

ACTION ITEM REPORT

Item Title: Consideration and ACTION to amend the interlocal agreement with Cameron County Regional Mobility Authority (CCRMA) to include the preliminary engineering services, construction and maintenance with Union Pacific Railroad Company for the affected railroad track and right away near the project area.

Recommendation:

As engineering and planning continues for the Hike & Bike Trail, Union Pacific is requiring addition engineering services and construction and maintenance fee for the railroad. I take this as positive in that we will hopefully be able to get the crossings we need. This includes an additional \$65,000. We really don't have a choice if we want to continue the project. We can utilize TIRZ funding for this.

I recommend approval.
