

Santa Clara County Multi-Jurisdictional Program for Public Information 2021

FY24 Annual Evaluation Report

(Year 3: July 2023 to June 2024)

June 2024

Prepared by:

Santa Clara Valley Water District

and

Santa Clara County CRS communities

I. INTRODUCTION

The Community Rating System (CRS) is a voluntary program of the Federal Emergency Management Agency's (FEMA) National Flood Insurance Program (NFIP). The CRS program allows communities to earn flood insurance premium discounts for their residents and businesses by implementing local mitigation, floodplain management, and outreach activities that exceed the minimum NFIP requirements to reduce the risk of flooding.

In Santa Clara County, 11 (eleven) communities, including Santa Clara Valley Water District (Valley Water) have actively participated in the FEMA NFIP CRS for over 30 years.

The CRS participating communities (CRS communities) are City of Cupertino, City of Gilroy, City of Los Altos, City of Milpitas, City of Morgan Hill, City of Mountain View, City of Palo Alto, City of San Jose, City of Santa Clara, City of Sunnyvale, and the Santa Clara Valley Water District (Valley Water).

CRS communities, along with their external non-governmental stakeholders, non-CRS communities: *City of Saratoga, Town of Los Altos Hills, Town of Los Gatos, and the County of Santa Clara* who opted to join the 2021 Program for Public Information (PPI), comprised the 2021 PPI Committee. The original 2021 PPI Committee is listed in *Table 1. Original Members of the Santa Clara County Multi-Jurisdictional 2021 PPI Committee* of the 2021 PPI (*Attachment 1*). Since the development of the 2021 PPI, there may have been changes to the community's original 2021 PPI Committee members (*either the internal representatives to the organization and/or the external stakeholders*). Those member changes are noted on the meeting attendance sheets.

For CRS credit, FEMA requires that each CRS community provide at least two representatives to the regional PPI Committee, with at least half of the representatives from outside the local government. Additionally, at least half of the representatives must attend all the meetings of the regional PPI Committee. Non-CRS communities are also required to provide an external stakeholder.

An important benefit of the PPI Committee's work is close collaboration between local public agency staff who work on flood protection throughout Santa Clara County. Together, PPI Committee members continue strengthening their individual CRS programs and ensuring communities can evaluate their flood programs against a nationally recognized benchmark.

The 2021 PPI Committee, the remaining non-CRS communities (City of Campbell and City of Monte Sereno), and other interested parties make up the Santa Clara County CRS Users Group.

The Santa Clara County CRS Users Group collaborates to ensure floodplain management activities provide enhanced public safety, reduced damage to property and public infrastructure, and avoidance of economic disruption and loss in Santa Clara County. Through the five-year PPI development and the annual reporting process, members of the SC County CRS Users Group learn from one another about local floodplain management activities, including flood protection and land use issues. For both the Santa Clara County CRS Users Group and the 2021 PPI Committee, the PPI is one of the most impactful activities of the CRS program.

Under the CRS program, flood insurance premium rates are discounted to reward CRS communities' actions that meet the three goals of the CRS:

- (1) reduce flood damage to insurable property
- (2) strengthen and support the insurance aspects of the NFIP; and
- (3) encourage a comprehensive approach to floodplain management.

Flood insurance premiums for CRS communities are reduced in 5% increments for every 500 CRS points earned. As of April 30, 2023, the total savings for Santa Clara County residents from CRS discounts is approximately \$1.5 million.

**Santa Clara County 2021 Multi-Jurisdictional Program for Public Information
FY24 Annual Evaluation Report (Year 3: July 2023 to June 2024)**

Valley Water is the lead flood protection agency for Santa Clara County. Valley Water performs many flood preparedness outreach and stream stewardship/maintenance activities that earn credit points for CRS communities. Since Valley Water is not a land-use agency, the points Valley Water earns as a “fictitious community” provide a foundation upon which the CRS communities can build. FEMA approved this unique arrangement with Valley Water in 1998.

The *CRS Coordinator’s Manual, 2013 Edition*, included the option to undertake a Program for Public Information (PPI), which standardizes our flood preparedness outreach messages and increases communities’ CRS points. Each participant of the PPI Committee brings unique perspectives and suggestions that enhance the PPI. Each community must adopt the PPI through a formal vote by the community’s governing body.

In 2013, Valley Water initiated and facilitated the effort to develop the first Multi-Jurisdictional PPI so that all Santa Clara County CRS communities could work together and benefit from this activity. Non-CRS communities were also invited to participate in the development of the PPI. This work effort resulted in the 2015 Multi-Jurisdiction PPI (2015 PPI).

On April 14, 2015, Valley Water’s Board adopted the 2015 PPI, which sunset in April 2020. Following Valley Water’s lead, the other CRS communities’ governing bodies adopted the 2015 PPI soon thereafter.

Under the CRS, the PPI must be updated every five years. Each subsequent year after adopting the PPI, the PPI Committee must submit an annual evaluation report to FEMA describing the PPI implementation for the prior fiscal year. The PPI Committee must evaluate whether the flood risk reduction messages in the PPI are still relevant and adjust the PPI, if needed. The annual evaluation report is shared with each CRS community’s governing body as an informational item.

As required, annual evaluation reports for FY16 (Year 1 of the 2015 PPI) through FY19 (Year 4 of the 2015 PPI) were prepared, sent to each CRS community’s governing body, and included in each community’s respective annual recertifications or as part of a community’s documentation for those that were cycled on any given year.

In FY20 (Year 5 of the 2015 PPI), the PPI Committee was required to update the 2015 PPI. The Insurance Services Office (ISO), FEMA’s CRS program management contractor, exempted the PPI Committee from submitting an annual evaluation report for FY20 (Year 5 of the 2015 PPI) as the committee focused on updating the document.

In February 2020, Valley Water hosted the start of the five-year PPI updated process. Fifteen Santa Clara County communities worked together to update the 2015 PPI. These communities included the current 11 CRS communities as well as four non-CRS communities that expressed interest in joining the 2015 PPI and possibly the CRS program. Staff and external stakeholders from each agency participated in developing the new PPI.

In March 2020, the Coronavirus (COVID-19) outbreak started. The California State Emergency Services Act, the Governor’s Emergency Declaration related to the COVID-19 pandemic, the Governor’s Executive Order N-29-20, and Order of the County of Santa Clara Public Health Officer dated March 16, 2020, went into effect.

The COVID-19 pandemic caused far-reaching, unprecedented changes. Businesses and organizations faced economic and operational uncertainty across every industry and sector. The workforce impacts during COVID-19 caused delays beyond control, including the PPI Committee’s ability to continue its work of updating the 2015 PPI. Many communities shifted priorities to respond to the public health crisis; therefore, FEMA provided an extension of completing the update to the 2015 PPI to early 2021.

The 2021 PPI Committee reconvened in October 2020 to resume the 2015 PPI update. Several virtual meetings followed until the 2021 PPI Committee completed the 2021 PPI in April 2021. The 2021 PPI was adopted by CRS communities, as indicated in *Table 1. Adoption Dates 2021 PPI*.

**Santa Clara County 2021 Multi-Jurisdictional Program for Public Information
FY24 Annual Evaluation Report (Year 3: July 2023 to June 2024)**

II. 2021 PPI DEVELOPMENT PROCESS

Valley Water, CRS, and non-CRS communities initiated the 2021 PPI process in February 2020. Due to COVID-19, discussions were postponed; the process was reinitiated in October 2020. The Santa Clara County 2021 Multi-Jurisdictional Program for Public Information document was completed in April 2021 (refer to Section I. Introduction for COVID-19-related delays).

Virtual meetings were held between 2020 and 2021 to develop the 2021 PPI. FEMA's six priority topic messages and the three additional messages identified in the 2015 PPI carried forward into the 2021 PPI. The 2021 PPI Committee felt all nine topics and supporting messages were still relevant for reaching Santa Clara County residents and ensuring they are flood-ready.

The below listed is Table 3 in the 2021 PPI: CRS Priority Messages

Topic Number	Topic message	Public Message (Select one message per topic)
TOPIC #1	Know your flood hazard	<ul style="list-style-type: none"> Know your flood risk Contact your floodplain manager to find out if your property is in a floodplain Check if your home or business is in a Special Flood Hazard Area
TOPIC #2	Insure your property for your flood hazard	<ul style="list-style-type: none"> Get flood insurance ahead of time Insure your property There is a 30-day waiting period for the policy to take place
TOPIC #3	Protect people from the flood hazard	<ul style="list-style-type: none"> Put your 3-day emergency kit together Follow evacuation orders Learn the best route to high ground
TOPIC #4	Protect your property from the flood hazard	<ul style="list-style-type: none"> Protect your home from flood threats Prepare your home Sandbags can offer protection against a foot or less of floodwater Get sandbags before a flood
TOPIC #5	Build responsibly	<ul style="list-style-type: none"> Build responsibly in floodplains Comply with development requirements Check with your city/county floodplain manager before you build
TOPIC #6	Protect natural floodplain functions	<ul style="list-style-type: none"> Keep creeks clean and flowing Keep debris and trash out of our streams Don't pollute, dump, or drain anything in creeks
Additional Outreach Topic Messages (only one message per topic)		
TOPIC #7	Develop an emergency plan	<ul style="list-style-type: none"> Develop an emergency plan
TOPIC #8	Download disaster apps	<ul style="list-style-type: none"> Download disaster emergency apps
TOPIC #9	Understand shallow flooding risks— don't drive through standing water	<ul style="list-style-type: none"> Understand shallow flooding risks - don't drive through standing water

The 2021 PPI Committee worked between the meetings to draft the 2021 PPI and review the extensive list of outreach and flood response projects (*Attachment 2*).

Based on the 2021 PPI Committee's evaluation of the 2015 PPI, the consensus was that most of the 2015 PPI flood risk reduction messages were still relevant, so only minor edits were incorporated as needed. This became the basis for the 2021 PPI; therefore, no additional FEMA review was required, as the 2015 PPI already ensured its provisions were fully compliant with FEMA requirements.

FEMA's ISO CRS Specialist and Technical Reviewers determine how many CRS points the 2021 PPI activities will earn. The PPI Committee estimates that of the possible 350 points for Activity 330, each CRS community could earn up to 300+/-points for PPI efforts.

**Santa Clara County 2021 Multi-Jurisdictional Program for Public Information
FY24 Annual Evaluation Report (Year 3: July 2023 to June 2024)**

Once Valley Water approved the 2021 PPI (5-Year Plan), the final document was provided to the 2021 PPI Committee to present to their governing bodies for adoption and implementation. *Table 1. Dates of 2021 PPI Adoption* shows each agency's 2021 PPI approval dates; all 11 CRS communities have adopted the 2021 PPI.

Table 1. Adoption Dates of the 2021 PPI

Community	Date Presented	Adopted
Santa Clara Valley Water District	4/27/21	X
City of Cupertino	8/17/21	X
City of Gilroy	7/01/21	X
City of Los Altos	7/13/21	X
Town of Los Altos Hills (*non-CRS community)	Not required	Not required
Town of Los Gatos (*non-CRS community)	Not required	Not required
City of Milpitas	5/18/21	X
City of Morgan Hill	6/16/21	X
City of Mountain View	6/22/21	X
City of Palo Alto	6/14/21	X
City of San Jose	11/16/21	X
City of Santa Clara	7/06/21	X
County of Santa Clara (*non-CRS community)	Not required	Not required
City of Saratoga (*non-CRS community)	Not required	Not required
City of Sunnyvale	6/29/21	X
Total Approved		11

**Non-CRS communities are encouraged to participate in the ongoing efforts and initiatives of the Santa Clara County CRS Users Group and/or PPI Committee; however, those who opted to participate in the 2021 PPI are not required to adopt the PPI or share annual evaluation reports with their governing bodies.*

III. ANNUAL EVALUATION REPORTS

The 2021 PPI states that the 2021 PPI Committee will meet at least once yearly to evaluate the PPI and incorporate any needed revisions. This meeting is coordinated in conjunction with the ongoing CRS User's Group meetings, which occur at least twice a year.

The evaluation will cover the following:

- Review of projects that were completed.
- Evaluate progress toward outcomes.
- Provide recommendations on projects that have not been completed.
- Provide recommendations for new projects not previously identified.
- Address any Target Audience changes; and
- Assess the program's impact during an actual flood event if one has occurred.

The 2021 PPI Committee prepares the annual evaluation report for submission with each CRS community's annual CRS recertification package (or scheduled 5-year cycle visits). The annual evaluation report is then shared with each CRS community governing body as an informational item.

Section V. 2024 Santa Clara County CRS Users Group/PPI Committee Meetings – Monitoring and Evaluating the 2021 PPI of this annual evaluation report summarizes the meetings held to develop the FY24 Annual Evaluation Report (Year 3 of the 2021 PPI).

**Santa Clara County 2021 Multi-Jurisdictional Program for Public Information
FY24 Annual Evaluation Report (Year 3: July 2023 to June 2024)**

Table 2 below shows how each community expects to share the FY24 Annual Evaluation Report with its governing body.

Table 2. How the 2021 PPI FY24 Annual Evaluation Report, Year 3 will be shared with the Community's Governing Body

Community	Method for Sharing
Santa Clara Valley Water District	Board Non-Agenda Item
City of Cupertino	Consent Item Council Agenda
City of Gilroy	Consent Calendar
City of Los Altos	Council Informational Staff Report
Town of Los Altos Hill (<i>*non-CRS community</i>)	Not required
Town of Los Gatos (<i>*non-CRS community</i>)	Not required
City of Milpitas	Memo to City Council
City of Morgan Hill	Council Consent Calendar
City of Mountain View	Council Weekly Update "Council Connection"
City of Palo Alto	Informational Staff Report
City of San Jose	Council Consent Calendar
City of Santa Clara	Council Consent Calendar
County of Santa Clara (<i>*non-CRS community</i>)	Not required
City of Saratoga (<i>*non-CRS community</i>)	Not required
City of Sunnyvale	City Manager's "Update Sunnyvale"

**Non-CRS communities are not required to share annual evaluation reports with their governing bodies.*

IV. 2021 PPI ACCOMPLISHMENTS FOR FY24

The 2021 PPI Committee identified three efforts needed from each CRS community to prepare and finalize subsequent annual evaluation reports.

1. Governing bodies must adopt the 2021 PPI (*Table 1. Adoption dates of the 2021 PPI*). The 2021 PPI Committee must prepare an annual evaluation report and share it with its governing body as informational items (Table 2. How the 2021 PPI Annual Evaluation Report for FY24, Year 3 will be shared with the *Community's Governing Body*).
2. For each fiscal year (*July 1 - June 30*), the communities must implement and monitor the outreach/flood response projects identified in Appendix A, CRS Creditable Outreach and Flood Response Projects by CRS Community of the 2021 PPI (*Attachment 2*).
3. The PPI Committee must review and consider the 'New Initiatives' identified in the 2021 PPI (*page 66*) for advancing flood risk reduction efforts.

Governing Bodies Approval: All 11 CRS communities' governing bodies, including Valley Water, adopted the 2021 PPI. Each agency (Community) shows the approval dates in Table 1 noted above.

Tracking System: The 2021 PPI is multi-jurisdictional and includes 15 agencies (*11 CRS communities and four non-CRS communities*). Tracking implementation is quite complex compared to a single-agency PPI. As the informal lead agency, Valley Water oversees the record-keeping to ensure consistency throughout the county. An electronic file-sharing system, Egnyte, is set up with folders for each community to file and share documents related to the 109 potential outreach/flood response projects identified in the 2021 PPI and all CRS-related documentation. This also includes a comprehensive spreadsheet tracking which lists outreach projects accomplished in any given fiscal year by each community (*Attachment 2*). This spreadsheet, along with the annual evaluation report, will be submitted with annual CRS recertifications or as part of scheduled 5-year cycle visits.

**Santa Clara County 2021 Multi-Jurisdictional Program for Public Information
FY24 Annual Evaluation Report (Year 3: July 2023 to June 2024)**

ISO assigns credit for Valley Water outreach/flood response projects to all Santa Clara County CRS communities' ratings. Some communities also choose to carry out and report on their own outreach/flood response projects, in addition to those of Valley Water. These projects are shown on the composite spreadsheet (*Attachment 2 - Appendix A from 2021 SC County Multi-Jurisdictional PPI noting FY24 Project Accomplishments*) and include input from each agency.

The PPI Committee discussed the benefits of using the Egnyte shared-filing system for tracking the 2021 PPI outreach/flood response projects and all CRS-related documentation. The PPI Committee also discussed the importance of ensuring each agency regularly uploads its CRS documentation. These benefits are:

- Information Share/Knowledge Transfer: CRS communities can view each other's program documentation. When a community improves its CRS rating, another community can access the documents submitted to determine how the CRS credited activities helped improve the score.
- Document Repository: A central location for CRS-related documentation, organized to mirror the CRS Coordinator's Manual (by community/activity/element), proves helpful when a community experiences staff turnover.
- Documentation Submittals: CRS documents are organized and easy to share with the CRS Specialists conducting cycle visits and/or annual recertification.

Summary of PPI Projects Accomplished in FY24

Attachment 2 of this annual evaluation report includes the complete list of outreach/flood response projects. It lists all projects proposed in the 2021 PPI, with a "Project Accomplishments" column noting actions taken during the third year, FY24 of the 2021 PPI.

Audiences	Projects Accomplished
Community at Large (CAL)	81 potential projects, 64 accomplished
Residents and Businesses in the Special Flood Hazard Area (SFHA)	18 potential projects, 16 accomplished
Messengers to Other Target Audiences (Organizations & Businesses Serving the Community)	10 potential projects, 10 were accomplished
*Total Accomplished Projects	
	90 of 109

* Note: All projects carried out by CRS communities were accomplished in FY24. Variance in the number of potential projects versus accomplished projects is due to no updates from non-CRS communities, which is not required for this annual evaluation report.

These numbers go well beyond the minimum requirements of the CRS program for PPI credit under Activity 330; we anticipate all CRS communities will receive the maximum number of credits for our collective efforts in FY24.

Valley Water's Outreach/Flood Response Projects

The 2021 PPI Committee identified the outreach/flood response projects for each community. The implementation of these projects is reflected in the 'FY24 (Year 3) of the 2021 PPI Project Accomplishments' column of Attachment 2.

FY24 Annual Flood Awareness Campaign

Valley Water's FY24 Flood Awareness Campaign (*Attachment 3 for more details*) theme was "Get Flood Ready. You Live In a Flood Zone." Valley Water's outreach employed digital geo-targeting technologies to reach businesses and residents in the flood zone. The campaign sought to drive awareness of flood risk, encourage residents to sign up for emergency alerts, and know where to find sandbags. Our materials emphasized our efforts to reduce the risk of flooding by working on capital improvement projects and showcasing our crews' work before, during, and after a storm emergency to keep the community safe from flooding. The overarching message was that we are ready and ask everyone to take steps to be flood-ready.

Santa Clara County 2021 Multi-Jurisdictional Program for Public Information FY24 Annual Evaluation Report (Year 3: July 2023 to June 2024)

CRS Communities Outreach/Flood Response Projects

Other Community Engagement Efforts

October officially kicked off the flood season. CRS staff regularly met with the California Department of Water Resources and state-wide partner agencies (communities and local, state, and federal agencies) to discuss the flood season, including sharing information about flood risk and how to prepare, and the 12th Annual California Flood Preparedness Week (CFPW). On September 26, 2023, Valley Water's Board passed a resolution declaring October 21-28, 2023, as CFPW in Santa Clara County. Valley Water set-up a "Get Flood Ready" display in our Headquarters' lobby. The resolution and display encourage residents and businesses to "Get Flood Ready" by preparing for the flood season.

Valley Water CRS staff provided materials for the Office of Communications' Flood Preparedness 2023 Press Conference held on October 25, 2023 (<https://www.youtube.com/watch?v=g5CbaVSWluw>). The Flood Preparedness Press Conference marked the launch of Valley Water's 2023 flood campaign and coincided with California Flood Preparedness Week (CFPW).

Valley Water, the County of Santa Clara, and the City of San Jose are preparing for a strong El Niño and the possibility of extreme winter storms. Watch the news conference to learn about the National Weather Service's winter outlook forecast and an outline of our joint flood emergency preparedness efforts.

Valley Water CEO, staff, and then Chair John Varela, Valley Water Board of Directors; Brian Garcia, Warning Coordination Meteorologist, National Weather Service SF Bay Area/Monterey; Supervisor Sylvia Arenas, Santa Clara County Board of Supervisors, District 1, and Councilmember Domingo Candelas, San Jose City Council, District 8 were in attendance.

The event was live-streamed on Valley Water's Facebook page. Valley Water staff showcased our Stream Maintenance Program heavy equipment and set up a sandbagging demo booth and an emergency kit table similar to the one displayed in Valley Water's headquarters lobby at the onset of CFPW and remains throughout the flood season.

"Get Flood Ready" HQ lobby table display with sample contents encouraging visitors and staff to create a three-day emergency kit.

In November 2023, Valley Water presented and hosted a booth on flood preparedness at the Community Emergency Response Team (CERT) City of San José District 5 Emergency Preparedness Event at the Mayfair Community Center in San José. Attendees included the San José Fire Department, the American Red Cross, the San José Neighborhood Watch Program, CERT volunteers, and members of the public.

**Santa Clara County 2021 Multi-Jurisdictional Program for Public Information
FY24 Annual Evaluation Report (Year 3: July 2023 to June 2024)**

In November, Valley Water, along with other emergency preparedness organizations, presented flood preparedness tips at the Mayfair Community Center in San José.

In December 2023, the Organization for Latino Affairs (OLA) provided Valley Water's emergency starter kits, English and Spanish flood preparedness information, and giveaways to approximately 500 attendees at the Santa Visits Alviso Foundation event in San José.

In February 2024, Valley Water partnered with Sacred Heart Community Service to provide free emergency starter kits and multilingual educational materials to distribute at events to help residents "Get Flood Ready!" In addition, Valley Water hosted a booth with "Get Flood Ready!" materials at the Silicon Valley Bicycle Coalition's King Tide Ride Event 2024 held on February 10, 2024, at Riverwalk Park in San Jose.

Valley Water provides "Get Flood Ready!" materials and tips at Silicon Valley Bicycle Coalition's King Tide Ride event in the Alviso community in north San José.

In April 2024, Valley Water participated in two emergency preparedness events to share the "Get Flood Ready" message. Staff hosted a booth at the Eggstravaganza Family Event organized by the Strong Neighborhood Initiative Program Mayfair Neighborhood Advisory Council in San Jose, which had more than 350 attendees. Valley

Santa Clara County 2021 Multi-Jurisdictional Program for Public Information FY24 Annual Evaluation Report (Year 3: July 2023 to June 2024)

Water also participated in an educational workshop with 40 attendees at The Links, Incorporated “Emergency Preparedness: Safety Now, Peace Later” event at the African American Community Service Agency in San Jose.

Valley Water provided flood-preparedness materials at the Eggstravaganza Family Event in San Jose.

Valley Water Education Outreach Program

Valley Water’s Education Outreach includes flood awareness messaging in year-round classroom lessons. A dedicated flood-focused lesson is offered from October through April. Valley Water’s role as a flood protection agency is introduced in all lessons so that participants in Education Outreach programs know that flood protection is one of Valley Water’s core objectives in Santa Clara County.

The following are the Education Outreach efforts from October 2023 – April 2024.

Flood-Focused Programs

Education Outreach offers two lessons focused on flood awareness and preparedness: The Three Little Pigs and the Bad Weather Wolf for transitional kindergarten through second grade, and Watershed Maps for second and third grades.

The results of the Flood-Focused Programs delivered are as follows:

- 82 lessons
- 2,142 students
- 82 educators

Flood Awareness Messaging

In addition to Flood-Focused Programs, Education Outreach provided additional flood awareness messaging in general classroom presentations, assemblies, libraries, and public events.

The results of the general flood protection messaging are as follows:

- 241 events
- 8,021 students
- 343 educators
- 2,211 members of the public in Santa Clara County

**Santa Clara County 2021 Multi-Jurisdictional Program for Public Information
FY24 Annual Evaluation Report (Year 3: July 2023 to June 2024)**

Community Events and Engagement

Booth Support at Events

Valley Water staff made a concerted effort to actively participate in community events, including community festivals and emergency preparedness affairs, particularly in communities and neighborhoods in or near flood zones. In FY24 (from September 2023 – May 2024), Valley Water and the communities' staff hosted 25 booths and distributed flood preparedness information on flood safety and emergency preparedness materials, including Valley Water's annual FPM. Those events are listed below:

- 1) 2023 Santos Family 17th Annual Car Show, Alviso, CA – 9/2/23
- 2) Silicon Valley Fall Festival (Day n Night Festival), Cupertino, CA – 9/9/23
- 3) Mountain View Art & Wine Festival – 9/9 – 9/10/23
- 4) Viva Calle, San Jose, CA – 9/10/23
- 5) Picnic by the Lake Multicultural Festival and Resource Fair, San Jose, CA – 9/20/23
- 6) County Parks La Fuente Celebration, San Jose, CA – 9/23/23
- 7) Children's Moon Festival. San Jose, CA – 9/30/23
- 8) Assembly Member Ash Kalra's Veggie Fest, San Jose, CA – 10/7/23
- 9) Supervisor Lee's Day on the Bay, Alviso, CA – 10/14/23
- 10) Bay Area Diwali Festival of Lights, Cupertino, CA – 10/14/23
- 11) Pumpkins in the Park, San Jose, CA – 10/14/3
- 12) Shoreline 40th Anniversary Event, Mountain View, CA – 10/15/23
- 13) Teatro Vision Dia de Los Muertos Matinee, San Jose, CA – 10/20/23
- 14) South Asian Cultural Association of Sunnyvale's Diwali Festival – 10/21/23
- 15) Morgan Hill Kidz Fest and Safe Trick or Treat – 10/28/23
- 16) City of Morgan Hill Fourth Saturday Downtown Event – 10/28/23
- 17) D8 Family Fall Festival, San Jose, CA – 10/28/23
- 18) Santa Visits Alviso – 12/9/23
- 19) Vietnamese American Roundtable Lunar New Year, San Jose, CA – 2/3/24
- 20) VMC Foundation Women's Leadership & Policy Summit, San Jose, CA – 3/23/24
- 21) AAUW Wildflower Run, Morgan Hill, CA – 3/24/24
- 22) Cupertino Earth and Arbor Day Festival – 4/20/24
- 23) Emergency Preparedness Workshop, San Jose, CA – 4/27/24
- 24) Tech Interactive Tech Challenge, San Jose, CA – 4/28/24
- 25) Berryessa Art Festival, San Jose, CA – 5/11/24

Speakers Bureau Program

In FY24, [Valley Water's 'Let's Talk Water Speakers Bureau Program'](#) reached the 22 organizations listed below. All general presentations mention flood protection and the need to 'Get Flood Ready' regardless of the county's drought status. They also include links to Valley Water's 'Flood Ready' information and resources webpage (ValleyWater.org/floodready), the hotline to call to report obstructions in creeks, and flood preparedness collateral available for all in-person events.

Valley Water's Speakers Bureau Program can customize presentations to update community groups on water-specific issues and provide updates on projects in their area. The FY24 presentations that included flood preparedness information are listed below.

- 1) June 2, 2023 – Rotary Club of Saratoga luncheon (FY23)
- 2) June 12, 2023 – Almaden Valley Community Association meeting (FY23)
- 3) June 22, 2023 – Gilroy Sons in Retirement meeting (FY23)
- 4) July 11, 2023 – Morgan Hill Kiwanis Club meeting
- 5) July 19, 2023 – Rotary Club of Morgan Hill meeting
- 6) July 25, 2023 – After Hours Rotary Club of Gilroy meeting
- 7) August 3, 2023 – Evergreen Community Roundtable
- 8) October 4, 2023 – Almaden Senior Association meeting

**Santa Clara County 2021 Multi-Jurisdictional Program for Public Information
FY24 Annual Evaluation Report (Year 3: July 2023 to June 2024)**

- 9) November 16, 2023 – San Jose Sons in Retirement meeting
- 10) November 29, 2023 – Rocketship School Parents meeting
- 11) December 1, 2023 – Leadership Sunnyvale meeting
- 12) December 7, 2023 – Palo Alto Kiwanis Club meeting
- 13) January 8, 2024 – Berryessa Citizen Advisory Committee
- 14) January 26, 2024 – Valley Water Next Gen Career Pathways
- 15) February 4, 2024 – Unitarian Fellowship of Los Gatos
- 16) February 9, 2024 – The Forum
- 17) February 28, 2024 – Lions Club of Willow Glenn meeting
- 18) March 4, 2024 – Leadership Morgan Hill meeting
- 19) March 12, 2024 – Oak Grove Neighborhood Association meeting
- 20) March 19, 2024 – Santa Clara City Libraries
- 21) April 4, 2024 – Valley Water 101 Academy
- 22) April 18, 2024 – Kaiser Permanente Physicians

V. 2024 SANTA CLARA COUNTY CRS USERS GROUP/PPI COMMITTEE MEETINGS – MONITORING AND EVALUATING THE 2021 PPI

The FY24 Santa Clara County CRS Users Group/PPI Committee meetings were held on March 26, 2024 and May 29, 2024. Attendance by CRS communities was high. Staff from some non-CRS communities, external stakeholders, and other interested parties were also in attendance. Agendas, meeting notes, and attendance sheets for each meeting are included (*Attachments 4-8*).

As required by CRS, the objective of the March and May 2024 meetings was to monitor the implementation of the 2021 PPI, determine if the desired outcomes were achieved, and discuss whether any changes to the 2021 PPI were needed to complete this annual evaluation report. The PPI Committee agreed that the 2021 PPI messaging and projects would remain the same for the duration of the 2021 PPI, which sunsets in 2026.

VI. FUTURE MESSAGING – Other New Initiatives

The PPI Committee identified several opportunities to expand on existing initiatives and initiate new ones as follows:

1. Continue and expand the standardized flood message prepared for each community to include flood messages in utility bills yearly, including PG&E.
2. Expand on partnerships with local chambers of commerce to disseminate and share flood preparedness information.
3. Expand on outreach to the Asian and Latino communities who live in flood-prone areas.
4. Expand on outreach to 'hot spots'/flood-prone areas by hosting on-site or virtual public events.
5. Expand the reach to local homeowners' associations (HOA)s and apartment associations (*i.e., Executive Council of Homeowners [ECHO]*).
6. Expand the reach to residents in historically underserved and low-income communities through partnerships with organizations that serve these communities (*i.e., Second Harvest Food Bank and others*).
7. Communities could pursue FEMA Matching Funds Grants for severe Repetitive Loss Areas.
8. Review and expand other public information activities, such as Flood Protection Assistance (Activity 360) and Flood Insurance Promotion (Activity 370).
9. Develop a region-wide Flood Response Preparations (FRP) messaging plan.

The messages the PPI Committee originally chose are still relevant to Santa Clara County. The committee will continue to increase its efforts to encourage people to prepare personal/family emergency plans and be flood-ready. This will be incorporated into the flood preparedness outreach starting every fall. The PPI Committee will also continue coordinating efforts with Valley Water's Education Outreach Program to promote flood preparedness in local schools.

The PPI Committee recommends continued use of social media for messaging. Mobile usage among individuals has increased exponentially over the years, and online platforms are rapidly adjusting to mobile-friendly

**Santa Clara County 2021 Multi-Jurisdictional Program for Public Information
FY24 Annual Evaluation Report (Year 3: July 2023 to June 2024)**

standards. This provides an excellent opportunity to modernize campaign ad efforts by utilizing social media and digital advertising to increase exposure and reach more residents in Santa Clara County. Furthermore, these modern advertising methods allow for specialized demographic targeting to reach a narrow and defined audience, improving the ability to reach vulnerable populations effectively.

In support of our preparedness messaging, the PPI Committee will continue to promote the importance of having family emergency plans and kits ready before an emergency/flood event occurs.

The PPI Committee will continue to promote the American Red Cross All-Hazard App, which monitors alerts for severe weather, including floods, and the Floodsmart.gov and Ready.gov websites. The communities will distribute American Red Cross Emergency Contact Cards at events throughout the county.

VII. CONCLUSION

Overall, the CRS Users Group/PPI Committee successfully implemented the 2021 PPI in FY24. The 2021 PPI allowed PPI Committee members to mutually decide which flood risk reduction messages are most appropriate for our residents and identify how to deliver these messages effectively. Participating in the 2021 PPI aims to enhance the effectiveness of the flood risk messages to residents, reduce flood risks within Santa Clara County, and earn valuable CRS credit points when identified outreach projects are implemented.

The CRS Users Group/PPI Committee will continue its outreach efforts through FY25.

Cupertino distributes copies of Valley Water’s Flood Safety Tips at various fairs/events (i.e., Earth Day Festival) and provides additional copies for the public on display at City Hall. Cupertino also has a direct link to Valley Water’s annual mailer and Flood Ready webpage on the City’s “Floodplain Management” webpage.

Los Altos distributes brochures available at City Hall, library, and community center. They are also distributed at community events (emergency training, wine stroll, etc.).

Morgan Hill hosted ‘National Night Out’ on August 1, 2023. Flood preparedness information (Valley Water floodplain mailer, red ‘Get Flood Ready’ which includes an emergency supply list, tote bags, etc.) were distributed and general Flood Facts were posted for the public’s information. Morgan Hill also held other events (Leadership Morgan Hill in February 2023 and Public Works Week in May 2023) where flood prepared information was shared. Valley Water’s flood safety brochures were also available at City Hall.

Mountain View promotes and distributes Valley Water’s Flood Safety Tips and emergency kits at fairs (i.e., Earth Day Celebration, Community Summer Kick-Off Event). Valley Water’s flood safety brochures are available at city hall.

Palo Alto promotes and distributes Valley Water’s Flood Safety Tip and emergency kits at fairs (i.e., Earth Day Festival) and provides as an informational item on Utility Inserts sent every year. Valley Water’s flood safety brochures are available at city hall.

The City of Santa Clara has hard copy brochures available at city hall and central library. They are distributed at the yearly art & wine festivals as well.

	Topics 1-9 and supporting messages Flood Awareness Media Campaign, including social media	Educate our community on flood protection and preparedness measures	(VW OP #39) Conducts a flood awareness media campaign, reaching the community at large, including our multilingual community. Many of the Santa Clara County CRS Communities recognize Valley Water's Flood Awareness Campaign and link it on their community's flood information web page and redirect to Valley Water's Flood Ready webpage (Topics 1-9) <i>Campaign features social media videos and postings on various platforms (i.e., Facebook, Twitter, Instagram, Nextdoor, etc.), digital banners, newspaper advertorials, radio ads, billboards, utility bill inserts for communities to use, communities redirect to ValleyWater.org/FloodReady and television/mobile ads targeting residents who live in flood-prone areas and multilingual ethnic communities</i>	Valley Water Communications	Annually, for the duration of the rainy season, typically from November to April	All Santa Clara County CRS Communities	Valley Water's FY24 Flood Awareness Campaign theme was "Get Flood Ready. You Live in a Flood Zone." Valley Water's outreach employed digital geo-targeting technologies to reach businesses and residents in the flood zone. The campaign sought to drive awareness of flood risk, encourage residents to sign up for emergency alerts, and know where to find sandbags. Our materials emphasized our efforts to reduce the risk of flooding by working on capital improvement projects and showcasing our crews' work before, during, and after a storm emergency to keep the community safe from flooding. The overarching message was that we are ready and ask everyone to take steps to be flood-ready. An educational paid advertising campaign supplemented Valley Water's community outreach effort. Polling results from the prior winter campaign supported the advertising campaign, helping to understand target audiences and their awareness levels and explore what educational messages and images most appealed to them.

All Santa Clara communities support and promote Valley Water's outreach projects.

(VW OP #101) Participates in booth duty support at various events and fairs throughout the county, including Valley Water Capital project meetings or other events, as requested by various organizations

Valley Water Office of Government Relations

Annually. During the flood season (starting in September – May)

All Santa Clara County CRS Communities

Valley Water staff made a concerted effort to actively participate in community events, including community festivals and emergency preparedness affairs, particularly in communities and neighborhoods in or near flood zones. In FY24 (from September 2023 – May 2024), Valley Water and the communities' staff hosted 25 booths and distributed flood preparedness information on flood safety and emergency preparedness materials, including Valley Water's annual FPM. Those events are listed below:

							attendees at the Santa Visits Alviso Foundation event in San José. The Santa Clara County CRS Group/PPI Committee, included the 'Other New Initiatives' topic for discussion at both the March 26, 2024 and May 29, 2024 meetings. See Section V. SC County CRS Users Group/PPIM Committee Meetings - Monitoring and Evaluating the 2021 PPI in the FY24 Annual Evaluation Report for details regarding the review/discussion of the nine other new initiatives. 3/26/24 Meeting, Item #6: Review 2021 PPI "Other New Initiatives" discussion was as follows: Focus on two PPI New Initiatives: Initiative #2: Expand partnerships with the local chamber of commerce to disseminate and share flood preparedness information. <ul style="list-style-type: none"> ■ Approach the Silicon Valley Chamber of Commerce and identify opportunities for partnerships. We need to be able to reach residents and businesses. ■ Morgan Hill— Chamber of Commerce/Downtown Association. Economic Development staff can support the distribution of information. <ul style="list-style-type: none"> · Outreach timing – End of Summer 2024. Action Item: Identify each city's chamber of commerce or equivalent and find ways to share information via websites, blogs, and newsletters. Who in each organization can help establish a connection with the chamber of commerce and downtown associations?
			(ALL OP #103) Other New Initiatives <i>(as noted in the PPI document)</i> 1. Continue and expand the standardized flood message prepared for each community to include flood messages in utility bills each year, including PG&E. 2. Expand on partnerships with local chambers of commerce to disseminate and share flood preparedness information. 3. Expand on outreach to the Asian and Latino communities who live in flood prone areas. 4. Expand on outreach to "hot spot" flood prone areas by hosting on-site or virtual events. 5. Expand on reaching local homeowners associations (HOA)s and apartment associations (i.e. Executive Council of Homeowners [ECHO]) 6. Expand on reaching residents in marginal and low-income communities through partnering with organizations that reach these communities. (i.e. Second Harvest Food Bank and others) 7. Communities could pursue FEMA Matching Funds Grants for severe Repetitive Loss Areas. 8. Review and expand other public information activities, such as Flood Protection Assistance (Activity 360) and Flood Insurance Promotion (Activity 370). 9. Develop a region-wide Flood Response Preparations (FRP) messaging plan.	All	TBD	TBD

Initiative #4: Expand on outreach to "hot spot" flood-prone areas by hosting on-site or virtual events.

- Valley Water has hotspot data; cities may maintain different hotspot data depending on need (e.g., trash hot spots).
- Valley Water has floodplain flood data; it's been provided to cities.
- Identify high-risk areas (e.g., libraries, parks, stores, etc.) to provide flood preparedness information.
- Valley Water maintains GIS layers with hotspot information.

We have flexibility with this initiative; we can get creative on addressing it.

Questions:

- What do we mean by "hot spot"? Is it a real event or a modeling hotspot?
- Valley Water has modeling results for design flows with hot spot GIS layers. The GIS layer is based on historical observations of repeated flooding.
- Valley Water has recently installed cameras to assist with flood monitoring.
 - <https://alert.valleywater.org/map?p=map>
- Valley Water and cities might have different hot spot information based on what they manage (e.g., storm drains)

5/29/24 Meeting, **Item #2: Review of the Meeting Goals and Agenda** discussion was as follows:

Santa Clara Valley Water District FY24 Flood Awareness Campaign

Valley Water's FY24 Flood Awareness Campaign theme was "Get Flood Ready. You Live in a Flood Zone." Valley Water's outreach employed digital geo-targeting technologies to reach businesses and residents in the flood zone. The campaign sought to drive awareness of flood risk, encourage residents to sign up for emergency alerts, and know where to find sandbags. Our materials emphasized our efforts to reduce the risk of flooding by working on capital improvement projects and showcasing our crews' work before, during, and after a storm emergency to keep the community safe from flooding. The overarching message was that we are ready and ask everyone to take steps to be flood-ready.

An educational paid advertising campaign supplemented Valley Water's community outreach effort. Polling results from the prior winter campaign supported the advertising campaign, helping to understand target audiences and their awareness levels and explore what educational messages and images most appealed to them.

The Flood Awareness Campaign lasted six months, from October 2023 to March 2024, and cost \$336,000. Valley Water's FY24 Annual Flood Awareness Campaign cemented the shift to a digital geo-targeted campaign supplemented by four direct multilingual mailings to approximately 49,806 homes and businesses in or near a high-risk flood area, as designated by the FEMA Special Flood Hazard Area (SFHA).

Targeted Mailings

1. FLOOD CAMPAIGN ANNUAL FLOODPLAIN MAILER

Annual Floodplain Mailer (FPM) - Valley Water's multi-language (English, Spanish, Chinese, and Vietnamese) annual FPM 'Get Flood Ready. You Live in a Flood Zone. Know your flood risk. Sign up for alerts. Get Sandbags' was mailed in December 2023.

<https://online.flipbuilder.com/tkap/qkwt/>

The FPM featured QR codes, a magnet with important flood safety websites, a detachable emergency phone list, photos of our most recent flood protection projects, a slideshow of our storm management efforts, which include operating an EOC, filling sandbags, monitoring stream levels, and removing blockages, A QR code led to a video showcasing our stream maintenance work to prevent flooding.

<https://youtu.be/XCEixz0JzFQ?si=X7llwwnCSJolLdkp>

2. FLOOD CAMPAIGN POSTCARD MAILER

'Get Flood Ready. You Live in a Flood Zone' multilingual postcards that included the nine CRS topics and supporting messages, and links to various flood readiness/preparedness webpages, were produced and distributed to 49,806 properties in the FEMA SFHA in October 2023.

[Download postcard](#)

3. FLOOD CAMPAIGN TRI-FOLD BROCHURE

Trifold 'You Live in a Flood Zone– Get Flood Ready. Do You Know What to Do Before, During, and After a Flood?' was mailed in January 2024.

<https://s3.us-west-1.amazonaws.com/valleywater.org.us-west-1/s3fs-public/2023%20flood%20mailier.pdf>

4. COUNTYWIDE MAILER

Valley Water's Countywide Mailer (CWM) 'Flooding can happen. Anytime. Anywhere. Get Flood Ready' was mailed countywide from November 17 through December 5, 2023, to 755,210 addresses. The CWM included an

update on Valley Water's flood protection projects, stream maintenance, and storm preparation efforts. The mailer also included a multilingual section outlining the 9 CRS flood tips: know your flood risk, get flood insurance ahead of time, develop an emergency plan and kit, protect your home from flood threats, keep creeks clean and flowing, sign up for emergency alerts (AlertSCC and the American Red Cross Disaster Emergency App), build responsibly in floodplains, and avoid floodwaters - understanding shallow flooding: Turn Around Don't Drown®.

All cities and the County were requested to add a link redirecting site visitors from their respective flood protection resource pages and homepage to ValleyWater.org/floodready, Floodsmart.gov, and Ready.gov.

Partner Toolkit

In mid-October 2023, Valley Water's 2023-2024 Flood Awareness Outreach Partner Social Media Toolkit, 'Get Flood Ready', was available for download to all partnering agencies, including CRS communities. The toolkit provided digital and social media banners and animations featuring the campaign's calls to action: Get flood ready, know your risk, sign up for emergency alerts, and find sandbags. The toolkit included multilingual graphics showcasing the 9 CRS tips and offered the opportunity to request co-branded bill inserts and banners.

Partnerships and Media

On October 26, 2023, Valley Water, the County of Santa Clara, and the City of San Jose held a news conference at a recently completed stream maintenance site to inform the community about preparedness for the possibility of extreme winter storms. The news conference included an update from the National Weather Service and an interactive display on proper sandbagging techniques. <https://youtu.be/g5CbaVSWluw?si=XH54H-Fg8fgUBemn>

On November 14, 2023, a joint news conference involving Valley Water leaders and the City of San Jose was held at the Coyote Creek Flood Protection Measurements Project site. Valley Water CEO Rick Callender attended the event and was joined by Valley Water Board Director Richard Santos, San Jose Mayor Matt Mahan, and Assistant City Manager Lee Wilcox to brief the public and the media on winter storm preparations.

New Technologies and Animations

In November 2023, Valley Water created an animation explaining the use of our stream gauge portal. The animation outlines how users can see live updates on the stream levels in the County. Our newsletter shared the animation and sent it to 61,000 email addresses and social media channels.

<https://youtu.be/XCEixz0JzFQ?si=X7llwwnCSJolLdkp>

The FY23-24 campaign also featured geotargeted digital alerts sent to the IP addresses of homes in areas prone to flooding (hot spots). The alerts were deployed with National Weather Service alerts, and residents were encouraged to sign up for emergency alerts.

Leveraging Community Channels

Valley Water also used its monthly newsletter, news blog, and social media profiles to enhance flood awareness efforts before and during forecasted storms starting as early as September 2023. During the length of the campaign and leading up to anticipated storm events, Valley Water posted flash flood warnings, shared posts with critical messages about flood safety, and promoted the Flood Watch Tool throughout the winter.

Additionally, the Valley Water Board of Directors shared posts on Nextdoor highlighting the 'Get Flood Ready' messaging and the nine CRS topics throughout winter 2023-24. Valley Water also posted a flood preparedness blog, a digital copy of the FPM, and a guide on what to do before, during, and after a flood.

Valley Water's flood protection resources page at ValleyWater.org/floodready acted as a hub of flood safety information, with icons leading to a series of related web pages. The page includes information on flood zone maps, signing up for emergency alerts, sandbags, reporting local flooding, and safety tips.

Organic Social Media

Valley Water also deployed a small-scale multilingual social media campaign with the slogan "Get Flood Ready" on social media and web platforms. The campaign launched in winter 2023, starting with the season's first rains, and continued through March 2024.

A key strategy for the paid flood awareness campaign was incorporating the 2021 Program for Public Information (PPI) 6 priority topics and the three additional outreach topics, including messages supporting the nine topics, in Valley Water ads. Staff crafted messages derived from Valley Water's annual FPM to residents in the SFHA.

The campaign achieved the following social media metrics with a modest spend:

Post Name	Boost Date	Platform	Timeframe	Audience	Campaign	Engagements	Link Clicks	Spend
Know flood risk	10/4/2023	Facebook	10/4/2023-11/4/2023	61,539		1,656	932	\$1,000.00

Healthy, flowing creeks reduce flood risks by carrying stormwaters away from properties and roads. Don't pollute, dump, or drain anything in creeks. Dumping into a stream is illegal; it affects the water quality and creek habitat. It can also cause blockages, increasing flood risks.

- Report blockages like wood or debris dumping in creeks to the Valley Water Watersheds Operations & Maintenance hotline at 408-630-2378.
- Report pollution in a creek, pond, or reservoir, call 1-888-510-5151. You can also report these issues through Access Valley Water.

This is an important flood tip reminder! Your local government requires special permits for construction within Special Flood Hazard Area (SFHA) zones.

Property owners can also make physical alterations to buildings, such as elevating a structure, to reduce flood risks and insurance premiums. Before you build or begin upgrades to your property, check with your local floodplain manager to ensure compliance with special requirements.

Visit valleywater.org/floodready for a list of Santa Clara County floodplain managers.

Build responsibly in floodplains.

Does your insurance policy cover flood damage?

If you own property, whether inside or outside of the FEMA-designated SFHA, you should consider purchasing flood insurance for the protection and peace of mind it brings. Even if you already have a policy, most property owners' and renters' insurance policies don't cover damage from natural disasters such as floods.

Typically, there's a 30-day waiting period from the date of purchase until your flood insurance policy goes into effect. So now is the perfect time to ensure your policy is up to date.

Visit valleywater.org/floodready to learn more.

Public space banners and lobby display

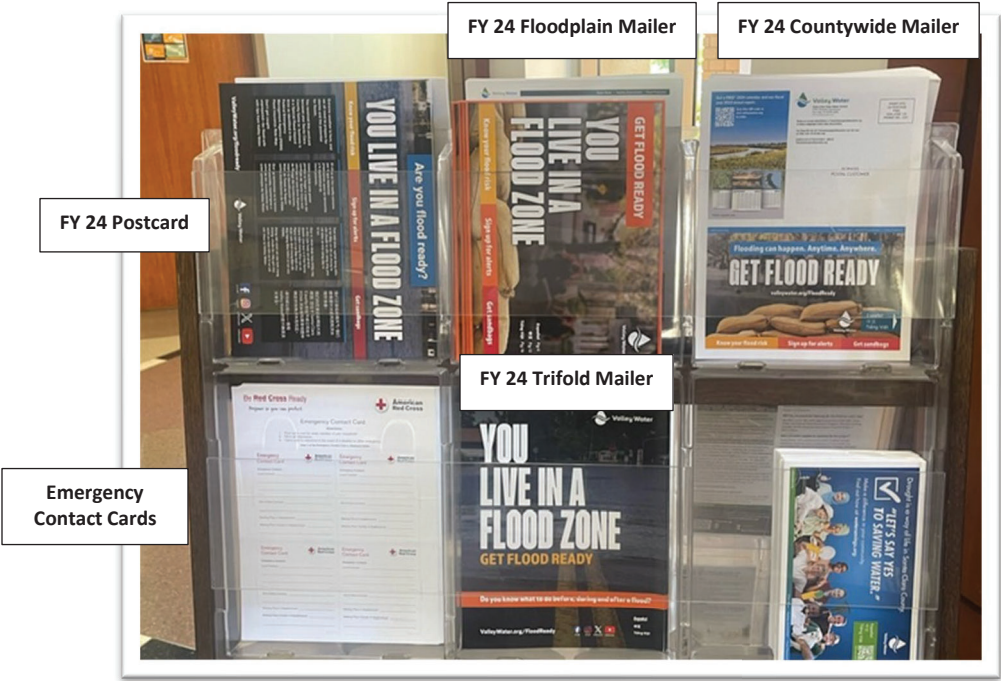

Valley Water also hung 'Get Flood Ready' banners in 10 areas identified as flooding hot spots. The banners included our calls to action and a QR code leading to our ValleyWater.org/floodready page. A display featuring the contents of an emergency kit was placed at a prominent location in Valley Water's headquarters. Readiness materials were made available.

Get Flood Ready banners placed throughout the County in Valley Water hotspot areas.

Valley Water 2023-24 Flood Media Campaign

The main objective of the 2023-24 Flood Awareness Campaign was to alert the public in Santa Clara County of

the area's ongoing flood risks. Valley Water used geo-mapping data to target residents in areas at high risk of flooding, demographically targeting ads in the four most prominent languages in Santa Clara County (*English, Spanish, Chinese, and Vietnamese*).

The digital outreach campaign featured three engaging multilingual animations encouraging residents to get flood-ready by knowing their risk, signing up for emergency alerts, and finding sandbags. Platforms used included Google and Meta and digital banners on multilingual community newspaper sites. Our website and social media platforms were also branded with the Get Flood Ready theme for the campaign's duration.

The campaign spent \$107,778 overall. The campaign served over 20 million impressions and sent over 2.9 million people to the landing pages to learn more about their flood risks and options to prevent danger in their neighborhood.

The Media Buy:

SPEND	English	Spanish	Chinese	Vietnamese	Overall
Meta	\$15,860	\$7,138	\$7,193	\$7,188	\$37,379

The Ads

2023-24 Flood Awareness Campaign Results

Probolsky Research conducted A post-Flood Awareness Campaign survey of 400 residents in the FEMA Special Flood Hazard Area between March 7 and 14, 2024. Results indicated a 15.3% increase in outreach mailing recollection versus 2023 and a 21% increase in flood preparation. The number of residents who think Valley Water is doing an excellent or good job of informing Valley Water on what to do when flooding occurs increased by 10% versus 2023 and now sits at 54%.

The post-2024 Flood Awareness Campaign survey found:

- 54% remember receiving mail with information about flood safety in the past year (39% in 2022-23).
- 82% are confident they have taken all necessary measures to protect themselves from flooding impacts (64% in 2022-23).
- 54% say Valley Water does an excellent/good job keeping residents informed about what to do when flooding occurs (43% in 2022-23).
 - Among those who said excellent/good
 - 76% said good, 24% said excellent.
- 53% say their home is located in a flood zone or at risk of flooding area (48% in 2022-23).
- 45% of respondents have flood insurance (39% in 2022-23).
 - 24% of renters polled have flood insurance (15% in 2022-23)
- 64% do not have flood insurance because they don't think they need it.
- 72% say their home is prepared for a flood.
 - Among those who said they are confident, 57% are very confident.
- 85% have never experienced flooding in their home.
- 47% are most likely to notice and remember social media ads.

Based on the findings, we will continue with targeted mailings to the FEMA SFHA as our outreach strategy for the flood awareness campaign and targeted advertising.

Agenda Meeting**Santa Clara County CRS Users Group & Program for Public Information (PPI) Committee Meeting**

March 26, 2024 | 2:30 PM – 4:30 PM

Join Zoom Meeting<https://valleywater.zoom.us/j/86013495419>

Meeting ID: 860 1349 5419 | +1 669 900 9128 US (San Jose)

Purpose: PPI Stakeholder Committee Annual Evaluation Meeting per Activity 330, Outreach Project, Element 332.c. Program for Public Information, Step 7 requirement (*page 2*)

Outcome: Complete development of the 2021 Multi-Jurisdictional Program for Public Information (PPI) Annual Report for FY24 (*Year 3: July 2023 to June 2024*)

Item	Meeting Topic	Presenter	Time
1.	Introductions	Amy Fonseca	10 min
2.	Review of the meeting goals and agenda	Amy Fonseca	2 min
3.	Annual review of CRS Communities Roster (Google Link)	Amy Fonseca	2 min
4.	Valley Water CRS Program updates	Amy Fonseca	5 min
5.	Floodplain Management Plan (FMP) update	Amy Fonseca Melissa Mitchell Tetra Tech	15 min
6.	Review 2021 PPI 'Other New Initiatives'	Amy Fonseca	20 min
7.	2021 Multi-Jurisdictional Program for Public Information (PPI) Annual Evaluation Report Complete development of the Annual Evaluation Report for FY24 (<i>Year 3: July 2023 to June 2024</i>) <ul style="list-style-type: none"> Reference the Activity 330 Outreach Project sheets <i>located here</i> https://fta.valleywater.org/fl/1a2Jh3wyoO as a starting point to update Appendix A from 2021 SC County Multi-Jurisdictional PPI Update the FY24 Project Accomplishments column for your community Google Link NOTE: Update <u>Input Here Only</u> column; Do Not edit anything else Communities' updates are due by next CRS Users Group/PPI Meeting or no later than May 31, 2024 	Amy Fonseca	45 min
8.	Activity 350 – Flood Protection Information, c. flood protection website (WEB) (<i>page 350-7</i>) The community must: 1) The community must check the website's links at least monthly , and fix those that are no longer accurate. 2) At least annually , the community must review the content to ensure that it is still current and pertinent (e.g., make sure names, addresses, phone numbers, and other contact information are still correct; update any ordinance changes; etc.).	Amy Fonseca	2 min
9.	Next meeting – Joint CRS Users Group/Program for Public Information (PPI) Committee meeting <ul style="list-style-type: none"> Complete the development of the 2021 PPI Annual Report Year 3 (FY 2024) 	Amy Fonseca	2 min
10.	Adjourn		

“Step 7: Implement, monitor, and evaluate the program. The Program for Public Information committee meets at least annually to monitor the implementation of the outreach projects. The committee assesses whether the desired outcomes were achieved and what, if anything, should be changed. This work is described in an evaluation report that is prepared each year, sent to the governing body, and included in the annual recertification.”

The community must update its Program for Public Information at least every five years. This can be a new document or an addendum to the existing document that updates the needs assessment and all sections that should be changed based on evaluations of the projects.

The Program for Public Information update will be reviewed for CRS credit according to the *Coordinator's Manual* currently in effect, not the version used when the community originally requested this credit. The update can qualify as the annual evaluation report for the year it was prepared. The updated Program for Public Information must be adopted following the same process as adoption of the original document.”

AGENDA ITEM NO. 6 [Excerpt from page 66 from 2021 PPI]

Other New Initiatives

The PPI committee identified a number of new initiatives:

1. Continue and expand the standardized flood message prepared for each community to include flood messages in utility bills each year, including PG&E.
2. Expand on partnerships with local chambers of commerce to disseminate and share flood preparedness information.
3. Expand on outreach to the Asian and Latino communities who live in flood prone areas.
4. Expand on outreach to “hot spot” flood prone areas by hosting on-site or virtual events.
5. Expand on reaching local homeowners associations (HOA)s and apartment associations
(i.e. Executive Council of Homeowners [ECHO])
6. Expand on reaching residents in marginal and low-income communities through partnering with organizations that reach these communities. (i.e. Second Harvest Food Bank and others)
7. Communities could pursue FEMA Matching Funds Grants for severe Repetitive Loss Areas.
8. Review and expand other public information activities, such as Flood Protection Assistance (Activity 360) and Flood Insurance Promotion (Activity 370).
9. Develop a regionwide Flood Response Program messaging plan.

For questions, please contact Amy Fonseca at (408) 630-3005 (office) or (408) 691-8889 (cell) or afonseca@valleywater.org

Agenda Meeting

Santa Clara County CRS Users Group & Program for Public Information (PPI)

Committee Meeting Notes

March 26, 2024 | 2:30 pm – 4:30 pm

Item #1: Introductions/Attendance

Item #2: Review of Meeting Goals and Agenda / Agenda Item #3: Annual Review of CRS Communities Roster:

- The main objectives of the meeting are as follows:
 - Fulfill the requirements for CRS PPI credit as per the CRS Coordinator's Manual.
 - Initiate the Annual PPI Reporting process for the 2021 PPI, year 3, which will conclude at the end of May 2024.
 - Review the status of the outreach initiatives listed in the 2021 PPI.
 - Discuss the Multi-jurisdictional Hazard Mitigation Plan.
 - Provide updates on the Regionalization Project and other Valley Water updates.
- **Action Items:**
 - Review the CRS community roster within the next 2 weeks and ensure accurate information.

Item #4: Valley Water CRS Program Updates

- Transition the Hazard Mitigation Plan to the watersheds division for better alignment, with Emily Zedler (Valley Water) being the new contact.
- Amy Fonseca has taken a new leadership role at Valley Water. Amy and Merna Leal will continue to support certain aspects of the plan during the transition to the watershed division.
- Valley Water is collaborating with Emma Kilkelly from Tera Tech, who will assist with the Hazard Mitigation Plan.
- Valley Water has been receiving several event tabling requests from different communities. We will share relevant events with the group and invite you to participate. This could be a great opportunity to use the flood event kits provided last year. Valley Water will try to attend the event, but if you cannot, we would encourage you or someone else from your office to attend.
 - Valley Water wants to coordinate with cities to prevent duplicating efforts and attend the same events (and distribute the same materials).
 - Valley Water receives calls/emails from residents and will forward calls/emails to respective cities' contacts as listed in the CRS roster.

Item #5: Floodplain Management Plan (FMP) Update:

- Valley Water/Tetra Tech will coordinate a meeting to discuss the mitigation plan.
- Emma Kilkelly (Lead Planner, Tetra Tech) presented an overview of the Flood Hazard Mitigation Plan.
 - The purpose of this plan is to reduce the adverse impacts of flooding by assessing existing measures and conducting hazard and risk assessments. Emma outlined the 10-step planning process, following the Community Rating System (CRS) guidelines.
- **Action Items:**
 - Provide Tetra Tech presentation to the group.
 - Merna to meet with Emily Zedler to continue the conversation on hotspots.
- **Questions:**
 - When will the plan be valid? Is it a five-year plan, and if so, what are the active dates? This information is important for people who plan their schedules around their cycle. For instance, we just passed our cycle for Santa Clara in 2023. Will the new plan be active from 2024 until 2029, and will it be valid during our next cycle?
 - The validity of the document will start from the time it is adopted or approved by CRS, and it will last for 5 years. The document will still be valid during

- Santa Clara's next cycle. If, for any reason, it increases your points, you can always request a modification of your score.
- In the past, we had an appendix for the mitigation plan when we used it for our floodplain management credits, and the county prepared the documents for this. Will there be an appendix for each of our agencies so that we can provide specific details and data for you to fill in? Or will it be just one comprehensive document that's standard for all agencies? It's important to have an appendix for each agency as the issues we face are different and specific to each of us.
 - All agencies will be covered under the general floodplain plan, but the specifics regarding the appendices are currently uncertain. We need to address specific requirements for each jurisdiction. Our goal is to include all agencies within the general plan.
 - Could we get a copy of the presentation provided by Tetra Tech?
 - Yes, the presentation will be shared with the group.
 - The all-hazard mitigation plan is typically developed by the county with input from representatives of the Office of Emergency Services (OES) rather than Floodplain managers or CRS coordinators. Will we be working with or mentioning the plan to the county OES to stay informed on its progress? Will there be regional coordination to ensure that everyone is aware of what is happening with the plan?
 - We intend to create a flood hazard mediation plan, which will be rolled into the counties either as an appendix or at the time of their next update. We hope they will be able to add the CRS requirements in a way that is similar to what they did in 2017. However, that is still a long way away, and we all need to be thinking about it. It may not affect you, but sometime in 2028 or 2029, we need to ensure everyone is on board with the CRS requirements, as they could impact your credit rating.
 - Is the plan to assess and evaluate the known flood hotspots part of the new initiative? Could this be done to align with other efforts?
 - It depends on the hotspot definition; there's no formal definition. But Valley Water and cities could align. As we start the planning process, there is an opportunity for credits when evaluating hotspot information.

Item #6: Review 2021 PPI "Other New Initiatives"

- Focus on two PPI New Initiatives:
 - Initiative #2: Expand partnerships with the local chamber of commerce to disseminate and share flood preparedness information.
 - Approach the Silicon Valley Chamber of Commerce and identify opportunities for partnerships. We need to be able to reach residents and businesses.
 - Morgan Hill—Chamber of Commerce/Downtown Association. Economic Development staff can support the distribution of information.
 - Outreach timing – End of Summer 2024.
 - **Action Item:**
 - Identify each city's chamber of commerce or equivalent and find ways to share information via websites, blogs, and newsletters.
 - Who in each organization can help establish a connection with the chamber of commerce and downtown associations?
 - Initiative #4: Expand on outreach to "hot spot" flood-prone areas by hosting on-site or virtual events.
 - Valley Water has hotspot data; cities may maintain different hotspot data depending on need (e.g., trash hot spots).
 - Valley Water has floodplain flood data; it's been provided to cities.
 - Identify high-risk areas (e.g., libraries, parks, stores, etc.) to provide flood preparedness information.
 - Valley Water maintains GIS layers with hotspot information.
 - We have flexibility with this initiative; we can get creative on addressing it.

- **Questions:**
 - What do we mean by "hot spot"? Is it a real event or a modeling hotspot?
 - Valley Water has modeling results for design flows with hot spot GIS layers. The GIS layer is based on historical observations of repeated flooding.
 - Valley Water has recently installed cameras to assist with flood monitoring.
 - <https://alert.valleywater.org/map?p=map>
 - Valley Water and cities might have different hot spot information based on what they manage (e.g., storm drains)

Agenda Item #7: 2021 Multi-Jurisdictional Program for Public Information (PPI) Annual Evaluation Report

- 330 Outreach Project (OP) Worksheet (on Egnyte):
 - Each city has a worksheet available. Sections include 1) All OP projects – each city can receive credits, 2) City-specific and 3) Valley Water-specific credits.
- Appendix A
 - Review and update information in the “FY 2024 (Year 2 of the 2021 PPI)” column.
 - Focus only on each respective community and two OP #All. Double-check information to ensure relevance. If there are any changes, provide a brief explanation.
 - Do not update or change any information in the other columns.
 - If changes to other columns are needed, please note any changes in the “FY 2024 (Year 2 of the 2021 PPI)” column.
 - Reminder—Appendix A is due August 1, 2024. However, it must be approved by the governing body as part of the annual recertification package.
 - Check if the governing body takes a summer recess to ensure it's approved by 8/1/24 (*annual recertification due date*), and/or when you are cycled by ISO.
 - When the PPI report is unavailable, cities are given a draft report by Valley Water, which is submitted along with an explanation regarding the governing body approving PPI.
 - This is an information item. The report describes how each city takes it to its governing body.
 - **Action Item:**
 - Review and update information in the “FY 2024 (Year 2 of the 2021 PPI)” column by the end of May 2024.

Agenda Item# 8: Activity 350 – Flood Protection, c. flood protection website

- **Action Item:**
 - Check flood protection resource web page links monthly to ensure active links; update the entire content annually.
 - Make sure to redirect to 1) valleywater.org/floodready, 2) floodsmart.gov, and 3) ready.gov.

Agenda Item#9: Next meeting – Joint CRS Users Group/Program for Public Information (PPI) Committee meeting

- Upcoming meeting in May 2024. A Doodle Poll will be sent.
 - Upcoming Agenda Items:
 - Valley Water’s Communications Unit will provide an update on their flood preparedness campaign.
 - Solicit ideas for next year’s campaign.
 - Discuss promotional materials for future flood readiness campaigns.

General Updates/Announcements:

- CRS regionalization Feasibility Study:
 - Thank you for your feedback. Your input has been used to readjust the study recommendations. Along with the baseline model suggested by Tetra Tech, Valley Water is currently exploring ways to simplify the program. The study is still ongoing, and Valley Water is evaluating various models. We will keep you informed as we move forward.
- Upcoming State CRS Users Group meeting – April 17, 2024.
- Reflections on recent ISO evaluations and efforts to improve documentation for ISO certification. Participants discuss their experiences with ISO specialists, challenges faced during ISO evaluations, and strategies for improving their scores, particularly in areas like floodplain management and hazard mitigation plans.
- Reminder to upload post-cycle documentation to Egnyte to ensure information is available for future use.
- **Questions:**
 - Can ISO revisit the evaluation if sufficient points are obtained from Valley Water's hazard mitigation plan? ISO may agree to a revision if points from the hazard mitigation plan can elevate the city's rating, but this depends on meeting or surpassing the threshold for the next class.

 - What documentation does ISO require from Valley Water for water drainage within Milpitas? ISO requirements for documentation from Valley Water may have changed over time. Previously, a comprehensive cost and accomplishment report sufficed, but confirming current requirements is essential. If documentation is needed, submit a request to Valley Water with enough time to pull reports/documentation. It is up to each community to conduct the impact adjustment analysis.

Agenda Meeting

Santa Clara County CRS Users Group & Program for Public Information (PPI) Committee Meeting

May 29, 2024 | 2:30pm – 4:30pm

Join Zoom Meeting

**Reviewing Action Items from the
3/26/24 CRS Users Group / PPI Committee Meeting**

Attachment 1

AGENDA ITEM #2: Review of Meeting Goals and Agenda / Agenda Item #3: Annual Review of CRS Communities Roster:**Action Item:**

Review the CRS community roster within the next 2 weeks and ensure accurate information.

<https://docs.google.com/spreadsheets/d/1t7c6-XXCfQ5urxqRJ-GxZDZ0jG6g/edit#gid=1135493871>

AGENDA ITEM #5: Floodplain Management Plan (FMP) Update**Action Items:**

Merna will meet with Emily Zedler to continue the conversation on hotspots.

Amy & Merna briefly met with Emily. It was determined that VW hotspots most likely differ from a community-identified hotspot/problem area. VW conducted hotspot outreach in FY24; we sent a community toolkit, materials, and signs to organizations in hotspot areas on 11/23 and 2/24. This will be reflected in the FY24 Annual Evaluation Report, and Paola Reyes will share details at the 5/29/24 PPI Committee Meeting.

You could build on VW's Field Information Team (FIT) hotspot GIS layer for communities wanting to do their own outreach to hotspot areas. <https://tinyurl.com/scvwdfit>.

AGENDA ITEM #6: Review 2021 PPI “Other New Initiatives”**Action Items:**

Initiative #2: Identify the Chamber of Commerce or equivalent in each city and find ways to share information via websites, blogs, and newsletters. *This initiative will be re-evaluated next fiscal year.*

Who in each organization can help establish a connection with the Chamber of Commerce and downtown associations?

Initiative #4: Expand on outreach to "hot spot" flood-prone areas by hosting on-site or virtual events.

Valley Water has hotspot data; cities may maintain different hotspot data depending on need (e.g., trash hot spots).

- Valley Water has floodplain flood data; it's been provided to cities.
- Identify high-risk areas (e.g., libraries, parks, stores, etc.) to provide flood preparedness information.
- Valley Water maintains GIS layers with hotspot information. <https://data-valleywater.opendata.arcgis.com/>

We have flexibility with this initiative; we can get creative on how to address it. *See notes on Action Item #5 mentioned above.*

AGENDA ITEM #7: 2021 Multi-Jurisdictional Program for Public Information (PPI) Annual Evaluation Report**Action Item:**

Review and update information in the “FY 2024 (Year 2 of the 2021 PPI)” column by the end of May 2024.

https://docs.google.com/document/d/1zYW25x_MB3INmTBV8CrlfgTE7zoEZKJ/edit

AGENDA ITEM # 8: Activity 350 – Flood Protection, c. flood protection website**Action Item:**

Check flood protection resource web page links monthly to ensure active links; update the entire content annually.

Make sure to redirect to 1) valleywater.org/floodready, 2) floodsmart.gov, and 3) ready.gov.

AGENDA ITEM #9: Next meeting – Joint CRS Users Group/Program for Public Information (PPI) Committee meeting

Upcoming meeting in May 2024. A Doodle poll will be sent.

Upcoming Agenda Items:

- Valley Water’s Communications Unit will provide an update on their flood preparedness campaign.
- Solicit ideas for next year’s campaign.

Discuss promotional materials for future flood readiness campaigns. *Due to budget constraints, Valley Water’s approach to giveaway items for community use will change starting in the October 2024 flood season.*

Santa Clara County CRS Users Group / PPI Committee Meeting
Attendance Sheet

May 29, 2024 | 2:30 - 4:30pm | Zoom

Name	Agency
Robb Lampa	CA Department of Water Resources
Jenn Chu	City of Cupertino
Susana Ramirez	City of Gilroy
Brian Petrovic	City of Milpitas
Charlie Ha	City of Morgan Hill
Maria Angeles	City of Morgan Hill
Lauren Cody	City of Mountain View
Renee Gunn	City of Mountain View
Rajeev Hada	City of Palo Alto
Vivian Tom	City of San Jose
Brandon Coco	City of Santa Clara
Christian Tran	City of Santa Clara
Darrell Wong	County of Santa Clara
Lea Velasco	City of Sunnyvale
Amy Fonseca	Valley Water
Kristen Yasukawa	Valley Water
Merna Leal	Valley Water
Paola Reyes	Valley Water
Rene Moreno	Valley Water
Adam Probolsky	Valley Water Consultant, Probolsky Research

Agenda Meeting
Santa Clara County CRS Users Group & Program for Public Information (PPI)
Committee Meeting Notes

May 29, 2024 | 2:30 pm – 4:30 pm

Item #1: Introductions/ Roll Call/ Roster Updates

Item #2: Review of the Meeting Goals and Agenda

- Review pending “Action Items” from the committee’s meeting on March 26, 2024.
 - Agenda Item #2: Review of Meeting Goals and Agenda / Agenda Item #3 – Annual Review of CRS Communities Roster – Reminder to update the CRS community roster.
 - Agenda Item #5: Floodplain Management Plan (FMP) Update – Valley Water met with Emily Zedler to discuss hotspots. Based on the conversation, there was no specific outreach to hotspots because they differ based on agency. A GIS layer is available for agencies to use to conduct targeted outreach.
 - Agenda Item #6: Review 2021 PPI “Other New Initiatives” – Based on targeted outreach efforts utilizing hotspot information, initiative #4 (expand on outreach to "hot spot" flood-prone areas by hosting on-site or virtual events) is complete. Initiative #2: Identify the Chamber of Commerce or equivalent in each city and find ways to share information via websites, blogs, and newsletters. This initiative will be re-evaluated next fiscal year.
 - Agenda Item # 8: Activity 350 – Flood Protection, c. flood protection website – Check links and ensure links direct to 1) valleywater.org/floodready, 2) floodsmart.gov, and 3) ready.gov. to ensure agencies receive CRS WEB credit.
 - Giveaway Items: Starting in FY25, Valley Water will be limited on giveaway items due to budget constraints. For the October 2024 flood season, Valley Water has purchased first aid pocket kits that will be provided to all SC County agencies for their use. Valley Water will also order emergency starter kits that we will distribute throughout the county; emergency starter kits shared previously will no longer be available to communities.

Action Items:

- Review and update the CRS community roster, including additional staff positions outside the CRS coordinator (if needed).
 - CRS community roster link: https://docs.google.com/spreadsheets/d/1ttp_t7c6-XXCfQ5urxqRJ-GxZDZ0jG6g/edit#gid=1135493871
- Review and check links to ensure they direct to Valley Water's website.

Item #3: Flood Awareness Survey 2024 Results Presentation

- Paola Reyes from Valley Water’s Communications Unit shared a presentation providing an overview of the launch of Valley Water’s Annual Flood Awareness Campaign (FY24).
- Adam Probolsky from Probolsky Research shared a presentation providing an overview of the 2024 Flood Awareness Survey Results.

Item #4: Valley Water update of the Feasibility Study for Regionalizing CRS in Santa Clara County and the Santa Clara County Multi-Jurisdictional Floodplain Management Plan (FMP) (flood-focused)

- A draft of the Feasibility Study for regionalizing CRS was shared with the CRS Users Group and Valley Water management. Valley Water Management is still considering the ideas proposed in the plan and has requested ways to streamline the program's administration. Tetra Tech, Valley Water’s consultant, continues to work on the study, and there have been no major changes since it was shared with the CRS Users Group.
- Valley Water is working on the flood-centric Multi-Jurisdictional Floodplain Management Plan and aims to provide an update soon. Tetra Tech is assisting in developing the floodplain management plan; they will reach out to Marlene Jacobs, ISO CRS Specialist, to review the 510 FMP checklists for both Valley Water and the City of San Jose (communities scheduled to be cycled in 2024) using the 2023/2024 (?) SC County Multi-Jurisdictional Hazard Mitigation Plan. The goal is to avoid duplicating efforts as the flood-centric FPM is developed.

Item #5: CRS 2024 Cycle Group (San Jose and Valley Water) and Annual Recertification

- If you completed the cycle last year, please upload the information to Egnyte. This will enable Valley Water to support future efforts in potential transition and provide examples for other cycling agencies.
- San Jose and Valley Water are scheduled to be cycled in November 2024. There have been no updates regarding the upcoming cycle. Valley Water can schedule a meeting with San Jose if they need our assistance/Valley Water documentation.
- Letters from ISO/FEMA for the annual recertifications should arrive soon. Valley Water will start gathering information for Activity 540; agencies requiring this and other Valley Water documentation for other activities should contact us.
- Final PPI Annual Evaluation Report should be ready to submit to ISO for recertification due on August 1, 2024 (*see Agenda Item #7*).
- **Action Item:**
 - If you do not receive a recertification letter or email from ISO by mid-June 2024, please contact Bradley Arkens @ Bradley.arkens@verisk.com for further information.
- **Question:**
 - Where can agencies upload their recertification files to Egnyte? Is there a specific folder? *All recertification documents should be uploaded to respective community folders. If there are any access or questions, please contact Valley Water.*

Item #6: California Flood Preparedness Week (October 2024)

- In preparation for California Flood Preparedness Week, the Department of Water Resources (DWR) will begin planning the upcoming campaign. Partner meetings will start soon. Please ensure that the contact information in the CRS community roster is current, as it will be shared with DWR to send out meeting invitations.
- Valley Water will have its separate kickoff event, including a flood preparedness week resolution and outreach, in October 2024.

Item #7: Complete Development of the 2021 Multi-Jurisdictional Program for Public Information (PPI) Annual Evaluation Report, FY 24 (Year 3: July 2023 to June 2024)

- All agencies should review and update FY24 Project Accomplishments column as soon as possible. Valley Water is preparing the non-agenda item for the Valley Water Board (June 21, 2024) submitting the Annual Evaluation Report.
- Each community should specify how the PPI Annual Evaluation Report will be shared with its governing board. At the meeting, each community confirmed the method of sharing the annual report with its governing body, and the present communities noted no changes.
 - Note that the PPI Annual Evaluation Report only needs to be sent (*does not need to be adopted – only the PPI itself has to be adopted*) to their respective governing body before submitting the report as part of the recertification documentation submittal that's due on August 1, 2024.
 - Valley Water will provide the committee with the final PPI Annual Evaluation Report and our Board non-agenda item cover memo by June 21, 2024 (after 5:00 pm PST).
- If communities do not update the PPI Annual Evaluation Report, Valley Water will proceed with the report without community information.

Action Item:

- Deadline – May 31, 2024: Update the FY24 Project Accomplishments column for your community [Google Link](#) **NOTE: Update Input Here Only column; Do Not edit anything else**
- **Question:**
 - It was mentioned that Valley Water plans to take the report to the Valley Water Board on June 21, 2024. Will the report be available after that? Cupertino plans to present to the council in July and will need the report in late June. *The PPI Annual Report will be posted and sent to the CRS community group on June 21 (after 5:00 pm PST). If content is required before June 21, contact Valley Water for draft content.*

Agenda Item #8: Other Items

- Rob Lampa from DWR is preparing to send an invite to an upcoming webinar series.
