. We are very familiar with the server infrastructure. We completed the migration of every county server to Hyper-V virtualization for better management and resiliency. We have maintained County servers without a loss of data. All disasters (weather related) were quickly recovered from without disruption of County services.

D. Network Administration- Most switches and wireless network equipment were installed and maintained by NRT. We have modernized most of the County networks to cloud managed and gigabit capable. Most printers have been configured to be network capable and we often manage or modify settings remotely for efficiency.

E. Security and backup- NRT has maintained security through an multi-layer approach. We heavily filter internet traffic through firewall policies, use Antivirus products that immediately alert upon an infection, and maintain spam filtering for Microsoft 365 email service. We also manage and maintain all backups for every server and critical workstation. We have not had any data loss or unrecoverable failure.

F. Planning- NRT has been Levy County's technology partner and knows very well how to modernize and enable efficiency. We have installed new server products and help facilitate more efficient computer processes.

G. Help desk support- NRT strives to respond to issues within 30 minutes. We have the highest standards of response and issue resolution. We are currently on call 24/7/365 for other customers and always answer in the middle of the night, or call back quickly.

H. On Site Support- NRT has been providing on site support when needed for more than three years.

I. End User Training- We understand that employees may need help with new systems. We have been there and will be there when needed to instruct users on how to properly use a new system. This does not include training for new software that should be provided by the software vendor.

J. Public records- We currently archive Microsoft 365 emails and have a system in place to export those as needed.

PAST SERVICE

New River Technology LLC has been in business since November of 2016. We have provided services to many local businesses and government entities. Some of those include:

1. Levy County Board of County Commissioners
 - a. Wilbur Dean/Ali Tretheway
 - b. Services include: IT Support, networking, computer install, server install, security, Microsoft 365 support, backups. (services requested in the above RFP)
 - c. Services provided since June of 2017.

2. Levy County Clerk of Court
 - a. Danny Shipp- levyclerk@levyclerk.com, 352-486-5266, 355 S Court Street, Bronson, Fl 32621
 - b. Services include: IT Support, networking, computer install, server install, security, Microsoft 365 support, backups. (services requested in the above RFP)
Some accomplishments include: Built and installed new Hyper-V servers for Clericus software implementation. Setup redundant Hyper-V servers with warm standby virtual machines. Replaced all desktop computers with new systems built by NRT. Ran network cabling for upstairs remodel and installed new network equipment.
 - c. Services provided since May of 2017.

3. Union County Clerk of Court
 - a. Kellie Rhoades- rhoadesk@unionclerk.com, 386-496-3711, 55 W Main Street, Lake Butler, FL 32054
 - b. Services include: IT Support, networking, computer install, server install, security, Microsoft 365 support, backups. (services requested in the above RFP)
Some accomplishments include: Built and installed new VMware servers for aging server systems. Setup redundant VMware servers with warm standby virtual machines. Setup work from home laptops and remote systems during Chinavirus (2020).
 - c. Services provided since January of 2017.

PROJECT TEAM

New River Technology's team currently consists of two people:

Brady Clark (Owner)

Drew Cothran (Senior Technician)

Resumes and experience are detailed in the next two pages.

LOCATION AND WORKLOAD

New River Technology's office is located in Lake City and we serve most of North Florida.

Brady is located in Lake City (one hour from Bronson)

Drew is located in High Springs (only 30 minutes from Bronson).

Our current workload is manageable and we are still timely in ticket response and resolution. We are looking to hire an additional technician but are having trouble finding qualified individuals willing to work. This is due to the long run of federal unemployment benefits. We currently service Levy County's IT- our workload would not change due to this RFP/Project.

Most of NRT's workload is in Bronson, as we service other County officials such as the Clerk of Court, Property Appraiser, and Tax Collector. This benefits the County, as on site visits for them necessitate that we check on other pending tickets for other departments.

We have a similar 24/7 contract for Lake Butler Hospital (Lake Butler, FL). NRT is currently their full service IT provider. They will be hiring an in house employee soon. At that point we will still be their Tier 2/3 escalation for emergency tickets or problems. We have never had more than one critical after hours issue at the same time and have always prioritized emergency tickets appropriately.
