2 City Doc 2006 Los Altos Orchard Management Plan En Force copy.pdf;

Hello,

It seems like the updated DPR and perhaps some of the assumptions by TreanorHL did not include consideration of the attached Apricot Orchard Management and Guidelines (2006), which I think is still en force.

These 2006 guidelines denote what seems like a clear understanding of all of the characteristics of the orchard, and how it functions.

Has another orchard management plan replaced this one?

Best,

Maria Bautista
