Mr. Postel, The First Baptist Church on Second St. contacted me and said so much silt has collected in the ditch that it is causing water to back up and flood their parking lot, They have requested you to send someone to clean it out. Also, I have been told that you can go ahead and build the road around the ball field that leads to the new well site for Simsboro anytime you are ready. We have everything cleared to go as soon as the money is approved. Thank you for all your help.
Sincerely,
Sybil Foster
