 2. Growth Management Services Climate Planning Grant 24-63610-213
-

Executive Summary

The city has been awarded a grant by the Department of Commerce in an amount not to exceed \$500,000, to assist with the climate planning policies and development regulations work needed to comply with the climate planning requirements of legislation passed in 2023 (HB 1181). The legislation adds a climate goal to the Growth Management Act (GMA) and requires local comprehensive plans to have a climate element with resilience and greenhouse gas emissions mitigation sub-elements.

This climate planning work is distinct and separate from the ongoing periodic update of the Comprehensive Plan, due by December 2024. Under GMA, Lake Forest Park is required to complete the climate planning work by 2029. However, due to the grant award, Lake Forest Park can move forward with its obligation and begin the climate planning work at this time, through June 2025.

The funds provided by this grant will complement the city's limited funds available for this effort in the Community Development Department professional services budget.

The grant is effective from the date of execution through June 30, 2025, on a reimbursement basis.

Background

As part of the climate planning policies and development regulations update, several required deliverables were identified that fit within the timeline of the grant. Included in the Scope of Work for the grant is:

- Form a Climate Policy Advisory Team and engagement strategy that supports environmental justice;
- Explore climate impacts, identify community assets, and consider environmental justice;
- Audit existing plans and policies for climate gaps and opportunities;
- Assess vulnerability and risk;
- Pursue pathways to adapt/expand existing goals and identify policy co-benefits;
- Gather local greenhouse gas (GHG) emission and planning data;
- Inventory and estimate GHG emissions;
- Perform a vehicle mile travel (VMT) study;
- Establish emission reduction targets;
- Produce a final review draft of a climate element with resilience and greenhouse gas emissions goals and policies.

With the grant funding awarded, and a grant contract with the Department of Commerce in place, the city would proceed with an advertised Request for Qualifications (RFQ) for professional consulting services to perform the climate planning scope of work, consistent with the budget, deliverables, and timelines.

Fiscal & Policy Implications

Acceptance of this grant would support the Community Development Department Professional Services budget, providing additional budget capacity.

Alternatives

<i>Options</i>	<i>Results</i>
<ul style="list-style-type: none"> • Authorize the Mayor to accept the grant on behalf of the city. 	Costs for the Climate Planning work will be supported by the \$500,000 grant.
<ul style="list-style-type: none"> • Do not accept the grant. 	The full cost of the Climate Planning work will be funded by the city.

Staff Recommendation

Following a review of the attached grant document, staff recommends that the council pass Resolution 24-1946, authorizing the Mayor to accept the Department of Commerce Climate Planning grant.
