# FORESTRY MULCHERS FOR EXCAVATORS BLI/EX - BLI/EX/VT

Forestry mulcher with Bite Limiter technology.

FAE introduces a new line of professional mulchers for excavators equipped with Bite Limiter technology. Special steel limiter rings limit the depth of blade action, reducing the demand for power, guaranteeing speed and exceptional performance. The BLI/EX - BLI/EX/VT (for 4-7.5 t excavators) has a 31 in working width and can mulch logs up to 5 in diameter.

The piston engine (with manually controlled, variable displacement) makes it easy to use this mulcher on different excavators with different oil flow rates. The BLI/EX-BLI/EX/VT has a rotor equipped with a heat-treated forged steel tooth holder, together with Type Mini BL blades. This light, compact mulcher is easy to maneuver and perfect for various types of forestry work.

Custom made thumb bracket to move and reposition material

Dedicated rear hood (deflector) controls mulched material output for greater safety

Bite Limiter rotor special steel limiter rings control the depth of cut

Excavator stand and thumb bracket useful in moving material to be mulched

Hydraulic front hood for optimal mulching, reduces the ejection of mulched material

Hydraulic front trap door helps contain debris and achieves finer sizing (optional)
