OLD BUSINESS

• **Chair Updates from Council Meeting March 7**

Tyler updated the Board on how the work plan presentation to Council went. He thought the Council appreciated the Board's work. Councilmember Bodi mentioned Council was very pleased with leadership of the Board and the work being done.

Tyler also updated the Board on his presentation to Council on their preferred design alternates, and noted it was brief. Amber was there to present later in detail the preferred options that aligned with the Board's recommendations. Council appreciated their time and thought weighed into the different options, liked how they balanced the choices. Councilmember Bodi noted Council last night they went through the options again and are all in agreement with the Park Board's choices, agreed with board and public survey on parking. Noted that the Snoqualmie tribe recommended that Lyon Creek Preserve should be more forested, so the design will go with a hybrid option to keep eyesight open but adding tall canopy to create a more forested area. Councilmember Bodi also thanked the public effort and Consultants, really appreciated the outreach effort.

Tyler also thanked the Park Board members who did go to the PTA's and other community groups, the consultants will look at making sure the playground is a more robust play area. Steve noted he liked how the parking was all in agreement.
