CHECK # 45397 RECEIPT # 202406943 TAKEN BY SB DATE OF LEGAL NOTICE: 6-2-24 6-14-24 NEWSPAPER: THE WALTON TRIBUNE

PLANNING COMMISSION RECOMMENDATION: Approve Approve w/conditions Deny No Recommendation

Commission Chairman: [Signature] DATE: 6/27/24

CITY COUNCIL ACTION: Approved Approved w/conditions Denied Tabled to
 Referred Back to Planning Commission Withdrawn

Mayor: [Signature] City Clerk: [Signature] Date: 10/16/24

Planning Commission Recommended Conditions

The Planning Commission vote was 3-3, with the Chairman casting the tiebreaking vote in favor of recommending approval of the rezone with the following conditions:

- The mailbox kiosk be placed in a central location that is not exclusively inside area of the townhomes or single-family residences but rather in between
- The project features an enclosed meeting space in a centralized location to both the single-family residences and townhomes
- The project includes a paved walking trail in the open space adjacent to Tuck Road connecting to Destination Park
- As allowed, develop a nature trail along the townhomes to the Walmart property
- Have it expressly state in the covenants that commercial and residential owners help maintain the trails at a minimum of once a year
- 8-foot privacy fence between the buffer and the property of Chris Green at 4565 Tuck Road
- Minimum of two community swimming pools as allowed

APPLICANT'S RESPONSES TO EVALUATION CRITERIA

In the space provided or in a separate attachment, provide responses to the following questions:

1. How does the proposed use impact the overall appearance of the City and aesthetic conditions of adjacent parcels?
Please see attached.

2. How does the proposed use impact thoroughfare congestion and traffic safety?

3. How does the proposed use impact population density and the potential for overcrowding and urban sprawl?

4. How does the proposed use impact the provision of water, sewerage, transportation and other urban infrastructure services;

5. How does the proposed zoning provide protection of property against blight and depreciation?

6. How is the proposed use and zoning consistent with the adopted Comprehensive Plan?

7. In what way does the proposed zoning affect adjacent property owners if the request is approved?

8. What is the impact upon adjacent property owners if the request zoning is not approved?

9. Describe any other factors affecting the health, safety, morals, aesthetics, convenience, order, prosperity, or the general welfare of the present and future inhabitants of the City of Loganville.

APPLICANT'S RESPONSES TO EVALUATION CRITERIA

1. How does the proposed use impact the overall appearance of the City and aesthetic conditions of adjacent parcels?

The proposed use is compatible with the overall appearance of the City and aesthetic conditions of adjacent parcels. Adjacent land uses include commercial, residential, and civic uses as well as vacant land. The proposed mixed-use development with residential, commercial, and open space/recreational amenities is compatible with existing land uses. The proposed commercial components of the development are located along exterior right-of-way and would provide an attractive streetscape for motorists travelling along Conyers Road (State Route 20) and Tuck Road.

2. How does the proposed use impact thoroughfare congestion and traffic safety?

The proposed development is located along Conyers Road, which is a major transportation corridor and a State Highway. Additionally, GDOT has announced plans to align Tuck Road with Sharon Church Road with the construction of a new roundabout. The Applicant is coordinating with GDOT relative to this road improvement, which will enhance connectivity and traffic flows in the area.

3. How does the proposed use impact population density and the potential for overcrowding and urban sprawl?

The proposed development would not contribute to overcrowding or urban sprawl as the property is located near the urban core of Loganville and the proposed land uses and densities are compatible with surrounding development. The subject property is located less than 1,500 feet from Atlanta Highway (U.S. Route 78), which is Loganville's most heavily developed corridor. The proposed development is not an isolated, out-of-place development at Loganville's fringes. It includes a mix of land uses that are already present in the area and continues established development patterns along major transportation corridors.

4. How does the proposed use impact the provision of water, sewerage, transportation and other urban infrastructure services?

The proposed development would utilize public water, sewer, and other utilities, providing upgrades where necessary. Given the intensity of surrounding development and the property's proximity to major transportation corridors, the proposed development would not negatively impact the provision of urban infrastructure or other municipal services.

5. How does the proposed zoning provide protection of property against blight and depreciation?

The proposed development would provide high-quality, attractive homes at price points that would be commensurate with homes in the surrounding area. First-class amenities and a mix of housing types would provide additional stability to the proposed development. The proposed development would provide necessary residential critical mass to support proposed commercial components of the development as well as existing commercial uses in the surrounding area.

6. How is the proposed use and zoning consistent with the adopted Comprehensive Plan?

The proposed development would provide a mixture of residential, commercial, and recreational/open space uses that is compatible with the Future Land Use designations of Residential, Commercial, and Park/Recreation/Conservation. While the unincorporated portions of the subject property are not assigned Future Land Use designations, they are compatible with the designations of adjacent land. That is, one of the proposed open spaces portions of the subject property is located adjacent to Destination Park, which is designated as Park/Recreation/Conservation. The proposed commercial portions of the proposed development are located across the street from land designated as Commercial across Tuck Road and Conyers Road. The balance of the proposed development is the residential component, which is consistent with the Residential Future Land Use designation.

7. In what way does the proposed zoning affect adjacent property owners if the request is approved?

The proposed development would complement surrounding properties by enhancing the walkability of the surrounding area, increasing housing options in the City, and providing a high-quality, attractive mixed-use development near major transportation corridors.

8. What is the impact upon adjacent property owners if the request zoning is not approved?

The property would remain a large, underutilized tract near the center of Loganville. It would not meaningfully contribute to the tax base or provide residential critical mass to support local businesses. Large tracts are often difficult for families to maintain and have the potential to negatively impact the aesthetics of the surrounding area, if not maintained.

9. Describe any other factors affecting the health, safety, morals, aesthetics, convenience, order, prosperity, or the general welfare of the present and future inhabitants of the City of Loganville.

The subject property is located along a State Highway with convenient access to downtown Loganville. The proposed alignment of Tuck Road and Sharon Church Road with the construction of a roundabout enhances the subject property's vehicular access and will improve existing traffic flows. The proposed mixed-use development is compatible with the mixed-use character of the surrounding area which includes, residential, commercial, and recreational uses.

**COMBINED LETTER OF INTENT FOR ANNEXATION, REZONING, AND
CONCURRENT VARIANCE APPLICATIONS OF
GREEN RIVER BUILDERS, INC.**

Mahaffey Pickens Tucker, LLP submits this Letter of Intent and the attached annexation, rezoning, and concurrent variance applications (the “Applications”) on behalf of Green River Builders, Inc. (the “Applicant”), relative to a proposed mixed-use development on an approximately 201.376-acre tract of land (the “Property”) located at the intersection of Tuck Road at Conyers Road (State Route 20). The Property straddles the Gwinnett and Walton County line and includes portions that are within the municipal boundary of the City of Loganville as well as unincorporated portions. The Property is currently zoned A2, R-44, and CH and also includes a portion in Gwinnett County that appears to be unzoned according to Gwinnett County’s official zoning map.

The proposed development would include a mix of land uses including single-family detached homes, single-family attached townhomes, commercial/retail/office, and open space. Two central boulevards provide access to the Property off of Tuck Road. The eastern boulevard would proceed through the commercial component into an area designated for common area which could accommodate a plaza, town green, or other gathering space. The commercial component is focused along the exterior right-of-way of Tuck Road and Highway 20 with building facades pushed up towards the road with the majority of parking to the sides or rear of the commercial buildings. This design will enhance the aesthetics of those roadways and contribute to the neighborhood village concept encouraged by the PUV zoning classification. The proposed townhome component would provide a transition between the commercial and single-family detached components. The proposed single-family detached component is located internal to the

Property with convenient access to open space areas and the proposed commercial areas. An internal sidewalk network and trails would provide walkability for residents and visitors with a potential trail connection to adjacent commercial uses which front on Highway 78. The proposed open space is provided in two main areas. The larger open space area is located in the northeastern portion of the site along an existing creek. This area would remain mostly natural and would provide passive recreational opportunities for residents. A smaller, +/-3.75-acre open space area is provided in the western corner of the Property adjacent to the City's Destination Park.

The proposed mixed-use development is designed to activate the existing node at the intersection of Tuck Road and Highway 20 while providing an appropriate transition to single-family detached homes to the north. The proposed development would also enhance the walkability of the surrounding area by creating opportunities for people to live, work, and play within walking distance of downtown Loganville. The proposed development is compatible with existing land uses and zoning classifications of the surrounding area, is in line with the policy and intent of the Comprehensive Plan, and is an appropriate land use due to the Property's location on and in close proximity to major transportation corridors. The surrounding area is characterized by a mix of zoning classifications and land uses including commercial, office, industrial, and residential. In fact, the Property lies in between two developed nodes—Tuck Road at Highway 20 and Highway 20 at Highway 78. To the east, the Property is located adjacent to land zoned CH including the Walmart as well as a large undeveloped commercial tract. To the west across Tuck Road are existing heavy commercial and/or industrial uses including land in the City zoned LI (Light Industrial) and CH (Commercial Highway). The proposed mixed-use development continues the existing development pattern of commercial uses along major corridors and then provides an appropriate internal transition. Moving north away from Highway 20, the proposed land uses step down from commercial, to townhomes and then to detached homes. The proposed development would also include a 30-foot wide buffer adjacent to the Foxbury Commons and Fox Chase subdivisions.

In order to develop the Property as depicted on the site plan, the Applicant also requests the relief from the Loganville Zoning Ordinance building permit concurrency requirements. As described in the Applicant's Responses to the Variance Evaluation Criteria, the concurrency requirements, as set forth in the Zoning Ordinance, would create an unnecessary hardship on the Property owner and Applicant. The subject property is exceptionally large and has significant

topography. A creek runs along the easterly property boundary line, which also presents challenges for the development of the property and construction of buildings. Moreover, the proposed GDOT project to align Tuck Road with Sharon Church Road and construction of a roundabout provide significant challenges relative to the timing of construction. Forcing development of the commercial component of the mixed-use development to occur before planning and/or construction of such major road improvements would create an unnecessary hardship on the Applicant and the property owner. Moreover, as evidenced by commercially-zoned, but vacant properties in the area, commercial development relies on residential critical mass to be successful. Prematurely constructing commercial uses before a stable market is present would result in unnecessary risk and cost to the Applicant and property owner. Moreover, artificially restraining residential development would prolong the development timeline and unnecessarily expose the project to market risks. On the other hand, allowing the development to proceed according to timelines dictated by the free market would allow the natural development of the project while also increasing the attractiveness of the commercial component as residential units come online and establish a built-in customer base.

The proposed development is compatible with surrounding zoning classifications and land uses, is inline with the land use policy of the Comprehensive Plan, and would provide a vibrant, attractive mixed-use development along a major transportation corridor. The Applicant welcomes the opportunity to meet with staff of the City of Loganville Department of Planning and Development to answer any questions or to address any concerns relating to the matters set forth in this letter or in the Application filed herewith. The Applicant respectfully requests your approval of the Application.

Respectfully submitted this 8th day of March, 2024.
