#### **14.76.070 Variance findings.**

- A. ~~In order to avoid such practical difficulties, unnecessary physical hardships and results inconsistent with the objectives of the zoning plans stated in Article 1 of Chapter 14.02, as would result from a strict or literal application of the provisions of this chapter, the planning commission may grant variances to the regulations controlling site area, width, depth and coverage, yards and other open spaces, parking spaces, loading spaces, height of structures, allowable building floor area and fences for those properties located in single-family zoning districts.~~
- B. ~~The planning commission may grant a variance as applied for if, on the basis of the application and the evidence submitted, the commission makes the following positive findings:~~
1. ~~That the granting of the variance will be consistent with the objectives of the zoning plan set forth in Article 1 of Chapter 14.02;~~
  2. ~~That the granting of the variance will not be detrimental to the health, safety, or welfare of persons living or working in the vicinity or injurious to property or improvements in the vicinity; and~~
  3. ~~That variances from the provisions of this chapter shall be granted only when, because of special circumstances applicable to the property, including size, shape, topography, location, or surroundings, the strict application of the provisions of this chapter deprives such property of privileges enjoyed by other property in the vicinity and under identical zoning classifications.~~
- C. ~~Any variance granted shall be subject to such conditions as will assure that the adjustment thereby authorized shall not constitute a grant of special privileges inconsistent with the limitations upon other properties in the vicinity and district in which such property is situated.~~
