Future Land Use Map — Walton County

Applicant's Request

The applicant is seeking to annex into the City approximately 26.883 acres of the total 28.24 acres between the two parcels to build an 82-unit master planned residential community.

Existing Conditions

There is a residence currently located at 3215 Tig Knight Road, Loganville, which was built in 1986 and encompasses 3,128 square feet of space. The rest of the land is vacant.

Impact Analysis / Recommendation

What is the impact upon the overall appearance of the City and impacts upon aesthetic conditions of adjacent parcels? Rezoning of this residence and subsequent vacant land into the City would have no impact.

What is the impact upon thoroughfare congestion and traffic safety? Annexations by themselves do not have an inherent impact on congestion and traffic safety, though the property will likely be developed and the resulting development would increase traffic.

What is the impact upon population density and the potential for overcrowding and urban sprawl? Annexations by themselves do not have a direct impact on overcrowding and urban sprawl.

Is the proposed use consistent with the adopted Comprehensive Plan? Neither of these parcels are included in the City of Loganville's Future Land Use Plan.

What is the impact upon adjacent property owners if the request is approved? There would be no impact as an annexation does not change the character of the land itself, though the property will likely in the future be developed and would impact adjacent property owners.

What is the impact upon adjacent property owners if the request is not approved? None.

Recommended action: The parcel of land meets the requirements to be annexed into the City limits.
