

## ACTION ITEM REPORT

**Item Title:** Consideration and ACTION to approve the action taken by the Los Fresnos Community Development Board to fund upgrades to the city pool.

**Recommendation:**

This will be approved by the CDC Board on Monday April 7.

The pool structure area is in need of a lot of work. It was built in the mid 1990's so it is about 30 years old. The only work done on this part has been repainting. It looks old and worn out. It needs to be repainted again. All of the doors need to be replaced. They originally installed metal doors and all of them are extremely rusted with most of the bottom parts gone. The door frames are in the same shape. The showers, toilets and dressing areas are just one large area with no privacy at all. The large dressing area is the men's but we always have more women so we would like to switch them. We need to add partitions, a toilet, new showers with partitions, repair some of the blocks that area cracked and then of course paint the facility. The quote we have is just under \$40,000.

I recommend approval of the action taken by the LF CDC board to fund upgrades to the pool structure not to exceed \$40,000.
