Reasons for Wanting to Serve

i am concerned that we have not reviewed salaries for elected officials since 2003 and that inflation surely is taking its toll on everyone these days. I wonder if this is will enable more residents to step forward to serve as I know there are always costs involved in this type of work, along with council members serving on various committees outside of our city. It would be good to compare other cities the size of LFP to see what their payment and benefit structures are so that we are also fair in our compensation plan.
