

ACTION ITEM REPORT

Item Title: Consideration and ACTION to authorize the City Manager to dispose of surplus items.

Recommendation:

These vehicles were part of the 2025-2026 budget replacement vehicles. The new vehicles have arrived so these need to be considered surplus and no longer needed. Enterprise Fleet will sell these at their auction and will be credited against our 2026-2027 vehicle needs. Three of the vehicles are 2016-year model vehicles with high mileage. The 2019-year model vehicle is 7 year old and has high mileage. The 2020-year model vehicle is 6 years old but has had lot of repairs already so it is best to get rid of the maintenance drain since the sales value is still pretty good.

I recommend approval.
