Hi Amanda,

See below pricing for a nice portable system that can be taken down and stored each year. We can handle the setup, teardown and storage each year as part of our normal seasonal business model. Let me know if you have any questions!

Rink Size 48' x 96'

- Installed on Existing Grass Field - Assuming slope of less than 8" - no grading required.

D1 Backyard Rinks Dasher Board System

2026 Total Cost - \$27,563

- Includes delivery, installation and liner

2027+ Total Cost Estimate - \$7,250

- Includes setup, teardown, storage and a new liner each year

Ice Maintenance Packages - Includes snow removal, ice repair, ice resurfacing as needed per week.

Ice Maintenance Package 1-Time Per Week - Jan 1st to Feb 28th - \$2750.00

Ice Maintenance Package 2-Times Per Week - Jan 1st to Feb 28th - \$5000.00

Hi Amanda!

I received your voicemail. I let me know what size you are looking for. Another popular size is 60'x120'. I would advise against going much bigger than this due to the large liner needed for flooding. You can get a lot of skaters on a 60x120; see the capacity specs estimate below.

We need to order this very soon to ensure it fits into our production schedule.

Rink Size 60' x 120'

- Installed on Existing Grass Field - Assuming slope of less than 8" - no grading required.

D1 Backyard Rinks Dasher Board System

2026 Total Cost - \$35,620

- Includes delivery, installation and liner

2027+ Total Cost Estimate - \$8,500

- Includes setup, teardown, storage and a new liner each year

Ice Maintenance Packages - Includes snow removal, ice repair, ice resurfacing as needed per week.

Ice Maintenance Package 1-Time Per Week - Jan 1st to Feb 28th - \$3,500.00

Ice Maintenance Package 2-Times Per Week - Jan 1st to Feb 28th - \$6,500.00

Ice Rink Capacity Breakdown for 60' x 120'

- **Comfortable/Recreational Skating (~50 to 100 sq. ft. per person):** Allows roughly **72 to 144 skaters** to move freely without frequent collisions.
- **Maximum Occupancy/Crowded Public Session (~35 to 50 sq. ft. per person):** Fire codes or specific event setups (such as city holiday rinks) may cap a 60 x 120-foot surface at a maximum of **140 people** on the ice. [1]
- **Hockey / Organized Practice:** Usually limited to **10 to 30 players** on the ice at once for safe drills and scrimmages.
