

ACTION ITEM REPORT

Item Title: Consideration and ACTION to approve upgrades to the parking areas at the Community Park and Memorial park.

Recommendation:

The Community Park and the Memorial Park parking lots need to be seal coated and restriped. That is something our staff cannot do. A company that specializes in that has submitted prices to have this done. It will be a huge improvement and preserve our parking areas at both parks for a long time. The price given is through a state contracted price of \$25,000 and it is a good price.

I recommend approval.
