Subject: Climate Action Committee Vacancy

Dear Cory,

My name is Matthew Son, and I am a citizen of Lake Forest Park interested in filling the vacancy in the Climate Action Committee. I am 35 years old and currently work helping patients as a clinical pharmacist at Seattle Cancer Care Alliance. As part of my career, I am a scientist by training and have experience sitting on committees.

I am also passionate about climate action, recently joining Citizen's Climate Lobby and recruiting my friends and family to call our legislators regarding CCL's policies such as carbon pricing. I would be honored to take my activism further by working with the LFP committee to do what we can in our city.

Please let me know if the vacancy is still open and what other information you would like from me. I look forward to meeting you!

Thanks,

Matt

Matthew Richards Son, PharmD, BCPS

Curriculum Vitae

Lake Forest Park, WA 98155
