

Join the “Long Lake Garden Club”

OUR MISSION

The mission of the Long Lake Garden Club is to help keep Long Lake beautiful; stimulate the knowledge and love of gardening and horticulture; to bring the residents of Long Lake together to share gardening tips with seasoned gardeners and amateurs; and to promote civic engagement and volunteerism.

Hello Fellow, Long Lake Residents!

We are calling all gardening lovers to consider joining the Long Lake Garden Club. This club is a service club for the City of Long Lake. Our purpose is to assist the Public Works Department in keeping our planting around the city monument signs and other planting in the city weed free and watered. This club is also looking forward to assisting in helping novice gardeners in gaining knowledge about gardening and plants. Also, a huge benefit to this group will also be meeting and getting to know your neighbors.

If you are interested, please email Jeanette Moeller City Clerk jmoeller@longlakemn.gov with name and contact information. We will hold a general meeting to meet everyone and chat.

Thank you for considering this great opportunity to keep Long Lake beautiful for residents and visitors.

Have a super day!

Anita Secord

Volunteer Coordinator
