

## GETTING TO KNOW YOUR CITY'S ARBORIST

### **Helping the community to protect trees for future generations.**

Managing ongoing challenges  
including:

- Civic construction projects
- Drought, aging trees, disease
- Seasonal maintenance issues

"Ensure tree safety, value,  
and beauty".

"Maintain, expand,  
enhance our urban forest"

For more information, visit our website:

<https://www.cityoflfp.com/107/Tree-Board>

## Community Engagement

Permits provide a city arborist with the opportunity to engage property owners:

- Encouraging retention of large trees
  - Promoting tree health
  - Providing tree care information
  - Monitoring canopy levels
  - Ensuring trees are replaced
-

# LAKE FOREST PARK

*Washington*

This is a fantastic community; and  we know you'll love it here. We care about our neighbors and respect the Urban Forest that surrounds us.

Tree Permits let home owners easily remove problem trees with the provision that a new tree be replanted

Permits help balance removals so that the neighborhood tree canopy remains balanced

## Do I need to submit a Tree Permit?

A Tree Removal & Replacement Permit is required for any tree:

- In an environmentally critical area or Tree Conservation Easement (TCE).
- Over six inches in diameter (outside of a critical area or TCE).
- That has been planted as a replacement tree for a previous permit.

 To read the full regulations, please refer to Chapter 16.14 of [our municipal code](#).

To learn more about the tree permit process, please visit our website at:  
<https://www.cityoffp.gov/163>
