APPLICANT'S RESPONSES TO EVALUATION CRITERIA (Zoning Variance)

1. What extraordinary or exceptional conditions due to size, shape or topography are present on the property in question that support the request for relief?

I purchased a property that has 2 homes on a single parcel. I plan to split the parcel into 2 lots (one lot for each home). The current R22 zoning requires the minimum lot width to be 125 feet. The current lot width is 184 feet. Splitting the parcel into the 2 parcels would create a hardship by not being able to meet the zoning minimum lot width of 125 feet.

2. What other conditions are unique to the property and adversely affect its reasonable use or usability as currently zoned?

The subject property has 2 homes on one parcel.

3. How does the application of the requirements of the applicable ordinance to the property in question create an unnecessary hardship?

I plan to split the lot into 2 separate parcels which presents the hardship of not meeting the minimum lot width requirements for the updated parcels.

4. Would the requested relief, if granted, cause substantial detriment to the public good or impair the purpose and intent of the applicable ordinance?

No, this would not create any detriment to the public good or impair the purpose and intent of the current ordinance.

5. Does the relief requested grant a use of land or building or structure that is otherwise prohibited by the applicable ordinance? **No**

Department of Planning and Zoning

Re: Letter of Intent – Zoning Variance Application
Property Address: 3965 Pecan Street Loganville (Gwinnett)
Parcel Number: R5160 043

Dear Members of the City of Loganville Planning and Development Committee:

I am the owner of the property located at 3965 Pecan Street / Road, which is currently zoned R-22. This letter is submitted in addition to my application for a zoning variance to allow relief from the minimum lot width requirements.

The existing parcel has a lot width of 185 feet, and currently contains two residential dwellings. I plan to separate this lot into 2 separate parcels to have one home on each parcel. As the current zoning ordinance of having a minimum lot width of 125 feet on a single parcel, the requested variance relief will allow us the ability to split the parcels.

Following the approval to allow a reduced minimum lot width, both homes will be completely renovated and brought into full compliance with all applicable building codes, safety standards, and City requirements. This project will improve the condition of the property and ensure long-term code compliance for both residences.

The requested variance represents the minimum relief necessary to resolve the existing nonconformity. The proposed parcel division will be consistent with the surrounding neighborhood pattern and will not adversely impact adjacent properties, traffic, utilities, or public services. This future lot division will align with the intent of the zoning ordinance by reinforcing the one-dwelling-per-parcel standard while eliminating a nonconforming condition.

For these reasons, I respectfully request approval of the zoning variance to allow the reduced minimum lot width. I am committed to working cooperatively with City staff and am willing to comply with any

reasonable conditions associated with approval. Thank you for your time and consideration of this application.

Sincerely,

A handwritten signature in blue ink, appearing to read "Justin Sanchez", with a stylized flourish at the end.

Justin Sanchez

EXHIBIT A

All that tract or parcel of land lying and being in Land Lot 160 of the 5th District, Gwinnett County, Georgia, City of Loganville, on a public road or street leading or running in a northerly direction from Line Street in Loganville, Georgia near the Baptist Church. This tract of land contains one acre, more or less, and is described more fully as follows:

Beginning at an iron pipe on the road bank of road leading north from Line Street in Loganville, Georgia and running north along said street 181 1/4 feet to an iron pin driven into shoulder of the road; thence westerly 216 feet to an iron pipe; thence southerly 209 1/2 feet to an iron pin; thence easterly to the 208 1/2 feet to beginning point at iron pipe on road bank.

This tract of land is bounded as follows: on the east by public road; on the north by Jack Sorrells' estate and a small corner lot owned by Thurmond Sorrells; on the west by lands of W. I. Still, Jr.; on the south by Sylvester Selman.

This tract of land is approximately one half of the tract of land conveyed to Sylvester Selman by S. L. Carter November 24th, 1956 and recorded by Clerk of the Superior Court, Gwinnett County, State of Georgia on December 4, 1956, in Book 132, Folio 74; said plat being incorporated herein by reference and made a part of this description.

Justification Analysis

Zoning Variance Request – Minimum Lot Width

Property Address: 3965 Pecan Road (Gwinnett)

Zoning District: R-22

1. Existing Conditions and Nonconformity

The property currently consists of a single parcel with two separate residential dwellings that have been grandfathered into the current zoning ordinance. Under the R-22 zoning district, only one single-family dwelling is permitted per parcel. As a result, the property is presently in a nonconforming condition.

The proposed parcel split is intended to correct this nonconformity by placing each existing dwelling on its own legally conforming parcel, thereby aligning the property with the fundamental intent of the zoning ordinance.

2. Practical Difficulty / Hardship

The hardship prompting the variance relief arises directly from the unique physical and development characteristics of the property. The existing dwellings were designed and sited on the original parcel in a manner that does not easily translate to two fully conforming R-22 lots under current dimensional standards.

Following the proposed parcel division, the compliance of the minimum lot width of 125 feet requirement creates a practical difficulty due to:

- The size and configuration of the original parcel
- The fixed locations of the existing dwellings

3. Minimum Relief Necessary

The variances requested represent the minimum relief necessary to allow reasonable use of the property while correcting the existing zoning violation. No additional dwelling units are proposed, and no intensification of use is requested.

4. Consistency with Zoning Intent

Granting the requested variances is consistent with the intent of the R-22 zoning district and the zoning ordinance as a whole. The proposal:

- Reinforces the one-dwelling-per-parcel standard
- Eliminates an existing nonconforming condition
- Encourages compliance with current building codes
- Preserves the established residential character of the neighborhood

Rather than undermining zoning objectives, the variances facilitate compliance and responsible land use.

5. Impact on Surrounding Properties and Public Welfare

The proposed relief of this variance will not negatively impact surrounding properties or the public interest. The existing residential use of the site will remain unchanged.

The project will not adversely affect traffic, drainage, utilities, access, light, air, or privacy for neighboring properties.

6. Conclusion

The requested variances are justified due to the unique conditions of the property, the need to resolve an existing zoning nonconformity, and the absence of negative impacts on the surrounding area. Granting the variances will allow the property to be used in a manner consistent with the zoning ordinance while promoting public safety, neighborhood compatibility, and long-term code compliance.

For these reasons, approval of the requested variances is warranted.
