

This is a fantastic community; and we know you'll love it here. We care about our neighbors and respect the Urban Forest that surrounds us.

Tree Permits let home owners easily remove problem trees with the provision that a new tree be replanted

Permits help balance removals so that the neighborhood tree canopy remains balanced

Do I need to submit a Tree Permit?

A Tree Removal & Replacement Permit is required for any tree:

- In an environmentally critical area or Tree Conservation Easement (TCE).
- Over six inches in diameter (outside of a critical area or TCE).
- That has been planted as a replacement tree for a previous permit.

To read the full regulations, please refer to Chapter 16.14 of [our municipal code](#).

To learn more about the tree permit process, please visit our website at: <https://www.cityoflfp.gov/163>

GETTING TO KNOW YOUR CITY'S ARBORIST

Helping the community to protect trees for future generations.

Managing ongoing challenges including:

- Civic construction projects
- Drought, aging trees, disease
- Seasonal maintenance issues

"Ensure tree safety, value, and beauty".

"Maintain, expand, enhance our urban forest"

Community Engagement

Permits provide a city arborist with the opportunity to engage property owners:

- Encouraging retention of large trees
- Promoting tree health
- Providing tree care information
- Monitoring canopy levels
- Ensuring trees are replaced

LAKE FOREST PARK *Washington*

This is a fantastic community; and we know you'll love it here. We care about our neighbors and respect the Urban Forest that surrounds us.

The Lake Forest Park Tree Board is here to help you get better acquainted with our Urban Forest

A city where people enjoy "the stately cedar, the majestic fir, and the homelike maple."

Get to Know Your Tree Board

THE TREE BOARD HAS THREE PRIMARY RESPONSIBILITIES:

- Educate and enlighten the community on tree-related issues
- Organize and facilitate the city's tree planting events and other public events involving trees
- Provide advice to City Council on policy and regulatory issues involving trees

For more information, visit our website:
<https://www.cityoflfp.com/107/Tree-Board>

THE TREE BOARD HAS VACANCIES:

The city is seeking applications for vacant seats on the Lake Forest Park Tree Board. If you are interested in applying or have questions, please see our website and contact the Assistant Planner:

<https://www.cityoflfp.gov/107/Tree-Board>

We have safe streets and pleasant green parks that offer welcoming places to walk and meet neighbors.

Ole Hanson developed Lake Forest Park circa 1912 "with an eye on Nature." The same is true today.

Why are Tree Permits Important?

- Tree removal without subsequent tree replacement can cause potential water runoff problems for your property and neighboring properties.
- Permits can also help to avoid accidental cutting of trees on public property and in environmentally critical areas.

To learn more about the tree permit process, please visit our website at:
<https://www.cityoflfp.gov/163>
